**Fantasies of Witnessing** Gary Weissman, 2018-07-05 Fantasies of Witnessing explores how and why those deeply interested in the Holocaust yet with no direct familial connection to it endeavor to experience it vicariously through sites or texts designed to make it real for nonwitnesses Gary Weissman argues that far from overwhelming nonwitnesses with its magnitude of horror the Holocaust threatens to feel distant and unreal A prevailing rhetoric of secondary memory and trauma he contends and efforts to portray the Holocaust as an immediate and personal experience are responses to an encroaching sense of unreality In America we are haunted not by the traumatic impact of the Holocaust but by its absence When we take an interest in the Holocaust we are not overcoming a fearful aversion to its horror but endeavoring to actually feel the horror of what otherwise eludes us Weissman focuses on specific attempts to locate the Holocaust in the person of Elie Wiesel the most renowned survivor and his classic memoir *Night* in videotaped survivor stories and Lawrence L Langer s celebrated book *Holocaust Testimonies* and in the films *Shoah* and *Schindler s List* These representations he explains constitute a movement away from the view popularized by Wiesel that those who did not live through the Holocaust will never be able to grasp its horror and toward re creating the Holocaust as an experience nonwitnesses may put themselves through It is only by acknowledging the desire that gives shape to such representations and by exploring their place in the ongoing contest over who really knows the Holocaust and feels its horror that we can arrive at a more candid assessment of our current and future relationships to the Holocaust he says Elie Wiesel's *Night* Harold Bloom, 2010 Collection of critical essays about Elie Wiesel s Holocaust memoir *Night*

**Witness Between Languages** Peter Davies, Peter J. Davies, 2018 A growing body of scholarship is making visible the contribution of translators to the creation preservation and transmission of knowledge about the Holocaust The discussion has tended to be theoretical or to concentrate on exposing the distorted translations of texts by important witnesses such as Anne Frank or Elie Wiesel There is therefore a need for a positive concrete and contextually aware approach to the translation of Holocaust testimonies that acknowledges the achievements of translators while being sensitive to the consequences of particular translation strategies Peter Davies s study proceeds from the assumption that translators are active co creators whose work does not simply mediate a pre existing text but creates a representation of that text for a new readership in a specific context Translators of Holocaust testimonies then provide a form of textual commentary that works through ideas about witnessing historical truth and the meaning of the Holocaust In this way they are important co creators of knowledge about the Holocaust and its legacy The study focuses on translations between English and German and from other languages principally French Russian and Polish into English and German It works through a number of case studies showing how making translation and its effects visible contributes to a clearer understanding of how knowledge about the Holocaust has been and continues to be created and mediated Peter Davies is Professor of German at the University of Edinburgh
