Daniel P. Gitterman,2017-02-14 Modern presidents are CEOs with broad powers over the federal government The United
States Constitution lays out three hypothetically equal branches of government the executive the legislative and the judicial
but over the years the president as head of the executive branch has emerged as the usually dominant political and
administrative force at the federal level In fact Daniel Gitterman tells us the president is effectively the CEO of an enormous
federal bureaucracy Using the unique legal authority delegated by thousands of laws the ability to issue executive orders and
the capacity to shape how federal agencies write and enforce rules the president calls the shots as to how the government is
run on a daily basis Modern presidents have for example used the power of the purchaser to require federal contractors to
pay a minimum wage and to prohibit contracting with companies and contractors that knowingly employ unauthorized alien
workers Presidents and their staffs use specific tools including executive orders and memoranda to agency heads as
instruments of control and influence over the government and the private sector For more than a century they have used
these tools without violating the separation of powers *Calling the Shots* demonstrates how each of these executive powers is
a powerful weapon of coercion and redistribution in the president s political and policymaking arsenal *Access and
accountability* United States. Congress. House. Committee on Veterans' Affairs. Subcommittee on Health,2017 *Planning*

Subcommittee on Health,1998 A Caring Approach in Nursing Administration Jan J. Nyberg,2011-05-18 Current mainstream books and publicity about management and administration in health care are concerned with the takeover of health care by managed care organizations Many provide lots of quick and externally focused answers Many of them are economically driven to the exclusion of humans values ethics and the human spirit of all those who pass through systems as deliverers and receivers of care On the other hand there is a new generation of works that address new forms of administration and leadership works that inspire and evoke foundational changes in health care and forms of organizational leadership and management This work by Dr Jan Nyberg is guided by a lifelong career of administration and management that is informed by deeper human dimensions of caring and more lasting approaches to change than quick fix economic takeovers *Journal of the Senate of the United States of America* United States.
