

The background of the entire cover is a close-up photograph of a white horse's head. The horse's eye is dark and expressive, looking slightly to the left. A human hand, with fingers spread, is gently touching the horse's cheek just below the eye. The background behind the horse is a soft, out-of-focus blue sky with light clouds.

experiences and edited them into *The Skeptic Psychic* an Autobiography into the Acceptance of the Unseen *The Skeptic Psychic* has two purposes first it entices the reader to expand their imagination beyond what we currently perceive as reality and it offers my experiences and my reactions my fear to these situations as a comfort and encouragement for the reader to challenge their own suspicions and limitations I am now a working psychic offering animal readings or mediumship as well as leading meditations teaching classes and offering energy healing and my students and clients often comment how at peace and naturally talented I am and I smile For I know that I had lived through a myriad of experiences that with time had taught me to acclimate and accept the unseen But I am far from naturally talented and I feel that *The Skeptic Psychic* could help aspiring psychics or anyone contemplating the unknown to better understand that they are not alone in what they are experiencing I composed *The Skeptic Psychic* from chronological journal entries that span from August of 2005 through March of 2006 The book opens just after I attended a weekend retreat that posed the possibility that adults could believe in fairies and aliens The more I questioned if fairies could exist the more I discovered that they did Later that year I confronted my apprehension when sensing that aliens were near as well And as 2005 changed into 2006 I learned to overcome my fears and to accept the unseen I realize that my story and the fact that aliens and fairies do exist sounds rather unbelievable but read my book follow the path the reasoning of how I learned to overcome my fears and understand that the result was a peace a knowing that we are not alone in our reality that there are unseen beings guides are another term that are present to enlighten protect and serve I close this book description the way I close all my journal entries with the salutation Namaste defined through WIKPEDIA as I respect that divinity within you that is also within me Namaste Suzy Graf
