*Discover Your Heritage* Mary Ellen Perkins, 1989-06-30 Since 1956 more than 1 000 historical markers have been erected throughout Ontario *Progressive Heritage* James Doyle, 2006-01-01 Most critics and literary historians have ignored Marxist inspired creative literature in Canada or dismissed it as an ephemeral phenomenon of the 1930s Research reveals however that from the 1920s onward Canadian creative writers influenced by Marxist ideas have produced a quantitatively substantial and artistically significant body of poetry drama fiction and non fiction This book traces historically and evaluates critically this tradition with particular emphasis on writers who were associated with or sympathetic to the Communist Party of Canada After two chapters surveying the work of anti capitalist writers of the nineteenth and early twentieth centuries the book concentrates on the development of Marxist inspired writing from the 1920s to the end of the twentieth century Besides devoting attention to both social and theoretical backgrounds this study provides critical commentary on work by prominent writers who spent part of their literary careers as Communist Party members including Dorothy Livesay Patrick Anderson Milton Acorn and George Ryga as well as less well known but more fervent Communists such as Margaret Fairley Dyson Carter Joe Wallace Stanley Ryerson and Jean Jules Richard Although primarily concerned with the older generation of Marxists who flourished between the 1920s and the 1970s the book also includes a chapter on the post 1970s New Left

*Management Planning for Cultural Heritage* Ken Taylor, Giulio Verdini, 2021-12-30 Management Planning for Cultural Heritage challenges traditional perceptions of and about the heritage planning process while also presenting a comprehensive analysis of the ever widening field of Cultural Heritage Conservation Drawing on the authors experience in teaching and involvement in international practice the book examines the changes that are taking place in modes of thinking about heritage as part of increasingly complex urban transformations and considers how these must engage with and inform professional practice The book also acknowledges that international best practice has developed a great deal over the last 40 years and needs to be adapted applied and refined through the recognition and application of regional values tangible and intangible based on cultural attitudes and practices Emphasising the critical role of heritage planning and management in guiding change Taylor and Verdini argue that this is especially critical if we are to safeguard values identity and significance In this sense heritage is understood not only as a technical process but also as a social construct The book therefore promotes a people centred approach to cultural heritage management Management Planning for Cultural Heritage will be of
