Healing by God's Natural Methods Al Wolfsen,2016-04-29

This book was written by Al Wolfsen who was given up to die before he was 21 years old In 1948 he was at the point of death and the medical doctors gave up all hope of recovery He turned away from medical science that offered no help and turned to the remedies found in the Bible and nature He prayed and promised to work for God as long as he should live That day he had a dream where an angel from heaven came into the room and talked with him and took the disease away After the dream he rapidly recovered Not forgetting his promise to work for God as long as he should live he has taught hundreds of sick people how to use only simple non poisonous remedies *The natural method of healing* Friedrich Eduard Bilz,1898

God's Health Plan - the Audacious Journey to a Better Life Ricki Pepin,2007-09 After 12 years of disabling undiagnosed sickness for her son the author had all but lost hope She began her own research to find relief for her child and the solution to her sons dilemma came through prayer study and application of seven biblical principles shared in this volume Practical Life The Healing Gods Candy Gunther Brown,2013-07-30 The question typically asked about complementary and alternative medicine CAM is whether it works However an issue of equal or greater significance is why it is supposed to work The Healing Gods Complementary and Alternative Medicine in Christian America explains how and why CAM entered the American biomedical mainstream and won cultural acceptance even among evangelical and other theologically conservative Christians despite its ties to non Christian religions and the lack of scientific evidence of its efficacy and safety Before the 1960s most of the practices Candy Gunther Brown considers yoga chiropractic acupuncture Reiki Therapeutic Touch meditation martial arts homeopathy anticancer diets were dismissed as medically and religiously questionable These once suspect health practices gained approval as they were re categorized as non religious though generically spiritual health care fitness or scientific techniques Although CAM claims are similar to religious claims CAM gained cultural legitimacy because people interpret it as science instead of religion Holistic health care raises ethical and legal questions of informed consent consumer protection and religious establishment at the center of biomedical ethics tort law and constitutional law The Healing Gods confronts these issues getting to the heart of values such as personal autonomy self determination religious equality and religious voluntarism Reiki: Universal Gift of God's Healing Love Level I and II Training Manual Eileen Curteis,2011 After seventeen years as a practitioner and teacher of Reiki Sister Eileen has been astonished by the sheer number of people who have continued to stream through the door People of all ages and traditions have come seeking their healing and finding it as Eileen did when she first embarked on this foreign road that soon became home to her Eileen has come to recognize through her many years of practice that there is an inherent healing power within each of us and that the gift of Reiki is able to activate it In her training manual Eileen brings with her a core community of Reiki practitioners from different traditions and backgrounds that journey alongside her and recognize as she does the simplicity wonder and beauty

of God's universal gift for our time. The healing stories are too numerous to count but she does include specific testimonials within her training manual that speak for the thousands of others who have been healed through the doorway of Reiki. In this way Eileen's Level I and II training manual becomes a living testimony as she thoroughly covers all the information required to be a successful and competent Reiki practitioner. Written with inspiration and clarity Eileen takes the reader on an amazing journey into the dynamic world of the inner self. Like a fresh current of air she presents her material in an appealing and easily digestible manner. The uniqueness of Eileen's Reiki training manual lies in her ability to weave the Christ-conscious healing dimension into it just as an alchemist would when producing gold. In this way Eileen shows how the revered eastern practice of Reiki discovered by Dr. Mikao Usui, a Japanese Buddhist in the early 20th century, can blend perfectly with a Christian heritage of healing where the one enhances the other. At the same time she shows how this simple profound method of healing transcends cultural and religious boundaries in a way that makes this universal gift of Life Force Energy accessible to anyone. Often people who encounter Reiki for the first time experience an inner bliss and harmony which leads them to explore the gift more fully. Others go away from the treatment or training feeling restored, refreshed and renewed. Reiki, the universal Life Force Energy of God, is not a new invention or modern-day fad. Its roots are planted deep in ancient history. In the Old Testament Life Force Energy was spoken about eloquently and has been pulsating through the whole of creation from the beginning of time. Even science and the world of medicine are looking at this complementary form of healing called Reiki with fresh new eyes. Its worldwide impact can no longer go unnoticed.

Hildegard of Bingen's Spiritual Remedies Wighard Strehlow, 2002-07-10 Hildegard of Bingen recognized what the holistic health movement has only recently restored to our consciousness: that full health can only be experienced in a state of spiritual balance. Dr. Strehlow gives readers practical suggestions based on the integration of 35 spiritual forces of the human soul in order to cure the soul within, which he synthesized from five of Hildegard's books on spiritual and psychological healing principles.

The Living Signature: The Body's Power to Heal and the Question of Design Dr. Octavian Caius Obeada, 2025-06-26 In *The Living Signature: The Body's Power to Heal and the Question of Design*, science and spirit converge in a captivating exploration of the human body as more than mere biology. Drawing from philosophy, theology, medicine, and biology, this book challenges the view that life is the product of blind chance. From the cellular dance of regeneration to the breathtaking orchestration of body systems, it reveals signs of purpose woven into the fabric of life itself. For the scientist, the skeptic, and the seeker alike, this is an invitation to see the body not just as alive but as alive with meaning. "I will praise thee for I am fearfully and wonderfully made," wrote a grateful King David in Psalm 139 three thousand years ago. He didn't know the half of it. In this marvelous book, Dr. Octavian Caius Obeada focuses on the marvelous ability of

life to regenerate and heal itself surveying what philosophers and theologians throughout the ages have surmised and detailing the intricate molecular mechanisms that have been discovered by scientists only in recent decades The result is a tour de force showcasing the intelligent design of life Michael J Behe PhD Professor of Biological Sciences at Lehigh University in Pennsylvania and a Senior Fellow at Discovery Institute's Center for Science and Culture and author of Darwin's Black Box The Living Signature by Dr Octavian Caius Obeada is a profound exploration of the human body's regenerative capacity framed as both a scientific marvel and a philosophical clue to purposeful design Drawing on decades of medical experience and insights from biology theology and systems thinking the book challenges reductionist views by asking whether healing is merely mechanical or a message of intention With compelling case studies and a multidisciplinary lens this work invites readers to see the human body not as an accident but as a living signature of meaning and design Adrian Anthony Dormans MD FRCR From skin and bone to organs and DNA the regenerative capabilities of the human body are not only astonishing they hint at something deeper The Living Signature lays out thoughtful well researched reflections and challenges you to consider whether the complexity and order we see in ourselves could truly be the product of blind chance or the body itself is whispering something about its origin a message not of randomness but of meaning Costiuc Alexandru MD Specialist in Gastroenterology Regina Maria Romania Resident Physician in Family Medicine University of Oradea
