Masetto,2008 Football and Literature in South America David Wood,2017-02-10 South America is a region that enjoys an unusually high profile as the origin of some of the world's greatest writers and most celebrated footballers This is the first book to undertake a systematic study of the relationship between football and literature across South America Beginning with the first football poem published in 1899 it surveys a range of texts that address key issues in the region's social and political history Drawing on a substantial corpus of short stories novels and poems each chapter considers the shifting relationship between football and literature in South America across more than a century of writing The way in which authors combine football and literature to challenge the dominant narratives of their time suggests that this sport can be seen as a recurring theme through which matters of identity nationhood race gender violence politics and aesthetics are played out This book is fascinating reading for any student scholar or serious fan of football as well as for all those interested in the relationship between sports history literature and society Football in Fiction Lee McGowan,2019-09-26 Football in Fiction represents the most comprehensive historical mapping and analysis of novels related to association football soccer It offers a theoretically informed field guide a scholarly cartography of football fiction's uncertain and until now only partially explored terrain Combining an extensive search for texts with up to date academic research journals surveys catalogues and reviews the book demonstrates a topographic perspective of the field one that captures and establishes its breadth depth and distinctive identity The book uses and adapts two distinct reading models of abstraction in conjunction with closer textual analyses Together they assist in realising a set of demonstrable conventions outline a taxonomy of fictive types establish the genre's current state of play and advance the football novel as a form with its own literary history and traditions This book is a valuable resource for those studying and researching in the areas of the social and cultural aspects of football sports fiction

sports writing creative writing and literary and genre studies Furthermore related industry professionals will find this a fascinating read particularly football writers fans of the sport and those interested in sports history and cultural phenomena

Argentina Noir Cynthia Schmidt-Cruz, 2019-02-14 An engaging and insightful guide to Argentine crime fiction since 2000 Argentina Noir offers a guide to Argentine crime fiction with a focus on works published since the year 2000 It argues that the novela negra or crime novel has become the favored genre for many writers to address the social malaise brought about by changes linked to globalization and market driven economic policies Cynthia Schmidt Cruz presents close readings and original interpretations of eleven novels all set in or around Buenos Aires and explores the ways these texts adapt major motifs figures and literary techniques in Hispanic crime fiction in order to give voice to wide ranging social critiques Schmidt Cruz addresses such topics as organized crime and institutional complicity corruption during the presidency of Carlos Menem 1989 1999 terrorist attacks on Jewish institutions in Buenos Aires and the mysterious death of Alberto Nisman and the winners and the losers of neoliberal structural changes With a solid underpinning in sociological studies and criticism of the genre and its historical context Argentina Noir reveals how these novels are renovating the genre to engage pressing issues confronting not only Argentina but also countries throughout Latin America and around the globe This is a very significant contribution to the field It is a full and illustrative as well as authoritative guide to crime fiction and the novela negra in Argentina in the twenty first century with a particular focus on the literature s social and political theatics Philip Swanson author of The New Novel in Latin America Politics and Popular Culture after the Boom

'Punto de Vista' and the Argentine Intellectual Left Sofía Mercader, 2021-09-20 This book is the first comprehensive account of the Argentine

magazine Punto de Vista 1978-2008 a cultural review that gathered together prominent Argentine intellectuals throughout the last quarter of the twentieth century Directed by cultural historian and public intellectual Beatriz Sarlo the story of the magazine serves as a lens to study the evolution of Argentine intellectuals from the leftist mobilization of the 1960s through periods of military dictatorship and then the shifting politics of democratization in the 1980s and 1990s The book argues that the way in which the Argentine intellectual left negotiated the political and cultural transformations of the late twentieth century can be understood as the history of two political defeats that of the revolutionary utopias of the 1960s and 1970s and that of the social democrat project in the 1980s By adopting an interdisciplinary approach this book encompasses a wide range of debates taking place in Argentina from the years prior to the dictatorship to the postdictatorship period

New

Argentine Cinema Jens Andermann, 2011-11-30 Argentine filmmaking from the mid 1990s to the present has enjoyed worldwide success New Argentine Cinema explores this cinema in order to discover the elements that have made for this success in relation to the country's profound political social and cultural crisis during the same period Jens Andermann shows how the most recent wave of films differs markedly from the Argentine cinema of the preceding decade following the end of the dictatorship in 1983 Studying films by Lisandro Alonso Albertina Carri Lucrecia Martel Raul Perrone Martin Rejtman and Pablo Trapero among others he identifies a shift in aesthetic sensibilities between these directors and those of the previous generation as well as a profound change in the way films are being made and their relation to the audiovisual field at large In combining close comparative analyses with a review of the changing models of production editing actorship and location Andermann uncovers the ways in which Argentine films have managed to construct a complex multilayered account of their own present as shot through or perforated by the still unresolved legacies of the past

National Identity

and Global Sports Events Alan Tomlinson, Christopher Young, 2012-02-01 National Identity and Global Sports Events looks at the significance of international sporting events and why they generate enormous audiences worldwide Focusing on the Olympic Games and the men's football soccer World Cup the contributors examine the political cultural economic and ideological influences that frame these events Selected case studies include the 1936 Nazi Olympics in Berlin the 1934 World Cup Finals in Italy the unique case of the 1972 Munich Games the transformative 1984 Games in Los Angeles and the 2002 Asian World Cup Finals among others The case studies show how the Olympics and the World Cup Finals provide a basis for the articulation of entrenched and dominant political ideologies encourage persisting senses of national identity and act as barometers for the changing ideological climate of the modern and increasingly globalized contemporary world Through rigorous scholarly analyses the book's contributors help to illuminate the increasing significance of large scale sporting events on the international stage
