Elihu Yale The American Nabob Of Queen:

Elihu Yale, the American Nabob of Queen Square Hiram Bingham, 1968 **Elihu Yale** Hiram Bingham, 1999 **The Alchemy of Empire** Rajani Sudan, 2016-06-01 Named Top 6 South Asia studies publications of 2016 by the British Association for South Asian Studies The Alchemy of Empire unravels the non European origins of Enlightenment science Focusing on the abject materials of empire building this study traces the genealogies of substances like mud mortar ice and paper as well as forms of knowledge like inoculation Showing how East India Company employees deployed the paradigm of alchemy in order to make sense of the new worlds they confronted Rajani Sudan argues that the Enlightenment was born largely out of Europe's and Britain's sense of insecurity and inferiority in the early modern world Plumbing the depths of the imperial archive Sudan uncovers the history of the British Enlightenment in the literary artifacts of the long eighteenth century from the correspondence of the East India Company and the papers of the Royal Society to the poetry of Alexander Pope and the novels of Jane Austen **Slave Portraiture in the Atlantic World** Agnes Lugo-Ortiz, Angela Rosenthal, 2013-09-30 Slave Portraiture in the Atlantic World is the first book to focus on the individualized portrayal of enslaved people from the time of Europe's full engagement with plantation slavery in the late sixteenth century to its final official abolition in Brazil in 1888 While this period saw the emergence of portraiture as a major field of representation in Western art slave and portraiture as categories appear to be mutually exclusive On the one hand the logic of chattel slavery sought to render the slave's body as an instrument for production as the site of a non subject Portraiture on the contrary privileged the face as the primary visual matrix for the representation of a distinct individuality Essays address this apparent paradox of slave portraits from a variety of interdisciplinary perspectives probing the historical conditions that made the creation of such rare and enigmatic objects possible and exploring their implications for a more complex understanding of power relations under slavery Cultures of United States Imperialism Amy Kaplan, Donald E. Pease, 1993 Cultures of United States Imperialism represents a major paradigm shift that will remap the field of American Studies Pointing to a glaring blind spot in the basic premises of the study of American culture leading critics and theorists in cultural studies history anthropology and literature reveal the denial of empire at the heart of American Studies Challenging traditional definitions and periodizations of imperialism this volume shows how international relations reciprocally shape a dominant imperial culture at home and how imperial relations are enacted and contested within the United States Drawing on a broad range of interpretive practices these essays range across American history from European representations of the New World to the mass media spectacle of the Persian Gulf War The volume breaks down the boundary between the study of foreign relations and American culture to examine imperialism as an internal process of cultural appropriation and as an external struggle over international power The contributors explore how the politics of continental and international expansion conquest and resistance have shaped the history of American culture just as much as the cultures of those it has dominated

By uncovering the dialectical relationship between American cultures and international relations this collection demonstrates the necessity of analyzing imperialism as a political or economic process inseparable from the social relations and cultural representations of gender race ethnicity and class at home Contributors Lynda Boose Mary Yoko Brannen Bill Brown William Cain Eric Cheyfitz Vicente Diaz Frederick Errington Kevin Gaines Deborah Gewertz Donna Haraway Susan Jeffords Myra Jehlen Amy Kaplan Eric Lott Walter Benn Michaels Donald E Pease Vicente Rafael Michael Rogin Jos David Sald var Richard Slotkin Doris Sommer Gauri Viswanathan Priscilla Wald Kenneth Warren Christopher P Wilson **English Literature, Volume 2** Louis A. Deacon, P. Russell, A. Woollacott, 2010-01-29 The transnationalism of ordinary lives threatens the stability of national identity and unsettles the framework of national histories and biography This book takes mobility not nation as its frame and captures a rich array of lives from the elite to the subaltern that have crossed national racial and cartographic boundaries **Yale and Slavery** David W. in 1701 to the dedication of its Civil War memorial in 1915 while engaging with the legacies and remembrance of this complex story The book brings into focus the enslaved and free Black people who have been part of Yale's history from the beginning but too often ignored in official accounts These individuals and their descendants worked at Yale petitioned and fought for freedom and dignity built churches schools and antislavery organizations and were among the first Black students to transform the university from the inside Always alive to the surprises and ironies of the past Yale and Slavery presents a richer and more complete history of Yale the third oldest college in the country showing how pillars of American higher education even in New England emerged over time intertwined with the national and international history of racial slavery

The English Gentleman Merchant at Work Søren Mentz, 2005 During the seventeenth and eighteenth centuries servants in the East India Company established a private English trading network that was successful and highly competitive How was this development maintained seeing that the group of private merchants was constantly changing The answer must be found in the close ties connecting Madras with the City of London London was the financial centre of the British Empire as well as the generator of overseas expansion Colonial societies in the West Indies and North America were economically and socially dependent upon the metropolis and so was Madras This book places the activities of the private merchants in Madras within the framework of the first British Empire It focuses on a hitherto neglected field of study uncovering a private trading network a diaspora built on gentlemanly capitalism trust and ethnicity

Segregation Carl H. Nightingale,2012-05-01 When we think of segregation what often comes to mind is apartheid South Africa or the American South in the age of Jim Crow two societies fundamentally premised on the concept of the separation of the races But as Carl H Nightingale shows us in this magisterial history segregation is everywhere deforming cities and societies worldwide Starting with segregation s ancient roots and what the archaeological evidence reveals about humanity s long standing use of urban divisions to reinforce political and economic inequality Nightingale then moves to the world of European colonialism It was there he shows segregation based on color and eventually on race took hold the British East India Company for example split Calcutta into White Town and Black Town As we follow Nightingale s story around the globe we see that division replicated from Hong Kong to Nairobi Baltimore to San Francisco and more The turn of the twentieth century saw the most aggressive segregation movements yet as white communities almost everywhere set to rearranging whole cities along racial lines Nightingale focuses closely on two striking examples Johannesburg with its state sponsored

separation and Chicago in which the goal of segregation was advanced by the more subtle methods of real estate markets and housing policy For the first time ever the majority of humans live in cities and nearly all those cities bear the scars of segregation This unprecedented ambitious history lays bare our troubled past and sets us on the path to imagining the better more equal cities of the future

The Silk Roads Peter Frankopan, 2016-02-16 INTERNATIONAL BESTSELLER Far more than a history of the Silk Roads this book is truly a revelatory new history of the world promising to destabilize notions of where we come from and where we are headed next A rare book that makes you question your assumptions about the world The Wall Street Journal From the Middle East and its political instability to China and its economic rise the vast region stretching eastward from the Balkans across the steppe and South Asia has been thrust into the global spotlight in recent years Frankopan teaches us that to understand what is at stake for the cities and nations built on these intricate trade routes we must first understand their astounding pasts Frankopan realigns our understanding of the world pointing us eastward It was on the Silk Roads that East and West first encountered each other through trade and conquest leading to the spread of ideas cultures and religions From the rise and fall of empires to the spread of Buddhism and the advent of Christianity and Islam right up to the great wars of the twentieth century this book shows how the fate of the West has always been inextricably linked to the East Also available *The New Silk Roads* a timely exploration of the dramatic and profound changes our world is undergoing right now as seen from the perspective of the rising powers of the East

The Oriental Religions and American Thought Carl T. Jackson, 1981

Cavendish Christa Jungnickel, Russell McCormmach, 1999 The Cavendishes flourished during the high tide of British aristocracy following the revolution of 1688 89 and the case can be made that this aristocracy knew its finest hour when Henry Cavendish gently laid his delicate weights in the pan of his incomparable precision balance For this it took two generations and two kinds of invention one in social forms and the other in scientific technique This biography tells how it came to pass
