L'Affectivité et la signification Jean-Pierre Cléro, 2000 travers des articles sur Machiavel Descartes et Spinoza Hume et Smith Merleau Ponty une question sert de fil conducteur une recherche menée sur les terrains de la politique de la morale du droit et de l'esthétique comment l'affectivité intervient-elle en chacun de ces domaines D'une communication l'autre on voit se dessiner un ensemble d'antinomies qui paraissent constituer une antithétique les éléments symboliques linguistiques essentiellement sont-ils au fondement de l'affectivité Ou faut-il au contraire penser que l'affectivité est plus profonde que toute symbolique *Éloge de la philosophie et autres essais* Maurice Merleau-Ponty, 1967 [The Wild Region in Life-History](#)

Cambridge Companion to Merleau-Ponty Taylor Carman, Mark B. N. Hansen, Mark Boris Nicola Hansen, 2005 Publisher Description **Phenomenology World-Wide** Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect

them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names *Philippe Van Snick* Marie-Pascale Gildemyn, 2010 This publication is the first career encompassing monographic study of the artistic production of Philippe Van Snick The result of a long term collaboration between the artist a team of researchers and a group of designers it serves as an instrument for discovering Van Snick's oeuvre as a totality This book reveals Van Snick's long standing experimentation with a wide variety of materials and techniques such as drawings and works on paper photography film sculptures and works in situ A red thread through the artworks is their close ties to everyday reality life and nature Volume 9: Kierkegaard and Existentialism Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition whatever their actual doctrines were in one way or another influenced by the writings of Kierkegaard This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century In Kierkegaard's writings one can find a rich array of concepts such as anxiety despair freedom sin the crowd and sickness that all came to be standard motifs in existentialist literature Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism However recent scholarship has been attentive to his ideological use of Kierkegaard Indeed Sartre seemed to be exploiting Kierkegaard for his own purposes and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers The articles in the present volume feature figures from the French German Spanish and Russian traditions of existentialism They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly they critically analyze his purported role in this famous intellectual movement Encyclopedia of Phenomenology Lester Embree, 2013-06-29 This encyclopedia presents phenomenological thought and the phenomenological movement within philosophy and within more than a score of other

disciplines on a level accessible to professional colleagues of other orientations as well as to advanced undergraduate and graduate students Entries average 3 000 words In practically all cases they include lists of works For Further Study The Introduction briefly chronicles the changing phenomenological agenda and compares phenomenology with other 20th Century movements The 166 entries are a baut matters of seven sorts 1 the faur broad tendencies and periods within the phenomenological movement 2 twenty three national traditions ofphenomenology 3 twenty two philosophical sub disciplines including those referred to with the formula the philosophy of x 4 phenomenological tendencies within twenty one non philosophical dis ciplines 5 forty major phenomenological topics 6 twenty eight leading phenomenological figures and 7 twenty seven non phenomenological figures and movements ofinteresting sim ilarities and differences with phenomenology Conventions Concern ing persons years ofbirth and death are given upon first mention in an entry ofthe names of deceased non phenomenologists The names of persons believed tobe phenomenologists and also for cross referencing purposes the titles of other entries are printed entirely in SMALL CAPITAL letters also upon first mention In addition all words thus occurring in all small capital letters are listed in the index with the numbers of all pages on which they occur To facilitate indexing Chinese Hungarian and Japanese names have been re arranged so that the personal name precedes the family name
