Economic Mammalogy:

Economic Mammalogy (Classic Reprint) Junius Henderson, 2016-12-21 Excerpt from *Economic Mammalogy* The literature of economic mammalogy is very extensive and scattered through numerous books magazines journals and pamphlets Many of these publications are not available in small public and private libraries Consequently the information is to a great extent unavailable to anyone except a few specialists who have access to large libraries and know where the more important items may be found Even they feel the need of a condensed summary or digest of the scattered information This volume has been prepared for the purpose of bringing together and condensing into compact form as much as possible of the information concerning the economic relations of mammals their bearing upon the welfare of the human race their food habits methods of preserving the more useful species and controlling the more harmful ones the danger of exterminating certain species and various other interesting facts pertinent to the subject thus making them available to the general reader as well as to teachers and students of biology The subject is so broad and has so many ramifications that it can scarcely be hoped that this book is either complete or perfect but it is hoped that but little of much importance has been overlooked especially concerning North American mammals Great effort has been put forth to insure accuracy We do not vouch for the correctness of all statements made by the various authors whose publications we quote or cite Space does not permit the recital of all the minor details and if included their multiplicity would place an unwarranted burden upon the reader and detract from the readability and usefulness of the volume For the benefit of those who may wish to delve more deeply into the subject the appended bibliography and numerous footnotes furnish references to original sources of information where more detailed information may be found We acknowledge with gratitude the valuable assistance of Mr Hugo G Rodeck and Mrs Junius Henderson in proof reading checking references and indexing We are also grateful to the publisher and his editor for their efforts to present this book in an attractive form About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Economic Mammalogy Junius Henderson, Elberta Louise Craig, 1932 **Studies in Economics and Sociology** University of Kentucky, 1923 *The Guide to Nature*, 1929 *Economic Mammalogy*, Bulletin of the Chicago Academy of Sciences Chicago Academy of Sciences, 1939 George Meléndez Wright Jerry Emory, 2023-04-26 In 1927 at the age of twenty three George Meléndez Wright conceptualized and eventually funded the first wildlife survey of western National Parks radically changing how the National Park Service NPS would manage natural resources under its charge By the time Wright arrived in Yosemite

National Park to work as a ranger naturalist the first Hispanic person to occupy a professional position in the NPS he had already visited every national park in the Western United States At a time when national parks routinely fed bears garbage as part of shows and killed bad predators such as wolves and coyotes Wright s new ideas for conservation set the stage for modern scientific management of parks and other public lands Before his revolutionary ideas began to influence Park Service policy however Wright faced persistent pushback by an entrenched culture that disregarded wildlife apart from the role that fauna played as a tourist attraction Nonetheless he prevailed Wright died tragically in a car accident in 1936 while working to establish parks and wildlife refuges on the US Mexico border and yet to this day he remains a celebrated figure among conservationists wildlife experts and park managers Jerry Emory a writer connected to Wright s family draws on hundreds of letters field notes interviews and other primary documents to offer both a biography of Wright and a historical account of a crucial period in the evolution of our parks Including a foreword by former National Park Service director Jonathan Jarvis the book explores and celebrates Wright s vision for science based wildlife management and his vocal support of wilderness in our parks and asks if current practices have achieved his goals

Aldo Leopold: A Sand County Almanac & Other Writings on Conservation and Ecology Aldo Leopold,2013-03-21 Since his death in 1948 Aldo Leopold has been increasingly recognized as one of the indispensable figures of American environmentalism A pioneering forester sportsman wildlife manager and ecologist he was also a gifted writer whose farsighted land ethic is proving increasingly relevant in our own time Now Leopold s essential contributions to our literature some hard to find or previously unpublished are gathered in a single volume for the first time Here is his classic A Sand County Almanac hailed with Thoreau s Walden and Carson s Silent Spring as one of the main literary influences on the modern environmental movement Published in 1949 it is still astonishing today a vivid firsthand philosophical tour de force Along with Sand County are more than fifty articles essays and lectures exploring the new complexities of ecological science and what we would now call environmental ethics Leopold s sharp eyed often humorous journals are illustrated here for the first time with his original photographs drawings and maps Also unique to this collection is a selection of over 100 letters most of them never before published tracing his personal and professional evolution and his efforts to foster in others the love and sense of responsibility he felt for the land
