Embattled Paradise:

Embattled Paradise Arlene S. Skolnick, 1991-12-04 Skolnick offers a lucid and compassionate appraisal of the crisis of the American family arguing that while the great economic and cultural transformations of the past generation are irreversible they need not irreparably undermine our most precious family values *She Works/he Works* Rosalind C. Barnett, Caryl Rivers, 1998 A four year study of 300 middle class and working class couples this text draws on cross disciplinary research and debunks the myth of the overwrought working mother with her insensitive husband and neglected children Family Man Scott Coltrane, 1996-03-28 The typical American family has changed dramatically since the days of Ozzie and Harriet and Father Knows Best Double income families are now the rule and fathers are much more involved in raising the children and cleaning house Reactions to these changes have been diverse ranging from grave misgivings to a sense of liberation and new possibility Groups as diverse as Promise Keepers the Million Man March and Robert Bly's mythopoetic men's movement tell us that fathers are important From the fundamentalist right to the feminist left opinions about the changing nature of the family and the consequent rethinking of gender roles have been vehement if not always very well founded In Family Man sociologist Scott Coltrane brings a wealth of compelling evidence to this debate over the American family Drawing on his own extensive research and many fascinating interviews Coltrane explodes many of the common myths about shared parenting provides first hand accounts of men's and women's feelings in two job families and reveals some innovative solutions that couples have developed to balance job and family commitments Readers will find an insightful discussion of precisely how and why family life has changed what forms it may take in the future and what new kinds of fathers may be on the horizon The author firmly places these questions within a broad contextual framework He provides for instance an illuminating history of the family that shows that far from being a fixed structure the family has always adapted to changing economic social and ideological pressures And by examining how families operate in a variety of non industrial societies he demonstrates that our own notions of gender specific work and parenting roles are culturally rather than biologically determined and thus inherently flexible And indeed these roles are changing While contemporary American women still perform the bulk of domestic tasks Family Man gives us decisive evidence that men are becoming increasingly involved in both housework and childrearing Coltrane argues convincingly that this trend will continue Given the current economic situation with two job households now the norm and the gradual ideological shift away from restrictive gender roles more and more couples will find it both necessary and desirable to share the workload More important Coltrane suggests that as fathers participate more fully in raising their children and performing traditionally female household tasks men will themselves be transformed by the experience in profoundly positive ways and American society as a whole will move closer to true gender equity Family Man succeeds brilliantly in bringing clarity perspective and above all hope to a discussion that is too often shrill chaotic and beset with the rhetoric of nostalgia It shows us not only exactly where the family is today but

where it has been and what it may become **The Third Lie** Richard J Gelles,2011-10-31 Richard Gelles explains why government programs designed to cure social ills don t work in sector after sector and why they should be replaced with a universal entitlement at lower cost **Childrearing Values in the United States and China** Bloomsbury Publishing,2001-07-30 Hong Xiao examines the linkage between social structure and child rearing values in the United States and China Her primary objectives are to examine the underlying structure of childrearing values discover the dynamics of the structural level family level and individual level determinants of childrearing values and to compare patterns of value orientations in the two countries Three value dimensions autonomy conformity and a care orientation are identified in both the United States and China samples via factor analyses Furthermore despite cross national differences in political system economic development and culture history Professor Xiao finds Americans and Chinese are quite similar in their thinking of the kinds of things to teach children at home Among the top six qualities endorsed within each country five are identical However sources of value variations are drastically different in the two countries For example in the United States while the influence of class on men s values for children has become muted overtime class differences in values continue to exist among women And neither gender nor motherhood is related to the care orientation In China valuation of children s autonomy or conformity is conditioned heavily by political conformity age and family size Of particular interest to scholars students and other researchers involved with gender and family studies sociology and Asian Studies **The Psychosocial Interior of the Family** Gerald Handel,Gail G. Whitchurch, This long awaited fourth edition has the same goal as the preceding editions to understand families in terms of the kinds of interaction through which family life is constructed The changes in the family as an institution have influenced these processes just as they have influenced the ways we understand and write about them But even in these postmodern circumstances an underlying premise of the volume is that two partners establish a family because they have selected each other as distinctively meaningful to one another They will affirm modify elaborate or retreat from various aspects of the relationship through interaction over time and in changing circumstances This volume contains the best available interdisciplinary work on the social psychology of the family More than half of the selections are new to this edition which incorporates a variety of theoretical and research perspectives that provide the reader with a range of authoritative and up to date sources on the family and interpersonal relations The newer forms of family organization that have emerged in the more recent literature specifically single parent families stepfamilies and families of gay and lesbian domestic partners are included Authors have been drawn from a variety of disciplines including sociology communication family studies human development psychology anthropology and social work **The Changing Rhythms of American Family Life** Suzanne M. Bianchi,John P. Robinson,Melissa A. Milke,2006-07-13 Over the last forty years the number of American households with a stay at home parent has dwindled as women have increasingly joined the paid workforce and more women raise children alone Many policy makers feared these changes would come at the expense

of time mothers spend with their children In *Changing Rhythms of American Family Life* sociologists Suzanne M Bianchi John P Robinson and Melissa Milkie analyze the way families spend their time and uncover surprising new findings about how Americans are balancing the demands of work and family Using time diary data from surveys of American parents over the last four decades *Changing Rhythms of American Family Life* finds that despite increased workloads outside of the home mothers today spend at least as much time interacting with their children as mothers did decades ago and perhaps even more Unexpectedly the authors find mothers time at work has not resulted in an overall decline in sleep or leisure time Rather mothers have made time for both work and family by sacrificing time spent doing housework and by increased multitasking *Changing Rhythms of American Family Life* finds that the total workload in and out of the home for employed parents is high for both sexes with employed mothers averaging five hours more per week than employed fathers and almost nineteen hours more per week than homemaker mothers Comparing average workloads of fathers with all mothers both those in the paid workforce and homemakers the authors find that there is gender equality in total workloads as there has been since 1965 Overall it appears that Americans have adapted to changing circumstances to ensure that they preserve their family time and provide adequately for their children *Changing Rhythms of American Family Life* explodes many of the popular misconceptions about how Americans balance work and family Though the iconic image of the American mother has changed from a docile homemaker to a frenzied sleepless working mom this important new volume demonstrates that the time mothers spend with their families has remained steady throughout the decades

The Intersection of Race, Class, and Gender in Multicultural Counseling Donald B. Pope-Davis, Hardin L. K. Coleman, 2001 Featuring an outstanding group of the leading theorists and researchers from the fields of multicultural psychology and counseling this book begins with chapters on how the interplay of such variables of class gender and race interact in the development of an individual in a pluralistic society It then presents theories on how to integrate issues of class gender and race into counseling theory

Not in This Family Heather Murray, 2012-02-10 Many Americans hold fast to the notion that gay men and women more often than not have been ostracized from disapproving families *Not in This Family* challenges this myth and shows how kinship ties were an animating force in gay culture politics and consciousness throughout the latter half of the twentieth century Historian Heather Murray gives voice to gays and their parents through an extensive use of introspective writings particularly personal correspondence and diaries as well as through published memoirs fiction poetry song lyrics movies and visual and print media Starting in the late 1940s and 1950s *Not in This Family* covers the entire postwar period including the gay liberation and lesbian feminist movements of the 1960s and 1970s the establishment of PFLAG Parents Families and Friends of Lesbians and Gays and the AIDS crisis of the 1980s and 1990s Ending her story with an examination of contemporary coming out rituals Murray shows how the personal that was once private became political and finally public In exploring the intimate reciprocal relationship of gay children and their parents *Not in This Family* also chronicles larger cultural shifts in privacy

discretion and public revelation and the very purpose of family relations Murray shows that private bedrooms and consumer culture social movements and psychological fashions all had a part to play in transforming the modern family

Unequal Childhoods Annette Lareau, 2011-08-02 This book is a powerful portrayal of class inequalities in the United States It contains insightful analysis of the processes through which inequality is reproduced and it frankly engages with methodological and analytic dilemmas usually glossed over in academic texts

The Family on the Threshold of the 21st Century Solly Dreman, 2013-04-15 Is there life for the family in the 21st century Pessimists view the traditional two parent nuclear family as a relic of the past attributing their gloomy outlook to increased demands from the workplace rampant technological advancement and the pursuit of personal achievement at the expense of interpersonal needs and values Optimists on the other hand claim that increasing alienation and emphasis on the occupational sphere necessitate a sense of family community and belonging as a haven from work related stress This volume addresses these and related issues such as the interplay of personal versus interpersonal factors in family development the role of the extended family and the interface between work community and family The contents of this book scholarly contributions from a unique interdisciplinary rostrum of behavioral scientists in such diverse fields as psychology sociology anthropology social work industrial management and demography represent the latest developments in research theory and practice in family studies The reader is presented with theoretical formulations empirical findings and applied interventions regarding family life in different parts of the world A systems perspective is adopted as the family is examined at its interface with individuals community society and culture with the interdependence of these different levels emphasized In addition an attempt is made to integrate the work of theoreticians researchers and practitioners in understanding the evolving family Dreman provides a survey of family life in the international arena and finds a surprising consensus between the different disciplinary perspectives and the respective geographical arenas He discusses life span issues in relation to all levels of family life including the impact of increased longevity and decreased fertility in relation to topics such as individual development parent child and couple relationships the workplace and the community This book also highlights the interplay of biological and interpersonal dynamics as in the case of spousal depression

Grand Expectations James T. Patterson, 1996-04-18 James T Patterson skilfully weaves together political social cultural and economic history to present a fascinating survey of postwar America

Feminism and Families Hilde Lindemann, 1997 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company

Weaving Work and Motherhood Anita Iltis Garey, 1999 In American culture the image of balancing work and family life is often represented in the glossy shot of the executive track woman balancing cell phone laptop and baby In *Weaving Work and Motherhood* Anita Iltis Garey focuses not on the corporate executives so frequently represented in American ads and magazines but rather on the women in jobs that typify the vast majority of women's employment in the United States A sociologist and work and family expert Garey situates her research in the health service industry

Interviewing a racially and ethnically diverse group of women hospital workers clerical workers janitorial workers nurses and nurse s aids Garey analyzes what it means to be at once a mother who is employed and a worker with children Within the limits of the resources available to them women integrate their identities as workers and their identities as mothers by valuing their relation to work while simultaneously preserving cultural norms about what it means to be a good mother Some of these women work non day shifts in order to have the right blocks of time at home including for example a registered nurse who explains how working the night shift enables her to see her children off to school greet them when they return and attend school events in the way she feels good mothers should even if she finds little time for sleep Moving beyond studies of women work and family in terms of structural incompatibilities Garey challenges images of the exclusively work oriented or exclusively family oriented mother As women talk about their lives Garey focuses on the meanings of motherhood and of work that underlie their strategies for integrating employment and motherhood She replaces notions of how women balance work and family with a better understanding of how women integrate negotiate and weave together their identities as both workers and mothers Breaking new ground in the study of work and family Weaving Work and Motherhood offers new insights for those interested in sociology gender and women s studies social policy child care social welfare and health care

Scripture, Tradition, and Reason in Christian Ethics Bharat Ranganathan,Derek Alan Woodard-Lehman,2019-09-24 How should we understand the relationship between Christian ethics and religious ethics Among comparative ethnographic and normative methodologies Between confessional and non confessional orientations or between theology and philosophy This volume brings together emerging religious ethicists to engage the normative dimensions of Christian ethics Focusing on scripture tradition and reason the contributors to this volume argue for a vision of Christian ethics as religious ethics Toward this end they engage with scripture interpretation and religious practice examine the putative divide between reason and tradition autonomy and heteronomy and offer proposals about the normative characterization of conceptual and practical issues in contemporary religious ethics Collectively the volume engages Christian thought to make an argument for the continuing relevance of normative methodologies in contemporary religious and theological ethics *Gender and Family Change in Industrialized Countries* Karen Oppenheim Mason,An-Magritt Jensen,1995-09-28 This volume focuses on the relationship between change in the family and change in the roles of women and men on contemporary industrial societies Of central concern is whether change in gender roles has fuelled or is merely historically coincident with such changes in the family as rising divorce rates increases in out of wedlock childbearing declining marriage rates and a growing disconnection between the lives of men and children Covering more that twenty countries including the USA the countries of western Europe and Japan each essay in the volume is organized around an important theoretical or policy question all offer new data analyses and several offer prescriptions of how to fashion more equitable and humane family and gender systems The second demographic transition and microeconomic theory of marital exchange are the dominant theoretical models considered

several chapters feature state of the art quantitative analyses of large scale surveys

Seeking Love in Modern Britain Zoe Strimpel, 2020-03-05 Seeking Love in Modern Britain charts the emergence of the modern British single through an account of the dating industry that sprang up to serve men and women It shows how amid a period of unprecedented sexual and social change the single became a key unisex identity and lifestyle From around 1970 a growing cottage style matchmaking industry in Britain was offering the romantically solo a choice between computer dating firms such as Dateline or Compudate introduction agencies and the lonely hearts pages of Private Eye Time Out and others Zoe Strimpel reveals how this rapidly expanding landscape of services was catering to a new breed of single people and how by the late 1990s singleness had become the culturally mainstream wholly expected part of the romantic life cycle that it is today Refuting the widespread idea that the Internet invented modern dating this book uses an eclectic and engaging range of first person accounts and snapshots from the time to show that the story of contemporary romance mediated courtship and singleness began in a time long before Tinder

War Over The Family David Popenoe, 2005 Drawing on his most seminal thinking this book presents Popenoe s observations and interpretations of the great family debate The book includes his widely cited now classic article American Family Decline 1960 1990 A Review and Appraisal as well as his path breaking The Evolution of Marriage and the Problem of Stepfamilies and the influential Can the Nuclear Family be Revived The writings in this book share a broad cultural historical and inter disciplinary perspective They are accessible not only to the family scholar and the family professional but to the general reader who wishes to know more about one of the truly important social issues of our time

Wives of Steel Karen Olson, 2005 Wives of Steel is based on more than eighty formal interviews conducted over a fifteen year period with women and some men both white and black all of whom were part of Sparrows Point as workers spouses or longtime residents of the local communities Through the stories they tell we see how a male dominated industry has influenced personal family and social experiences over several generations We also see the distinct differences and surprising similarities among the lives of black and white women which often reflect the complicated relationships among black and white steelworkers in the plant
