

COMMENTS BY THREE MEDICAL DOCTORS:

"This book is must reading for all cancer victims . . . a powerful challenge to modern medicine . . . The Kohlers themselves, aware of the urgency of their message, open their book with the statement, 'If you or a member of your family are seriously ill, may we suggest that you begin reading this book with Chapter 11.' I would add—if you and your family are in good health, you must immediately begin reading this book with page one."

—ROBERT S. MENDELSON, M.D.,

Medical Director, American International Hospital, Evan, Illinois; Associate Professor, Department of Preventive Medicine of the University of Illinois College of Medicine; Former National Director, Medical Consultation Service of Project Head Start; Former Chairman, Medical Literature Board of the State of Illinois; author of the nationally syndicated column, "The People's Doctor."

" . . . Macrobiotics contributed substantially in my fight against cancer . . ."

—ANTHONY J. SATTELARO, M.D.,

President, Methodist Hospital, Philadelphia

"The diet appears to be a wholesome vegetarian one with logical nutritional value. More than that, if pursued carefully, it will enable one to avoid an intake of a host of additives, preservatives, hormonal compounds, synthetics, extenders, pollutants, and contaminants that certainly can, and do, do harm to our bodies, especially for those of us who already have some weakness, or an already established health problem."

—RICHARD A. PRINDLE, M.D.,

Director, Thomas Jefferson Health District, State of Virginia; Member of the teaching staff, Medical School of the University of Virginia; former Head of the Western Hemisphere's Family Health Division of the World Health Organization; former Assistant Surgeon General of the United States.

In this book, the authors reveal how a hopeless case of "terminal" cancer was subdued by a little-known but ancient theory of food and healing called MACROBIOTICS—a way of life called from the wisdom of the Far East.
