Head For Success What Secondary Schools Did Achieve And Still Can:

Head for Success Herbert Harris-Taylor, 2003 Successful School Leadership: Linking with Learning and Achievement Christopher Day, Pam Sammons, Ken Leithwood, David Hopkins, Qing Gu, Eleanor Brown, Elpida Ahtaridou, 2011-05-16 This book is based on the largest and most extensive empirical study of contemporary leadership in primary and secondary schools in England. The results demonstrate that heads of successful schools improve the quality of student learning and achievement through who they are, their values, virtues, dispositions, and competencies, as well as their timely use of change and improvement strategies. *Successful School Leadership* provides a comprehensive analysis of the values and qualities of head teachers. It assesses the strategies they use and how they adapt these to their particular school context in order to ensure positive increases in the learning, well-being, and achievement of their students. The authors identify a basic set of leadership practices resulting from their findings, analyse and describe the leadership values, qualities, and behaviours related to different phases in schools' improvement journeys. Provide illustrative case studies of primary and secondary schools that highlight context-sensitive strategies. Provide a contemporary overview of international research and thinking about successful school leadership. Recognize similar and distinguishing features between schools in different socio-economic groups. This book is valuable reading for school leaders and senior teachers, educational policy makers and advisors, as well as anyone involved or interested in education and its leadership. *Successful School Leadership: Linking With Learning And Achievement* Day, Christopher, Sammons, Pam, Leithwood, Ken, 2011-05-01 This book examines the nature of successful school leadership: what is it, what does it look like in practice, and what are the consequences for schools and pupils. As well as providing a contemporary overview of international research and thinking about successful school leadership, it identifies similar and distinguishing features of successful leadership in different sectors, between heads of different experience, and between schools in different socio-economic circumstances. It introduces the notions of layered leadership and progressive trust as key features of successful leadership. Additionally, it discusses issues of sustainability and resilience in successful school leadership. Finally, it considers how successful school leadership connects to pupil success, exploring the leadership strategies used by successful heads in a range of primary and secondary schools whose pupil attainment results had improved over a three-year period during their headship. *Elementary and Secondary Education Amendments of 1969, Hearings Before the Subcommittee on Education* United States.
