Imagining a Great Republic Thomas E. Cronin, 2017-11-10 In the first comprehensive reading of dozens of American literary and social culture classics Tom Cronin one of America's most astute students of the American political tradition tells the story of the American political experiment through the eyes of forty major novelists from Harriet Beecher Stowe to Hunter S Thompson They have been moral and civic consciousness raisers as we have navigated the zigs and zags the successes and setbacks and the slow awkward evolution of the American political experiment Constitutional democracy equal justice for all the American Dream and American Exceptionalism are all part of our country's narrative But as Imagining a Great Republic explains there has never been just a single American narrative we have competing stories just as we have competing American Dreams and competing ways of imagining a more perfect political union Recognizing and understanding these competing values is a key part of being American Cronin's book explains how this is possible and why we should all be proud to be American

A Reenchanted World James William Gibson, 2009-04-14 A surprising and enlightening investigation of how modern society is making nature sacred once again For more than two centuries Western cultures as they became ever more industrialized increasingly regarded the natural world as little more than a collection of useful raw resources The folklore of powerful forest spirits and mountain demons was displaced by the practicalities of logging and strip mining the traditional rituals of hunting ceremonies gave way to the indiscriminate butchering of animals for meat markets In the famous lament of Max Weber our surroundings became disenchanted with nature's magic swept away by secularization and rationalization But now as acclaimed sociologist James William Gibson reveals in this insightful study the culture of enchantment is making an astonishing comeback From Greenpeace eco warriors to evangelical Christians preaching creation care and geneticists who speak of human animal kinship Gibson finds a remarkably broad yearning for a spiritual reconnection to nature As we grapple with increasingly dire environmental disasters he points to this cultural shift as the last utopian dream the final hope for protecting the world that all of us must live in

Ecosublime Lee Rozelle, 2006-02-12 Explores 19th century modern postmodern and millennial texts as they portray the changing ecological face of America Lee Rozelle probes the metaphor of environmental catastrophe in American literature of the last 150 years In each instance Rozelle finds evidence that the ecosublime nature experienced as an instance of wonder and fear profoundly reflects spiritual and political responses to the natural world America's increasingly anti ecological trajectory and the ascendance of a post natural landscape In the 19th century Rozelle argues Isabella Bird and Edgar Allan Poe represented the western wilderness as culturally constructed and idealized landscapes Gardens forests and frontiers are conceptual frameworks that either misrepresent or uphold ecological space Modernists like Nathanael West and William Carlos Williams on the other hand portray urban space as either wastelands or mythical urban gardens A chapter on Charles W Chesnutt and Rebecca Harding Davis analyzes a new breed of literary eco advocate

educating and shocking mainstream readers through depictions of ecological disaster A later chapter probes the writings of Edward Abbey and the Unabomber Manifesto to delve into the sublime dimensions of environmental activism monkey wrenching and eco terrorism

Explorations in Ecocriticism Paul Lindholdt, 2015-04-09 A chief innovation of Explorations in Ecocriticism is to push ecological criticism beyond its focus on literary studies to engage with other arts and culture One chapter closely examines the pictures commissioned by the U S Bureau of Reclamation to valorize its big dam projects Previously no one has written about the large art collection that toured the nation under the auspices of the Smithsonian in the early 1970s when the Bureau of Reclamation was under fire and new environmental regulations were becoming law Another chapter An Iconography of Sabotage previously published in France as part of a Paris symposium looks at the pictorial dimension of saboteurs throughout American history with a special emphasis on the IWW and Earth First The book draws extensively on the social sciences Ecology and environment are treated too often as technical topics that go over the heads of lay readers Many Americans care about air and water quality the extinction of species and the unfortunate politicization of science But they also find the discourse daunting the details exceedingly complex By leavening such heavy subjects with current events Explorations in Ecocriticism makes environmental issues accessible to lay readers and offers routes to sustainability in the United States today

America First! Bill Kauffman,2016 Bill Kauffman described by the Washington Post as having the pleasantly wicked touch of H L Mencken examines the cultural factors and political schisms of 20th century American nationalism He weaves a fascinating tale that links Sinclair Lewis to NAFTA The Best Years of Our Lives to Ross Perot and the Old Right to the New Left He discusses the Perot phenomenon the presidential campaign and the influence of Pat Buchanan the impact of free trade agreements the film industry of the 1930s and a fascinating cast of characters and causes in what is sure to be controversial reading As Gore Vidal notes in his foreword By studying our history Kauffman has latched on to some interesting facts as opposed to opinions that completely turn inside out the tedious liberal versus conservative debate or grunting contest just the sort of wake up call needed for anyone in search of a better understanding of the richly complex roots of the contemporary America First movement For the People News ReporterBill Kauffman deserves much credit for the good he has done in revising some of the cliches dominating the media that have distorted our sense of American history Kauffman has made an important and very readable contribution Chronicles a highly relevant and readable book from start to finish The Freeman some of the most enjoyable and fascinating reading to be found If you read only one

Lines on the Land Scott Herring, 2004 Lines on the Land Writers Art and the National Parks Scott Herring The nineteenth century photographer William Henry Jackson once complained of the skepticism with which early descriptions of Yellowstone were met the place was too wondrous to be believed The public demanded proof and a host of artists and writers obliged These early explorers possessed a vigorous devotion to the young nation s wilderness the naturalist John Muir famously toured the land from Wisconsin to Florida on foot and through their work established aesthetic categories that exist to this day In Lines on the Land Scott Herring contends that these writers and artists were canon makers recognizing the national parks as naturally occurring works of art and conferring upon them a cultural prestige the parks were the splendid focal points of the American landscape These early canonizing works are homages to a vast untouched wilderness This praise would gradually give way however to a distinctly American anger what Herring calls outraged idealism Later generations were faced with a changing culture that had imperfectly absorbed and even misrepresented the national park aesthetic The postwar park was overrun by cars and tourists who could not possibly match the pioneering naturalists profound commitment to and appreciation for their surroundings The collective tone of the parks chroniclers as a result evolved from celebration of awesome beauty to indignation over the perceived corruption of the parks both as an ideal and as actual physical settings Herring traces this shift through the work of a wide spectrum of creative minds from early figures such as Muir and Thomas Moran to later observers of the parks such as Ansel Adams Sylvia Plath Edward Abbey and Rick Bass The text is punctuated by autobiographical interchapters in which Herring relates the book s chief themes to his own experiences in Yellowstone National Park Under the Sign of Nature Explorations in Ecocriticism *Eco-Warriors* Rik Scarce, 2016-06-16 Eco Warriors was the first in depth look at the people actions history and philosophies behind the radical environmental movement Focusing on the work of Earth First the Sea Shepherd Greenpeace and the Animal Liberation Front among others Rik Scarce told exciting and sometimes frightening tales of front line warriors defending an Earth they see as being in environmental peril While continuing to study these movements as a Ph D student Scarce was jailed for contempt of court for refusing to divulge his sources to prosecutors eager to thwart these groups activities In this updated edition Scarce brings the trajectory of this movement up to date including material on the Earth Liberation Front and provides current resources for all who wish to learn more about one of the most dynamic and confrontational political movements of our time Literate captivating and informative this is also an ideal volume for classes on environmentalism social movements or contemporary politics [The Cambridge History of the American Novel](#) Leonard Cassuto, 2011-03-24 An authoritative and lively account of the development of the genre by leading experts in the field **Dripping Dry** David N. newest and in some ways most provocative book as he casts yet another jaundiced eye on Washington and the motives behind protecting the homeland and prosecuting a wildly unpopular war with Iraq For James Bovard as always it all comes down to a trampling of personal liberty and an end to privacy as we know it From airport security follies that protect no one to increased surveillance of individuals and skyrocketing numbers of detainees the war on terrorism is taking a toll on individual liberty and no one tells the whole grisly story better than Bovard *Book Lust* Nancy Pearl, 2009-09-29 What to read next is every book lover's greatest dilemma Nancy Pearl comes to the rescue with this wide ranging and fun guide to the best reading new and old Pearl who inspired legions of litterateurs with *What If All the City Read the Same Book* has devised reading lists that cater to every mood occasion and personality These annotated lists cover such topics as mother daughter relationships science for nonscientists mysteries of all stripes African American fiction from a female point of view must reads for kids books on bicycling chick lit and many more Pearl's enthusiasm and taste shine throughout
