Health Annual 2002 What Women Need To Know

F Rizvi

Health Annual 2002 What Women Need To Know:

What Every Woman Should Know about Cervical Cancer Nenad Markovic, Olivera Markovic, 2016-12-19 This book an updated and extended edition is about mobilizing women and health care policy makers and providers to unite their efforts in a single strategy for fighting cervical cancer worldwide The objective of this strategy would be to reverse cervical cancer prevalence and mortality rates among all 2 4 billion women at risk and to achieve this goal within 10 15 years of implementation Cervical Cancer Screening Pap test VIA VILI or HPV failed to stop cervical cancer worldwide simply because many countries could not afford developing infrastructure necessary to carry on the global strategy and because the outreach could not accomplish the targeted 51% of the population at risk In 2015 there is still 600 000 women getting cervical cancer annually and 300 000 of them die Every minute one woman gets cervical cancer and every 2 minutes one woman dies from this preventable disease In 21st Century the Information Technology IT Revolution has made substantial impact on medicine enabling remote points of care scattered around the world to be e connected with experts in distant medical centers and to obtain quality diagnosis and proper guidelines for curative therapy of early stages of cervical cancer Low frequency of costly interventions needed makes IT based screening financially and socially beneficial for mass screening This new Mobile Health technology with the Global Strategy for Fighting Cervical Cancer is subject to elaboration in our book as the new hope when old efforts have failed to stop the world epidemics of this grave but preventable disease The language is adapted for easy reading and understanding by professionals and lay persons This book is intended for women at risk for cervical cancer their health care providers health insurance companies government responsible for making health policy and healthcare industry because all of them have special role in the new Global Strategy elaborated in details in this book **Healthy Healing**

Basic Nursing Leslie S Treas, Judith M Wilkinson, 2013-09-04 Thinking Doing Caring In every chapter you ll first explore the theoretical knowledge behind the concepts principles and rationales Then you ll study the practical knowledge involved in the processes and finally you ll learn the skills and procedures Student resources available at DavisPlus davisplus fadavis com

Clearinghouse Review ,2001 *Inclusion* Steven Epstein, 2008-09-15 With *Inclusion* Steven Epstein argues that strategies to achieve diversity in medical research mask deeper problems ones that might require a different approach and different solutions Formal concern with this issue Epstein shows is a fairly recent phenomenon Until the mid 1980s scientists often studied groups of white middle aged men and assumed that conclusions drawn from studying them would apply to the rest of the population But struggles involving advocacy groups experts and Congress led to reforms that forced researchers to diversify the population from which they drew for clinical research While the prominence of these inclusive practices has offered hope to traditionally underserved groups Epstein argues that it has drawn attention away from the tremendous inequalities in health that are rooted not in biology but in society Epstein s use of theory to demonstrate how public policies in the health profession are shaped makes this book relevant for many academic disciplines Highly recommended Choice A masterful comprehensive overview of a wide terrain Troy Duster Biosocieties *American Journal of Public Health* ,2008
