Neville, 2009 The essays in this collection start with the premise that although race like class and gender is socially constructed all three categories have been shaped profoundly by their context in a capitalist society Race in other words is a historical category that develops not only in dialectical relation to class and gender but also in relation to the material conditions in which all three are forged In addition to discussing and analyzing various dimensions of the African American experience contributors also consider the ways in which race plays itself out in the experience of Asian Americans and in the very different geopolitical environments of the British Empire and postcolonial Africa Contributors are Pedro Caban Sundiata Keita Cha Jua David Crockett Theodore Koditschek Scott Kurashige Clarence Lang Minkah Makalani Helen A Neville Ibitola O Pearce David Roediger Monica M White and Jeffrey Williams **The Bloomsbury Companion to Marx** Andrew Pendakis, Imre Szeman, Jeff Diamanti, 2018-12-27 There are very few figures in history that have exerted as much and as varied an influence as Karl Marx His work represents an unrivalled intervention into fields as various as philosophy journalism economics history politics and cultural criticism His name is invoked across the political spectrum in connection to revolution and insurrection social justice and economic transformation The Bloomsbury Companion to Marx is the definitive reference guide to Marx s life and work Written by an international team of leading Marx scholars the book offers comprehensive coverage of Marx s life and contexts sources influences and encounters key writings major themes and topics and reception and influence The defining feature of this Companion is its attention to the new directions in Marxism that animate the theoretical scientific and political sides of Marx s thought Gender and the growing importance of Marxist feminism is treated as equally important to clarifying Marx today as traditional and diverse categories of critique such as class capital and mode of production Similarly this Companion showcases the methodological and political importance of Marxism to environmentalist politics Finally the volume examines in detail non European Marxisms demonstrating the centrality of Marxist thought to political movements
