Hawkeseye The Early Life Of Christopher:

Life-writing in the History of Archaeology Gabriel Moshenska, Clare Lewis, 2023-07-10 Life writing is a vital part of the history of archaeology and a growing field of scholarship within the discipline The lives of archaeologists are entangled with histories of museums and collections developments in science and scholarship and narratives of nationalism and colonialism into the present In recent years life writing has played an important role in the surge of new research in the history of archaeology including ground breaking studies of discipline formation institutionalisation and social and intellectual networks Sources such as diaries wills film and the growing body of digital records are powerful tools for highlighting the contributions of hitherto marginalised archaeological lives including many pioneering women hired labourers and other hidden hands This book brings together critical perspectives on life writing in the history of archaeology from leading figures in the field These include studies of archive formation and use the concept of dig writing as a distinctive genre of archaeological creativity and reviews of new sources for already well known lives Several chapters reflect on the experience of life writing review the historiography of the field and assess the intellectual value and significance of life writing as a genre Together they work to problematise underlying assumptions about this genre foregrounding methodology social theory ethics and other practice focused frameworks in conscious tension with previous practices **A Philosopher and**

Appeasement Peter Johnson, 2013-06-05 This book is volume one of a two part series Taken together the two volumes of A Philosopher at War examine the political thought of the philosopher and archaeologist R G Collingwood against the background of the First and Second World Wars Collingwood served in Admiralty Intelligence during the First World War and although he was not physically robust enough to play an active role in the Second World War he was swift to condemn the policies of appeasement which he thought largely responsible for bringing it about The author uses a blend of political philosophy history and discussion of political policy to uncover what Collingwood says about the First World War the Peace Treaty which followed it and the crises which led to the Second World War in 1939 together with the response he mustered to it before his death in 1943 The aim is to reveal the kind of liberalism he valued and explain why he valued it By 1940 Collingwood came to see that a liberalism separated from Christianity would be unable to meet the combined evils of Fascism and Nazism How Collingwood arrived at this position and how viable he finally considered it is the story told in these volumes

Finding Time for the Old Stone Age Anne O'Connor, 2007-08-16 Finding Time for the Old Stone Age explores a century of colourful debate over the age of our earliest ancestors In the mid nineteenth century curious stone implements were found alongside the bones of extinct animals Humans were evidently more ancient than had been supposed but just how old were they There were several clocks for Stone Age or Palaeolithic time and it would prove difficult to synchronize them Conflicting timescales were drawn from the fields of geology palaeontology anthropology and archaeology Anne O Connor draws on a wealth of lively personal correspondence to explain the nature of these arguments The trail leads from Britain to Continental

Europe Africa and Asia and extends beyond the world of professors museum keepers and officers of the Geological Survey wine sellers diamond merchants papermakers and clerks also proposed timescales for the Palaeolithic This book brings their stories to light for the first time stories that offer an intriguing insight into how knowledge was built up about the ancient British past *Histories of Archaeology* Tim Murray, Christopher Evans, 2008-09-04 In recent years there has been an upsurge of interest in the history of the discipline of archaeology Local national and international histories of archaeology that deal with institutions concepts categories and the social and political contexts of archaeological practice have begun to influence the development of archaeological theory This volume contributes to these developments by reprinting 19 significant papers Spanning much of the last 200 years and global in coverage and outlook the papers provide a thorough grounding in the historiography of archaeology and will enhance understanding of the origins and growth of its theory and practice A general introduction which is itself a contribution to historiography orients readers by outlining core themes and issues in the field *The Oxford Handbook of Roman Britain* Martin Millett, Louise Revell, Alison Jane Moore, 2016 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online Roman Britain is a critical area of research within the provinces of the Roman empire Within the last 15 20 years the study of Roman Britain has been transformed through an enormous amount of new and interesting work which is not reflected in the main stream literature **Social Relations in Later Prehistory** Niall Sharples, 2010-04-29 This book examines the nature of social relationships in later prehistoric Britain taking as a case study the archaeology of the Wessex region of southern England in the first millennium BC *Creating Prehistory* Adam Stout, 2009-04-22 Creating Prehistory deals even handedly and sympathetically with the creation of several different sorts of prehistory during the volatile period between the two World Wars Investigates the origins of professional archaeology in Britain during the inter war period Brings to life many fascinating and controversial personalities and their creeds including the archaeologists O G S Crawford Mortimer Wheeler and Gordon Childe Grafton Elliot Smith and W H R Rivers of Regeneration fame Alfred Watkins and The Old Straight Track and the thunderous George Watson Macgregor Reid who brought the Druids back to Stonehenge Examines the production of archaeological knowledge as a social process and the relationship between personalities institutions ideology and power Addresses the ongoing debates of the significance of sites such as Stonehenge Avebury and Maiden Castle *R. G. Collingwood: A Research Companion* James Connelly, Peter Johnson, Stephen Leach, 2014-11-20 R G Collingwood is an important 20th century historian archaeologist and philosopher whose works are the subject of continued interest analysis and study There is an unquestionable need to support this research activity with the provision of a reference guide which is fully up to date

informed and authoritative The Companion therefore lists all primary and secondary material relevant to the study of Collingwood in all his fields of expertise historical theory philosophy and archaeology It also provides a guide to archive material relevant to his life together with sources and locations The resulting volume is an essential companion to the understanding of the life and thought of R G Collingwood Archaeological Encounters Margarita Díaz-Andreu, 2012-11-13 This book examines the relationship between British and Spanish archaeology in the light of international geographies of knowledge It looks at the practical aspects of the personal relationships established between British and Spanish prehistoric archaeologists from the 1920s to the 1970s Part I of the book sets the scene It provides some contextual information on the main events in the archaeology of both countries in the period under study It also introduces Professor Luis Pericot the archaeologist whose archive serves as the basis for much of what is discussed throughout the following chapters In Part II of the book an analysis of the correspondence held in the Pericot Archive the Fons Pericot in the Biblioteca de Catalunya is undertaken The examination of the letters exchanged between Spanish and British prehistorians in general and in particular between Luis Pericot and about a dozen major British scholars of his time allows the reconstruction of the nature of the relationships formed between them The analysis has been divided into three chapters corresponding to the three main towns where his correspondents lived for most of their academic careers London Cambridge and Oxford In Part III of the book the information obtained from the correspondence is then complemented and re examined considering three main aspects the production transmission and reception of knowledge This analysis puts together aspects discussed in Part I of the book with the data gathered from the letters in Part II as well as other information provided by publications including translations and reviews First of all an assessment is made as to whether the geographical context affected the way knowledge of prehistoric archaeology was produced Secondly the mechanisms and networks that allowed the international transmission of both ideas and practices linked to prehistoric archaeology are assessed A third aspect looked into is the reception of knowledge linking this with issues such as academic prestige and authority **Excavating Women** Magarita Díaz-Andreu, Marie Louise Stig Sorensen, 2005-08-11 Archaeologists are increasingly aware of issues of gender when studying past societies women are becoming better represented within the discipline and are attaining top academic posts However until now there has been no study undertaken of the history of women in European archaeology and their contribution to the development of the discipline Excavating Women discusses the careers of women archaeologists such as Dorothy Garrod Hanna Rydh and Marija Gimbutas who against all odds became famous as well as the many lesser known personalities who did important archaeological work The collection spans the earliest days of archaeology as a discipline to the present telling the stories of women from Scandinavia Mediterranean Europe Britain France Germany and Poland The chapters examine women s contributions to archaeology in the context of other often socio political factors that affected their lives It examines issues such as women s increased involvement in archaeological work during and after the two World Wars and why so many

women found it more acceptable to work outside of their native lands This critical assessment of women in archaeology makes a major contribution to the history of archaeology It reveals how selective the archaeological world has been in recognizing the contributions of those who have shaped its discipline and how it has been particularly inclined to ignore the achievements of women archaeologists *Excavating Women* is essential reading for all students teachers and researchers in archaeology who are interested in the history of their discipline and its sociopolitics **Grahame Clark and His Legacy** John Coles, Arkadiusz Marciniak, 2010-05-11 Grahame Clark was a major figure in European archaeology for over 50 years and pioneered work in prehistoric economies and ecology in science based archaeology and in a world view of ancient societies In this book a variety of authorities from Europe and beyond assess these major contributions and provide discussions about Clark's own colleagues and contemporaries his major archaeological themes and his varied approaches and his world wide contacts and travels The papers provide surveys and opinions on Clark's role in the development of archaeology in the 20th century and the basis that it provided for archaeological work of today The book will be a valuable source of evidence ideas and references for scholars interested in the development of the discipline **The Annual Obituary**, 1992 *The Antiquaries Journal*, 2009 **Atlantic Europe in the First Millennium BC** Thomas Hugh Moore, Xosê-Lois Armada, 2011 This volume of 33 papers on the Atlantic region of Western Europe in the first millennium BC reflects a diverse range of theoretical approaches techniques and methodologies across current research and is an opportunity to compare approaches to the first millennium BC from different national and theoretical perspectives **Tessa Verney Wheeler** Lydia C. Carr, 2012-04-26 In this book Carr unravels the biography of the archaeologist Tessa Verney Wheeler a charming tiny woman whose untimely death left her archaeological career overshadowed by her distinguished husband Sir Mortimer Wheeler Despite a short career of just over twenty years Verney Wheeler published and excavated extensively while simultaneously developing new archaeological techniques brought archaeology into the lives of the general public through her connections with the Press and the encouragement of site tours and was an inspiring teacher to an impressive roster of students In this biography her life is recovered through an examination of her written work archives sites and photographs as well as through the memories of those who knew her By means of a discussion of the very personal life and work of one woman Carr explores the role of women in early British archaeology resulting in a fascinating picture of a woman and a vivid evocation of the interwar period in London and Wales From her work retraining colliery navvies as archaeological diggers in Roman amphitheatres on the Welsh borders to cheap omelettes with her students at the Lyons Corner House on Piccadilly in London Verney Wheeler crossed social and physical borders with a grace and appeal that remains very palpable today *Journal of the British Archaeological Association*, 1995 **Lectures and Memoirs**, 1993 **The Poisoned Bowl** Alisdare Hickson, 1995 The architecture and organization of today's boarding school is to a great extent the product of over one hundred years of homophobia One might imagine that the post Tom Brown evolution of the boarding school was conditioned

by the gradual ascendancy of liberal reformers over uncompromising traditionalists Such a verdict would be highly misleading for the great reforming headmasters also had an illiberal agenda the desire to manage the sexuality of adolescent boys and above all to prevent any manifestation of homosexuality Dr Hickson puts forward his thesis at the outset based on evidence drawn from biographies novels diaries and school histories but the greater part of the book is made up of anecdotal accounts and memories obtained by the author from old boys of various backgrounds including generals members of parliament headmasters and leading figures from the clergy the legal professions and the City BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *Upon a White Horse* Peter Ross, 2025-09-11 I m a card carrying admirer of Peter Ross Robert Macfarlane The prehistoric sites of Britain and Ireland are places of wonder and wondering Who made these structures What did they mean to them And what do they mean to us now Bestselling author Peter Ross journeys from midwinter at Stonehenge to midsummer at Sycamore Gap Along the way he encounters bog bodies in Dublin a wooden goddess in Edinburgh and a chalk giant in Dorset He asks what it is like to live within the great stone circle at Avebury what rituals occurred in an Anglesey tomb and what draws volunteers to care for the Uffington White Horse These objects and structures speak of the long human story They offer the comfort of recognition and the pleasure of mystery There is something about ancient places that fills a hollow in our souls Upon A White Horse is a celebration of landscape and people and all that is beautiful strange and old PRAISE FOR STEEPLE CHASING A delicious treat Financial Times A charming odyssey The Times Lovely lyrical whimsical elegiac TLS Engaging New Statesman A wonderful book Daily Telegraph **Encyclopedia of Archaeology** Tim Murray, 1999
