Glassburner, 1971 The Indonesian Economy Hal Hill, 2000-04-04 Few countries have experienced such sharply fluctuating fortunes as Indonesia This book offers a balanced analysis evaluation and explanation of Indonesia's economic performance from 1967 Hal Hill highlights Indonesia's successes during this period rapid industrialisation major achievements in the food crop sector and the adoption from the mid 1980s of outward looking policies He also draws attention to the challenges facing the country including the rocky path towards economic reform the large external debt regional and ethnic disparities and the need for a transparent and predictable policy environment In this second edition an extended postscript takes the story through the dramatic turnaround and political and economic crises since 1997 including the downfall of Soeharto Macroeconomic and Monetary Policy Issues in Indonesia Akhand Akhtar Hossain, 2013-08-15 Following the acquisition of its sovereignty from the Netherlands in 1949 Indonesia experienced serious economic and political problems during the 1950s and 1960s before entering a three decade long period of rapid economic growth Hard hit by the financial crisis of the late 1990s Indonesia undertook a wide range of economic and financial reforms These reforms served to prepare it well for the 2007 08 global financial crisis through which Indonesia passed relatively unscathed Drawing on empirical research this book presents a comprehensive empirical study on the key macroeconomic relations and monetary policy issues in Indonesia The book analyses monetary fiscal and exchange rate policies looking at their interactions and impacts on the economy It demonstrates how important macroeconomic management for monetary and financial stability is to sustained national economic growth and development Data from the 1970s is compared and contrasted with 1950s data to analyse macroeconomic policies and

**Economic Change in Modern Indonesia** Anne Booth, 2016-02-11 Indonesia is often viewed as a country with substantial natural resources which has achieved solid economic growth since the 1960s but which still faces serious economic challenges In 2010 its per capita GDP was only nineteen per cent of that of the Netherlands and twenty two per cent of that of Japan In recent decades per capita GDP has fallen behind that of neighbouring countries such as Malaysia and Thailand and behind China In this accessible but thorough new study Anne Booth explains the long term factors which have influenced Indonesian economic performance taking into account the Dutch colonial legacy and the reaction to it after the transfer of power in 1949 The first part of the book offers a chronological study of economic development from the late nineteenth to the early twenty first century while the second part explores topics including the persistence of economic nationalism and the ongoing tensions between Indonesia's diverse regions **Short of the Goal** Nancy Birdsall, 2006 Analyzes U S policy toward poorly performing states that are ineligible for new U S foreign assistance programs and examines the role of specific policy instruments in building state capacity to prevent deterioration and collapse Provided by Recollections Thee Kian Wie, 2003-08-01 This collection of memoir style articles is based on extended publisher interviews with a number of eminent Indonesians who have played an important role in influencing the evolution of Indonesia s economy e Thee Kian Wie one of Southeast Asia s most eminent economists has provided a great service to the research and policy communities with an interest in Indonesia In this fascinating volume we get up close to many of the most influential architects of economic policy during the Soeharto era their backgrounds their world views and their reminiscences about government e Hal Hill H W Arndt Professor of Southeast Asian EconomiesAustralian National University

The Making of Middle Indonesia Gerry van Klinken,2014-01-30 What holds Indonesia together A strong leader is the answer most often given This book looks instead at a middle level of society Middle classes in provincial towns around the vast archipelago mediate between the state and society and help to constitute state power Middle Indonesia is a social zone connecting extremes The Making of Middle Indonesia examines the rise of an indigenous middle class in one provincial town far removed from the capital city Spanning the late colonial to early New Order periods it develops an unusual associational notion of political power Soft modalities of power included non elite provincial people in the emerging Indonesian state At the same time growing inequalities produced class tensions that exploded in violence in 1965 1966 

Driven by Growth James

William Morley, 2015-04-08 A thoroughly revised and updated edition of the highly regarded 1993 book Driven by Growth this work presents the political economic evolution of the Asia Pacific countries with overviews of the impact of economic development on political change This new edition now includes chapters on Burma and Vietnam New authors have been added and all the original chapters have been revised Developing Country Debt and Economic Performance, Volume 3 Jeffrey D. Sachs, Susan M. Collins, 2007-12-01 For dozens of developing countries the financial upheavals of the 1980s have set back economic development by a decade or more Poverty in those countries has intensified as they struggle under the burden of an enormous external debt In 1988 more than six years after the onset of the crisis almost all the debtor countries were still unable to borrow in the international capital markets on normal terms Moreover the world financial system has been disrupted by the prospect of widespread defaults on those debts Because of the urgency of the present crisis and because similar crises have recurred intermittently for at least 175 years it is important to understand the fundamental features of the international macroeconomy and global financial markets that have contributed to this repeated instability This project on developing country debt undertaken by the National Bureau of Economic Research provides a detailed analysis of the ongoing developing country debt crisis The project focuses on the middle income developing countries particularly those in Latin America and East Asia although many lessons of the study should apply as well to other poorer debtor countries The project analyzes the crisis from two perspectives that of the international financial system as a whole volume 1 and that of individual debtor countries volumes 2 and 3 This third volume contains lengthy and detailed case **An Economic History of** studies of four very different Asian countries Turkey Indonesia Korea and the Philippines Indonesia Jan Luiten van Zanden, Daan Marks, 2013-05-02 Based on new datasets this book presents an economic history of Indonesia It analyses the causes of stagnation of growth during the colonial and independence period making use of new theoretical insights from institutional economics and new growth theory. The book looks at the major themes of Indonesian history colonial exploitation and the successes and limitations of the post 1900 welfare policies the price of instability after 1945 and the economic miracle after 1967 The book not only discusses economic change and development or the lack thereof but also the institutional and socio political structures that were behind these changes It also presents a lot of new data on the changing welfare of the Indonesian population on income distribution and on the functioning of markets for rice credit and labour Concluding with a discussion on whether the poor profited from the economic changes this book is a useful contribution to Southeast Asian Studies and International Economics Indonesia Beyond Suharto Donald K. Emmerson, 2015-05-20 This text presents an accessible introduction to the most significant problems facing Indonesia and raises issues for further investigations It addresses such questions as how has Indonesia managed to remain one country and is there a truly national Indonesian culture National Integration in Indonesia Christine Drake, 2019-03-31 Indonesia s great size and diversity and its history of regional dissension have made its struggle for national integration particularly

complex Christine Drake presents an informed and balanced picture of past and present developments in this struggle offering readers a realistic assessment of the current status and future prospects of national integration in Indonesia By addressing historical political social and economic issues in conjunction with statistical analysis Professor Drake argues that the spatial pattern of integration is far more complex than the commonly accepted core periphery model of Indonesian integration and development The author examines the effectiveness of Indonesian government policies in promoting national integration and concludes that in general they have led to greater national unity although many serious problems remain

Legacy of Engagement in Southeast Asia Ann Marie Murphy, Bridget Welsh, 2008 By looking back to understand the contemporary political and economic landscape of Southeast Asia these essays shed light on how modern Southeast Asia has evolved Special focus centres on US engagement with the region by both governmental and non governmental organisations

The Politics of Economic Liberalization in Indonesia Andrew Rosser, 2013-07-04 This book examines the dynamics shaping the economic process of economic liberalisation in Indonesia since the mid 1980 s Much writing on the process of economic liberalisation in developing countries views economic liberalisation as the victory of economic rationality over political and social interests In contrast this book argues that economic liberalisation should not be understood in these terms but rather in the way that political social interests shape processes of economic reform in both a positive and negative sense Specifically Rosser argues that economic liberalisation needs to be understood in terms of the extent to which economic crises shift the balance of power and influence within society away from coalitions opposed to reform and towards those in favour of reform In the Indonesian context the main coalitions that need to be examined in this respect are the politico bureaucrats and the conglomerates who have generally opposed reform and mobile capitalists who have generally supported reform Based on extensive original research and providing much new material the book considers the politics of economic policy making in Indonesia in a range of sectors including the capital market intellectual property law the banking industry and the trade and investment sectors Analysing why the nature of economic policy in Indonesia has varied over time this study argues that there is nothing inevitable about a transition to a fully fledged liberal market order in Indonesia and outlines possible future scenarios for the country's political economy Southeast Asia's Chinese Businesses in an Era of Globalization Leo Survadinata, 2006 Addresses the rise of China and its impacts on Southeast Asia's economies and businesses especially on those of ethnic Chinese Also discusses Southeast Asian government policies particularly their economic and business policies towards local Chinese and Southeast Asian Chinese businesses both conglomerates and SMEs in an era of globalization
