The Economic History of Ireland from the Union to the Famine George O'Brien, 1921 The Economic History of Ireland From the Union to the Famine (Classic Reprint) George O'Brien, 2017-02-15 Excerpt from The Economic History of Ireland From the Union to the Famine Governmental remedies Sect 1 Directed towards increasing Production a Improving the Quality of Agriculture b Increasing the Quantity of Agriculture Sect 2 Directed towards decreasing Population a The Ejectment Acts b The Subletting Act 0 Raising the Franchise d The Poor Law e The Repeal of the Corn Laws 1 Emigration VII The great famine Sect 1 Earlier Famines Sect 2 The Course of the Famine Sect 3 The Cost of the Famine Sect 4 The Relief Measures About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Ireland, Sweden, and the Great European Migration, 1815-1914** Donald Harman Akenson, 2011-08-23 This book is the product of Donald Akenson's decades of research and writing on Irish social history and its relationship to the Irish diaspora it is also the product of a lifetime of trying to figure out where Swedish America actually came from and why These two matters Akenson shows are intimately related Ireland and Sweden each provide a tight case study of a larger phenomenon one that for better or worse shaped the modern world the Great European Diaspora of the true nineteenth century Akenson's book parts company with the great bulk of recent emigration research by employing sharp transnational comparisons and by situating the two case studies in the larger context of the Great European Migration and of what determines the physics of a diaspora no small matter as the concept of diaspora has become central to twenty first century transnational studies He argues against the increasing refusal of mainstream historians to use empirical databases that the history community still has a lot to learn from economic historians and simultaneously that despite the self confidence of their proponents narrow economically based explanations of the Great European Migration leave out many of the most important aspects of the whole complex transaction Akenson believes that culture and economic matters both count and that leaving either one on the margins of explanation yields no valid explanation at all **Era of Emancipation** Brian Jenkins, 1988-09-01 The conduct of the central government was often reactive rather than deliberate While its lack of a coherent policy was not remarkable given the period under consideration the government's failure to develop such a policy was disastrous in dealing with the fundamental issue of Catholic emancipation The final surrender of Peel and Wellington was bitter and the 1829 Catholic relief act contained insults to Irish Catholics The nature of the act coupled with continued Protestant ascendancy and landlordism and Catholic mass poverty and insecurity meant that Catholic emancipation was not a

prelude to Ireland's assimilation into the United Kingdom but instead the beginning of the process of modern Irish nationalism

The Land and the People of Nineteenth-Century Cork James S. Donnelly Jr, 2017-07-06 First published in 1975 Using estate records local newspapers and parliamentary papers this book focuses upon two central and interrelated subjects the rural economy and the land question from the perspective of Cork Ireland's southernmost country The author examines the chief responses of Cork landlords tenant farmers and labourers to the enormous difficulties besetting them after 1815 He shows how the great famine of the late 1840s was in many ways an economic and social watershed because it rapidly accelerated certain previous trends and reversed the direction of others He also rejects the conventional view of the land war of the 1880s arguing that in Cork it was essentially a revolution of rising expectations in which tenant farmers struggled to preserve their substantial material gains since 1850 by using the weapons of agrarian trade unionism civil disobedience and unprecedented violence This title will be of interest to students of rural history and historical geography

Northern Ireland and Beyond E. Biagini, 2013-03-09 Northern Ireland's problems are rooted in physical and historical geography small resource base peripheral location violent conquest repression and ruthless emargination of the native population by the Protestant settlers At the time of partition many areas already had a Catholic majority and the Catholic population is increasing faster thereby undermining the Protestant position Britain gains no advantage by keeping Northern Ireland Nevertheless this solution is not going to be cheap not merely because of opposition by Protestant loyalists but also because of the economic weakness of both Irelands Unlike other books on the subject this one goes to the heart of the matter Britain would be serving her own interest by easing reunification of Ireland albeit gradually and cautiously In this perspective the conclusion is that history is inexorably moving beyond Northern Ireland Audience European Community administrators and planners diplomats politicians students in Political Science Economics History and Geography
