(Rami) Shani, 2018-08-10 This volume provides new conceptual insights to help organizations improve health and wellbeing in society Some chapters do this by addressing macro level change some by highlighting evidence based change at the micro level and others by extending theory and integrating perspectives that heretofore have remained separate

Alcohol: No Ordinary Commodity Thomas F. Babor, Sally Casswell, Kathryn Graham, Taisia

Huckle, Michael Livingston, Esa Österberg, Jürgen Rehm, Robin Room, Ingeborg Rossow, Bundit Sornpaisarn, 2022-10-31 **Alcohol No Ordinary Commodity** is a collaborative effort by an international group of addiction scientists to improve the linkages between addiction science and alcohol policy. It presents in a comprehensive practical and readily accessible form the accumulated scientific knowledge on alcohol research that has a direct relevance to the development of alcohol policy on local, national and international levels. It provides an objective basis on which to build relevant policies globally and informs policy makers who have direct responsibility for public health and social welfare. By locating alcohol policy primarily within the realm of public health, this book draws attention to the growing tendency for governments both national and local to consider alcohol misuse as a major determinant of ill health and to organize societal responses accordingly. The scope of the book is comprehensive and global. The authors describe the conceptual basis for a rational alcohol policy and present new epidemiological data on the global dimensions of alcohol misuse. The core of the book is a critical review of the cumulative scientific evidence in seven general areas of alcohol policy: pricing and taxation; regulating the physical availability of alcohol; modifying the environment in which drinking occurs; drinking driving countermeasures; marketing restrictions; primary prevention programs in schools and other settings; and treatment and early intervention services. The final chapters discuss the current state of alcohol policy in different parts of the world and describe the need for a new approach to alcohol policy that is evidence based, global and coordinated. A valuable resource for those involved in addiction science and drug policy as well as those in the wider fields of public health, health policy, epidemiology and practising clinicians.

Healthier Lives, Digitally Enabled

Mark Merolli, Chris Bain, Louise K. Schaper, 2021-04-15 Disruption often drives innovation and 2020 was certainly an extraordinary year for all health professionals. Not only did it stretch individual providers and healthcare systems to their limits, it highlighted the urgent and rapid need to mobilize digital health technology as well as pressure testing digital health in ways and under timeframes not previously imagined. Many saw the rapid deployment and uptake of telehealth services partly out of necessity to maintain continuity of care but also to ensure that those who needed healthcare were still able to access it no matter what their situation or location. This book presents 17 selected papers from the Australian Health Informatics Conference HIC 2020 Healthier Lives Digitally Enabled held online from 5-25 November 2020. This annual conference usually marks the coming together of the nation's digital health community to discuss, share and showcase current and future initiatives that support the progression of digital health but in 2020 it took the form of satellite events culminating with an online Digital Health Institute Summit. The papers presented here reflect highly topical themes across various areas and disciplines including digital health in the care of the elderly, mental health, COVID-19, public health and workforce. Familiar topics such as wearables, mobile health and remote monitoring, interoperability and data privacy are also covered as well as telehealth, automation, bots and other AI applications. The book will be of interest to all health professionals, especially those working in

the fields of digital health informatics and telemedicine National 4-H Club News ,1923 **Fairer Welfare Systems for Better Mental Health** Katie Pybus,2025-01-23 Our knowledge and awareness of mental health has never been greater Yet little progress has been made in addressing a key cause of population mental ill health financial insecurity This book argues that tackling inequalities through the social security system could offer a new focus to help stop our current trajectory of worsening poverty and distress Featuring original research and focusing on three key areas prevention support and investment it sets out how well designed social security systems could play a central role in our collective mental health and discusses the changes that are needed to get there **Managing and Developing Sports Officials** Tom Webb,David J. Hancock,Pamm Phillips,Jacob K. Tingle,2024-08-01 This book offers an evidence based guide to the development management and retention of sports officials Drawing on research at all levels of sport from grassroots to professional this book focuses on best practices for sports officials and for anybody involved in the management or training of sports officials This book is divided into three parts The first takes a close look at who sports officials are their motivations and the formal and informal organizational relationships that define an official s position in sport The second examines the factors that can keep an official engaged in their sport from building healthy cultures and good physical preparation to mentoring and mental health The final part looks at the development of officials to elite level including effective communication improving decision making interpreting rules and laws and career pathways With case studies real life examples and the voices of practicing officials included throughout this book it introduces core concepts and best practices applicable across sports and different national and international contexts This is an essential reference for all sports officials and for practitioners and policymakers working in sports organizations at all levels **Implementing Physical Activity Strategies** Russell R.
