around the elaboration and implementation of a specific concept of revolutionary politics and this study investigates both the rise of the KPD as a mass party and its failure to set off a socialist revolution in the early 1920s in light of the contradictory ways German workers responded to its revolutionary strategy When I began to study the KPD in the mid 1970s scholarly works in the West portrayed a party so out of touch with the realities of German life from 1918 to 1933 that its history was a litany of political mistakes that led from crisis to catastrophe The KPD was dominated by the foreign policy interests of the Soviet Union by factional disputes and personal rivalries among the leadership by an authoritarian centralized party structure that stifled rank and file initiative and imposed a party line determined in Moscow and Berlin and by a rigid ideology largely irrelevant to trends in German economy society and politics with at best compensatory value for a minority of the most impoverished workers
