Language, Democracy, and the Paradox of Constituent Power Catherine Frost,2021-04-19 In this book Catherine Frost uses evidence and case studies to offer a re examination of declarations of independence and the language that comprises such documents Considered as a quintessential form of founding speech in the modern era declarations of independence are however poorly understood as a form of expression and no one can completely account for how they work Beginning with the founding speech in the American Declaration Frost uses insights drawn from unexpected or unlikely forms of founding in cases like Ireland and Canada to reconsider the role of time and loss in how such speech is framed She brings the discussion up to date by looking at recent debates in Scotland where an undeclared declaration of independence overshadows contemporary politics Drawing on the work of Hannah Arendt and using a contextualist comparative theory method Frost demonstrates that the capacity for renewal through speech arises in aspects of language that operate beyond conventional performativity Language Democracy and the Paradox of Constituent Power is an excellent resource for researchers and students of political theory democratic theory law constitutionalism and political history

Hall,2003-11-10 In The American Empire and the Fourth World Anthony Hall presents a sweeping analysis of encounters between indigenous people and the European empires national governments and global corporations on the moving frontiers of globalization since Columbus discovered America How should we respond to the emergence of the United States as the military commercial and cultural centre of a global empire How can we elaborate a global rule of law based on equality and democracy when the world s most powerful polity acknowledges no higher authority in the international arena than its own domestic priorities For Hall the answer lies in the concept of the Fourth World an inclusive intellectual tent covering a wide range of movements whose leaders seek to implement alternative views of globalization Larger than any earlier political movement the Fourth World embraces basic principles that include the inherent rights of self determination and a more just approach to the crafting and enforcement of international law Seen but Not Seen Donald B. Smith,2020-12-11 Based on decades of extensive archival research Seen but Not Seen uncovers a great swath of previously unknown information about settler Indigenous relations in Canada
