He Knew He Was Right Victorian Texts :

He Knew She was Right Jane Nardin, 1989 Trollope's mother, wife, and a friend he loved platonically most of his life provided him three very different views of the Victorian woman. And according to Jane Nardin, they were responsible for the dramatic shift in his treatment of women in his novels. This is the first book in Sandra Gilbert's *Ad Feminam* series to examine a male author. Nardin initially analyzes the novels Trollope wrote from 1855 to 1861 in which male concerns are central to the plot and women are angelic heroines, submissive and self-sacrificing. Even the titles of his novels written during this period are totally male-oriented. *The Three Clerks*, *Doctor Thorne*, and *The Bertrams* all refer to men. Shortly after meeting Kate Field, Trollope wrote *Orley Farm*, which refers to the estate an angry woman steals from her husband and which marks a change in the attitudes toward women evident in his novels. His next four books, *The Small House at Allington*, *Rachel Ray*, *Can You Forgive Her?* and *Miss Mackenzie*, prove that women's concerns had become central in his writing. Nardin examines specific novels written from 1861 to 1865 in which Trollope with increasing vigor subverts the conventional notions of gender that his earlier novels had endorsed. Nardin argues that his novels written after 1865 and often recognized as feminist are not really departures but merely refinements of attitudes Trollope exhibited in earlier works. *He Knew He was Right* Anthony

Trollope, 1978 *Representations of Hair in Victorian Literature and Culture* Galia Ofek, 2016-12-05 Galia Ofek's wide-ranging study elucidates the historical, artistic, literary, and theoretical meanings of the Victorians' preoccupation with hair. Victorian writers and artists, Ofek argues, had a well-developed awareness of fetishism as an overinvestment of value in a specific body part and were fully cognizant of hair's symbolic resonance and its value as an object of commerce. In particular, they were increasingly alert to the symbolic significance of hairstyling. Among the writers and artists Ofek considers are Elizabeth Gaskell, George Eliot, Margaret Oliphant, Charles Darwin, Anthony Trollope, Elizabeth Barrett Browning, Eliza Lynn Linton, Mary Elizabeth Braddon, Herbert Spencer, Dante Gabriel Rossetti, Edward Burne-Jones, Charles Dickens, Thomas Hardy, and Aubrey Beardsley. By examining fiction, poetry, anthropological and scientific works, newspaper reviews, and advertisements, correspondence, jewellery, paintings, and cartoons, Ofek shows how changing patterns of power relations between women and patriarchy are rendered anew when viewed through the lens of Victorian hair codes and imagery during the second half of the nineteenth century.

The Politics of Gender in Anthony Trollope's Novels Deborah Denenholz Morse, 2016-12-05 Bringing together established critics and exciting new voices, *The Politics of Gender in Anthony Trollope's Novels* offers original readings of Trollope that recognize and repay his importance as source material for scholars working in diverse fields of literary and cultural studies. As the editors observe in their provocative introduction, Trollope more than any of his contemporaries is studied by scholars from disciplines outside literary studies. The contributors here draw together work from economics, colonialism, and ethnicity, gender studies, new historicism, liberalism, legal studies, and politics that convincingly argues for the eminence of Trollope's writings as a vehicle for the theoretical explorations of Victorian culture.

that currently predominate The essays variously examine imperial and postcolonial themes in the context of economic cultural aesthetic and demographic influences show how gender sensitive readings expose Trollope s critique of capitalism s influence address Trollope and sexuality in the context of queer studies the law archetypal constructions and classical feminism and offer new approaches to narrative theory through examination of Victorian understandings of male and female psychology Regenia Gagnier s concluding chapter revisits the collection s critical strands and reflects on the implications for future studies of Trollope

Reforming Trollope Deborah Denenholz Morse,2016-04-01 Trollope the reformer and the reformation of Trollope scholarship in relation to gender race and genre are the intertwined subjects of eminent Trollopian Deborah Denenholz Morse s radical rethinking of Anthony Trollope Beginning with a history of Trollope s critical reception Morse traces the ways in which Trollope s responses to the political and social upheavals of the 1860s and 1870s are reflected in his novels She argues that as Trollope s ideas about gender and race evolved over those two crucial decades his politics became more liberal The first section of the book analyzes these changes in terms of genre As Morse shows the novelist subverts and modernizes the quintessential English genre of the pastoral in the wake of Darwin in the early 1860s novel *The Small House*

at Allington Following the Second Reform Act he reimagines the marriage plot along new class lines in the early 1870s in *Lady Anna* The second section focuses upon gender In the wake of the Second Reform Bill and the agitations for women's rights in the 1860s and 1870s Trollope reveals the tragedy of primogeniture and male privilege in *Harry Hotspur of Humblethwaite* and the viciousness of the marriage market in *Ayala's Angel* The final section of *Reforming Trollope* centers upon race Trollope's response to the Jamaica Rebellion and the ensuing Governor Eyre Controversy in England is revealed in the tragic marriage of a quintessential English gentleman to a dark beauty from the Empire's dominions The American Civil War and its aftermath led to Trollope's insistence that English identity include the history of English complicity in the black Atlantic slave trade and American slavery a history Trollope encodes in the creole discourses of the late novel *Dr Wortle's School* *Reforming Trollope* is a transformative examination of an author too long identified as the epitome of the complacent English gentleman

Problem Novels Anna Maria Jones, 2007 In *Problem Novels* Anna Maria Jones argues that far from participating invisibly in disciplinary regimes many Victorian novels articulate sophisticated theories about the role of the novel in the formation of the self In fact it is rare to find a Victorian novel in which questions about the danger or utility of novel reading are not embedded within the narrative In other words one of the stories that the Victorian novel tells over and over again is the story of what novels do to readers This story occurs in moments that call attention to the reader's engagement with the text In chapters on Wilkie Collins Anthony Trollope and George Meredith Jones examines problem novels that is novels that both narrate and invite problematic reading as part of their theorizing of cultural production *Problem Novels* demonstrates that these works posit a culturally embedded sensorially susceptible reader and at the same time present a methodology for critical engagement with cultural texts Thus the novels theorize paradoxically a reader who is both unconsciously interpellated and critically empowered And Jones argues it is this paradoxical construction of the unconscious critical subject that re-emerges in the theoretical paradigms of Victorian cultural studies scholarship Indeed as *Problem Novels* shows Victorianists' attachments to critical detective work closely resemble the sensational attachments that we assume shaped Victorian novel readers

BOOK JACKET *The Family Novel in Russia and England, 1800-1880* Anna A. Berman, 2022-08-25 This book offers a new understanding of the relationship between family structures and narrative structure in the nineteenth-century novel Comparing Russia and England it argues that the two nations had fundamentally different conceptions of the family and that these in turn shaped the way they constructed plots The English placed primary value on the vertical diachronic family axis looking back to ancestors and ahead to progeny while the Russians emphasized the lateral synchronic axis family expanding outward in the present from nuclear core to extended and chosen kin This difference shaped the way authors plotted consanguineal relations courtship and marriage and alternative kinship constructions Idealizing the domestic sphere and emphasizing family continuity the English novel made family a conservative force while Russian novels approached it as a backward site of patriarchal tyranny in desperate need of reform Russian family plots

offered a progressive liberalizing push toward new nontraditional family constructions The book's comparative approach calls for a re-evaluation of reigning theories of the novel theories that are based on the linear English family model and cannot accommodate the more complex Russian alternative It reveals where these theories fall short explains the reasons for their shortcomings and offers a new way of conceptualizing family's role in shaping the nineteenth-century novel Classics from Dickens Eliot and Trollope to Dostoevsky Tolstoy and Turgenev are contextualized in the broader literary landscape of their day and Russia's great women writers regain their rightful place alongside their male counterparts as the book draws together family history literary analysis and novel theory
