Who is Paying for Health Care in Eastern Europe and Central Asia? Maureen A. Lewis, 2000-01-01 Informal payments in the health sector of Eastern and Central Asia are emerging as a fundamental aspect of health care financing and a serious impediment to health care reform These informal payments made to individuals or institutions in cash or in kind are nearly always for services that are meant to be covered by the health care system Such private payments to public personnel have created an informal market for health care and are a form of corruption This problem's roots are traced to declining revenues which have not

coincided with a reduction in buildings hospital beds and health personnel In these circumstances informal payments compensate for lost earnings and therefore reforms to modernise the region s health systems must compete with individuals personal revenues Options for addressing this problem include comprehensive anticorruption policies downsizing of the public health system reducing the set of services subsidised by the state encouraging cost sharing with those who can afford it improving accountability and promoting private alternatives

Soviet Central Asia Boris Z. Rumer, 2023-06-14 Soviet Central Asia 1989 explores the economic development of the four republics of Central Asia that suffered under Moscow s economic policies

Uzbekistan Tajikistan Turkmenistan and Kirghizia The Soviet literary weekly Literaturnaia gazeta described Soviet economic policies there as a tragic experiment and this book argues that Central Asia serves as a prime example of the failure of Soviet regional development policies It analyses the special role of the region in the Soviet economy and such key issues as industrial development cotton production water resources and labour It also addresses the social ramifications of the underdevelopment of the region s economy and the impact of new policies under Gorbachev Civil Society and Politics in Central Asia Charles E. Ziegler, 2015-02-27 The five Central Asian states of Kazakhstan Uzbekistan Kyrgyzstan Tajikistan and Turkmenistan constitute an area of increasing importance in global politics The region currently serves as the main route for transporting American and NATO supplies and personnel into Afghanistan Its Turkic Muslim peoples share ethnic and religious roots with China s Uighurs in neighboring Xinjiang where some Uighurs have connections to the Taliban in Afghanistan and Pakistan fueling Beijing s already acute fears of terrorism and separatism Perhaps most importantly the Caspian basin holds immense reserves of oil and natural gas Countries rich in hydrocarbons like Kazakhstan Turkmenistan and Uzbekistan can benefit greatly from this wealth but often they must rely on foreign companies usually backed by foreign governments to develop these resources Revolts in Kyrgyzstan in 2005 and 2010 and Uzbekistan in 2005 Tajikistan s civil war in the 1990s and continued terrorist incidents 2010 2011 strikes and suicide bombings in Kazakhstan in 2011 have contributed to concerns about stability in the region In Civil Society and Politics in Central Asia a prominent group of scholars assesses both the area s manifold problems and its emerging potential examining the often uneasy relationship between its states and the societies they govern A meticulously in depth study the volume demonstrates the fascinating cultural complexity and diversity of Central Asia Small landlocked and surrounded by larger powers Central Asian nations have become adept at playing their neighbors against each other in order to maximize their own abilities to maneuver The essays in this book look beyond the surface of Central Asian politics to discover the forces that are working for political change and continuity in this critical region of the world **Drugs and Public Health in Post-Soviet Central Asia**

Muyassar Turaeva, 2022-08-27 The book outlines post Soviet style of health management in Central Asia Regional studies on Central Asia to date have focused on states politics religion and inter ethnic relations but not on the health system within the region Soviet style policies have also covered only other aspects relevant for the region This book highlights the public health situation of the region with a focus on drug abuse HIV AIDS in the context of increased mobility and drug trafficking routes which became even more porous after the break up of the Soviet Union Based on a qualitative study the empirical data in the book was collected during long term fieldwork conducted in Uzbekistan and Turkmenistan in 2010 2011 as well as shorter stays in Uzbekistan between 2012 2016 The analysis of the empirical material largely draws on the works of Foucault particularly his concept of biopolitics when analyzing Soviet style health management that is still practiced in the region Applying the Foucauldian genealogical method this study has been structured to trace the genealogy of epidemics to

understand the historical path of drug abuse in the region as well as the discursive genealogy of drug politics and drug abuse Applying the same genealogical method of Foucault the formative and discursive trajectory of the institution of Uchyot was traced to contextualize the health governance methods that have historical legacy of Soviet style governance and control of the total population Drugs and Public Health in Post Soviet Central Asia Soviet Style Health Management is a unique resource for academic specialists practitioners professionals and advanced undergraduate and graduate students in public health as well as a range of scholars and professionals in sociology political science anthropology and anyone with an interest in the Central Asia region drug addiction or HIV The book also could appeal to international donors in the field of HIV drug addiction who are working in the region

Djoomart Otorbaev, 2023-02-03 This volume describes the unique development of Central Asia as defined by its landlocked geography Particular attention is paid to the achievements and challenges of the region's post Soviet economic and political transformation as well as to its relationship with the participants in the New Great Game Russia China and the West Located as it is in the geographical centre of booming Asia and with the opportunity to become a key logistics bridge connecting the world's largest economies Central Asia is well placed for rapid development However the region faces a range of complex problems that are explained and analysed in the volume The Eurasian powers that encircle Central Asia look certain to become the engines of global economic growth but how will this affect the region Will Central Asia join the powerful locomotive of history or will it remain on the sidelines

description available for The Family in Central Asia *Economic Dimensions of Security in Central Asia* Sergej

Mahnovski, Kamil Akramov, Theodore William Karasik, 2007 This report assesses the economic dimensions of security in Central Asia and considers their implications for the role of the United States Economic development will be crucial to the future of Central Asia and broader U S interests in the region However it is unclear whether the states in the region have the institutional capacity to implement domestic reform As the United States clarifies its long term military relationships and commitments in the region it should consider the region's economic development itself as a long term security concern

A Concise History of Afghanistan-Central Asia and India in 25 Volumes HAMID ALIKUZAI, 2015-01-19 Thirteen years after the U S invasion of Afghanistan Thirteen years after the U S invasion of Afghanistan the gains that the international coalition has made with its local partners are real but reversible Afghanistan is no longer a global hub of terrorist activity but Taliban resurgence would threaten to make it one again Reconstruction assistance has produced demonstrable progress in health education and economic well being but corruption and governance problems have undermined popular support for the government in Kabul and constrained the overall level of progress Internationally a coalition still backs the International Security Assistance Force ISAF military mission However NATO's will is waning China Russia and India are largely free riders and Punjab and Iran publicly say the right things while destabilizing Afghanistan by privately meddling to their own

ends Political and economic realities in the United States make the current level of American engagement in Afghanistan unsustainable But as the commitment of coalition partners fades what Washington decides will shape the future of South Asia Looking ahead there are three different scenarios for American engagement in Afghanistan It remains to be seen exactly which route Washington will take But it is clear that U S interests require a long term commitment not only in Afghanistan but across the region Lest it be forgotten the consequences of ignoring the region in the 1990s were visited upon the United States on 9 11 So the most vital goals present day are defeating the remnants of al Qaeda in Punjab preventing the reemergence of terrorist sanctuaries in Afghanistan ensuring the security of Punjab s nuclear weapons and discouraging Punjab s use of extremism and terror as a policy instrument There are three ways forward Each entails a different degree of involvement and carries varying risks and rewards The first option is the riskiest Future 1 Immediate Departure and the Reallocation of Resources because discontent among the U S public over the war is already at an all time high
