*You and Me: The Neuroscience of Identity* Susan Greenfield, 2016-10-18 What is it that makes you distinct from me Identity is a term much used but hard to define For that very reason it has long been a topic of fascination for philosophers but has been regarded with aversion by neuroscientists until now Susan Greenfield takes us on a journey in search of a biological interpretation of this most elusive of concepts guiding us through the social and psychiatric perspectives and ultimately to the heart of the physical brain Greenfield argues that as the brain adapts exquisitely to environment the cultural challenges of the twenty first century with its screen based technologies mean that we are facing unprecedented changes to identity itself
