United Nations Legal Order Oscar Schachter, Christopher C. Joyner, American Society of International Law, 1995 The purpose of these volumes is to examine explain and appraise contributions made by the United Nations system to international law and the law creating process The work assesses the effect UN institutions have had on the law making process and the extent to which that law has been accepted by and evidenced in contemporary state practice It is divided into three main parts The first examines the practical as well as conceptual aspects of the UN system as a source of law The second part deals with different fields of activity which have become the subjects of legal rules and processes Areas covered include human rights use of force and economic relations In addition topics that have not previously been examined in such a comprehensive manner such as shipping aviation and private international law are also discussed The third part covers the internal law of the UN system international civil services and financial contributions

Human Rights and Disabled Persons Theresia Degener, Yolanda Koster-Dreese, 2021-10-18 The United Nations Decade of Disabled Persons has served as a time for standard setting in the field of human rights and disability and has created the need to evaluate the relevant human rights instruments for disabled persons This volume responds to this need by offering a collection of essays on the subject of human rights and disability and an extensive compilation of international and regional human rights instruments guidelines and principles which are of special relevance to disabled people It should serve organizations of disabled people as well as governments throughout the world as a resource and as an introduction to human rights and disability This shortcoming may be one reason for the widely prevailing notion that disability is a welfare issue rather than a human rights issue

Addressing these promising lines of inquiry and innovation this book fosters a more humane and less violent development in childhood and adolescence Educators religious leaders developmental and social psychologists will find this a valuable resource as will a socially concerned segment of the public who are looking for practical ways to work for peace
