Canada in the European Age, 1453-1919 R.T. Naylor, 2006-07-10 When Canada in the European Age 1453 1919 was first published it reversed traditional methodology by placing Canada s evolution in the context of the rise and fall of empires around the world not just in the Americas R T Naylor contends that the struggle for property and political rights in early nineteenth century Newfoundland is incomprehensible without an understanding of events as distinct as the Afro American slave trade or the Napoleonic Wars the opening of the natural resource frontier of British Columbia makes sense only if seen as another manifestation of the same historical forces that fired the opening shots in the Opium wars in China and the fate of Canada s native peoples may have been different in form but not in essence from that of the aboriginal inhabitants on almost every continent **The Black Death in Egypt and England** Stuart J. Borsch, 2009-09-15 Throughout the fourteenth century AD eighth century H waves of plague swept out of Central Asia and decimated populations from China to Iceland So devastating was the Black Death across the Old World that some historians have compared its effects to those of a nuclear holocaust As countries began to recover from the plague during the following century sharp contrasts arose between the East where societies slumped into long term economic and social decline and the West where technological and social innovation set the stage for Europe s dominance into the twentieth century Why were there such opposite outcomes from the

same catastrophic event In contrast to previous studies that have looked to differences between Islam and Christianity for the solution to the puzzle this pioneering work proposes that a country's system of landholding primarily determined how successfully it recovered from the calamity of the Black Death Stuart Borsch compares the specific cases of Egypt and England countries whose economies were based in agriculture and whose pre plague levels of total and agrarian gross domestic product were roughly equivalent Undertaking a thorough analysis of medieval economic data he cogently explains why Egypt's centralized and urban landholding system was unable to adapt to massive depopulation while England's localized and rural landholding system had fully recovered by the year 1500 *From the Brink of the Apocalypse* John Aberth, 2013-09-13 Praise for the first edition Aberth wears his very considerable and up to date scholarship lightly and his study of a series of complex and somber calamities is made remarkably vivid Barrie Dobson Honorary Professor of History University of York The later Middle Ages was a period of unparalleled chaos and misery in the form of war famine plague and death At times it must have seemed like the end of the world was truly at hand And yet as John Aberth reveals in this lively work late medieval Europeans cultural assumptions uniquely equipped them to face up positively to the huge problems that they faced Relying on rich literary historical and material sources the book brings this period and its beliefs and attitudes vividly to life Taking his themes from the Four Horsemen of the Apocalypse John Aberth describes how the lives of ordinary people were transformed by a series of crises including the Great Famine the Black Death and the Hundred Years War Yet he also shows how prayers chronicles poetry and especially commemorative art reveal an optimistic people whose belief in the apocalypse somehow gave them the ability to transcend the woes they faced on this earth This second edition is brought fully up to date with recent scholarship and the scope of the book is broadened to include many more examples from mainland Europe The new edition features fully revised sections on famine war and plague as well as a new epitaph The book draws some bold new conclusions and raises important questions which will be fascinating reading for all students and general readers with an interest in medieval history **British Economic and Social History** R. C. Richardson, William Henry Chaloner, 1996 From Settler to Citizen Ross Frank, 2007-01-29 Ross Frank has written a model study of New Mexico's Vecinos a historical narrative as absorbing as it is illustrative of complex social processes Joyce Appleby author of *Inheriting the Revolution* The first Generation of Americans This is a richly dense and sophisticated history of eighteenth century New Mexico that focuses on the economic and cultural foundations of identity Deftly reading subtle changes in material culture and the organization of space Frank provides historians of the Americas with a fresh perspective on the impact of the Bourbon Reforms at the margins of empire Ram n Guti rrez author of *When Jesus Came the Corn Mothers Went Away* Marriage Sexuality and Power in New Mexico 1500-1846 Comparative Economics John-Michael Montias, 2023-04-28 First published in 1994 The reasons methods and outcomes of system change in general and in Russia and Eastern Europe in particular are analyzed using the analytical apparatus developed in the monograph The New Cambridge Medieval
