Key to understanding the transmission of this tradition down the centuries has been the sixth century writings known as the Dionysian Corpus written by Pseudo Dionysius the Areopagite These writings have evolved over more than 1000 years of interpretation and translation being closely identified with the tradition of theologia mystica The author looks forward with enthusiasm hope and optimism to renewed creative and invigorated approaches to understanding the nature of our inner life that characterize the essential writings of St Teresa of Avila and C G Jung St Teresa of Avila s writings assure us our life journey can be graced by divine presence describing various stages of transformation of the soul in God s Love in her classic book on prayer the Interior Castle Living symbols were a major preoccupation in the life and writings of C G Jung where he explored the psychological foundation of religion particularly the Christian tradition what he termed the path of individuation The author believes under different guises we are in the midst of another flowering of theologia mystica in our own secular time The unprecedented spiritual longing and emergency of our own times is fuelling a strong need for the depth psychological tradition of Jungian psychology and the ancient tradition of theologia mystica to become more widely known understood practiced and lived There is a wider evolutionary shift happening in our times in the diamond heart of individuals groups nations and the global community Something new and unprecedented is being born in our world today we are not only in a new time but a new era
