Elite Transition From Apartheid To Neoliberalism In South Africa:

The Elite Transition Patrick Bond, 2000-02-20 In *Elite Transition* Patrick Bond examines the economic and social compromises that have been and are being made between the past and present powers in South Africa. A former adviser to the ANC, Bond investigates how groups such as the ANC went from being a force of liberation for all people to a vehicle now perceived as serving the economic interests of an elite few. Bond covers a range of socioeconomic factors under both the old and new South Africa, highlighting the reasons for the transition's development failure and drawing on case studies on key issues: social contracts, black economic empowerment, housing, and corporate power. He explores the idea that progressive policymaking is being compromised by the new petit bourgeoisie and ruling elite and assesses the view that as change slows down, official policy is increasingly one of lower expectations.

South Africa and Global Apartheid Patrick Bond, 2004 This study covers a variety of political and economic aspects of Africa's and South Africa's relationships to the world. The author considers the context of global apartheid in terms of international stagnation, uneven development, and African marginalisation and evaluates the South African setting as a telling site of worsening inequality. Where does then the New Partnership for Africa's Development (NEPAD) stand on the largest economic and political problems? South Africa's other proposed global reforms are also discussed. Finally, the author records an emerging ideology based not on commodification via globalisation but on decommodification and deglobalisation and the strategies, tactics, and alliances required for African and international progress.

Architecture and urbanism have contributed to one of the most sweeping transformations of our times Over the past four decades neoliberalism has been not only a dominant paradigm in politics but a process of bricks and mortar in everyday life Rather than to ask what a neoliberal architecture looks like or how architecture represents neoliberalism this volume

examines the multivalent role of architecture and urbanism in geographically variable yet interconnected processes of neoliberal transformation across scales from China Turkey South Africa Argentina Mexico the United States Britain Sweden and Czechoslovakia Analyzing how buildings and urban projects in different regions since the 1960s have served in the implementation of concrete policies such as privatization fiscal reform deregulation state restructuring and the expansion of free trade contributors reveal neoliberalism as a process marked by historical contingency Neoliberalism on the Ground fundamentally reframes accepted narratives of both neoliberalism and postmodernism by demonstrating how architecture has articulated changing relationships between state society and economy since the 1960s

Albie Sachs and Transformation in South Africa Drucilla Cornell,Karin van Marle,Albie Sachs,2014-03-05 Many critical theorists talk and write about the day after the revolution but few have actually participated in the constitution of a revolutionary government Emeritus Justice Albie Sachs was a freedom fighter for most of his life He then played a major role in the negotiating committee for the new constitution of South Africa and was subsequently appointed to the new Constitutional Court of South Africa Therefore the question of what it means to make the transition from a freedom fighter to a participant in a revolutionary government is not abstract in Hegel s sense of the word it is an actual journey that Albie Sachs undertook The essays in this book raise the complex question of what it actually means to make this transition without selling out to the demands of realism In addition the preface written by Emeritus Justice Albie Sachs and his interview with Drucilla Cornell and Karin van Marle further address key questions about revolution in the twentieth and twenty first centuries from armed struggle to the organization of a nation state committed to ethical transformation in the name of justice Albie Sachs and transformation in South Africa from revolutionary activist to constitutional court judge illuminates the theoretical and practical experiences of revolution and its political aftermath With first hand accounts alongside academic interrogation this unique book will intrigue anyone interested in the intersection of Law and Politics

Muiu,2008-12-08 This book compares African and Afrikaner nationalisms to demonstrate that the transition from apartheid to liberal democracy in South Africa was a neo colonial settlement that left the economy and the military and security sectors under the control of the white minority while increasing wide socioeconomic disparities between rich and poor

Neoliberalism, Cities and Education in the Global South and North Kalervo N. Gulson,Thomas C. Pedroni,2016-04-08 Across the world cities are being reshaped in myriad ways by neoliberal forms of globalization a process of urban restructuring with significant implications for educational policy and practices The chapters in this collection speak to two complementary but analytically distinguishable aspects of the interplay between education globalization cities and

neoliberalism The first aspect relates to the macro relationships between these powerful global forces on the one hand and cities and their schools on the other In particular the book considers the stratifying dynamics that exacerbate already existing inequalities related to race ethnicity language class and gender inequalities entailing differential access to the city s various resources The second aspect deals with the cultural politics and logics of these changes in the city This recognises that globalization is not simply imposed on the city but rather becomes insinuated into its fabric through the actions and the agency of local actors and social movements Against this backdrop the chapters document how the educational politics of urban contexts in the United States India Canada South Africa and Brazil should be understood as sites in which neoliberal forms of globalization are localised reproduced and potentially contested This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education

spheres *Nelson Mandela* Elleke Boehmer, 2010 A remarkable statesman and one of the world's longest detained political prisoners 1964-90 Nelson Mandela has become an exemplary figure of anti-racist struggle and democracy a moral giant This fascinating and uncompromising biographical study paints a complex portrait of Mandela that goes beyond hagiography it examines his quality of character his theatrical flair his maverick ability to absorb transnational influences his steely survival skills his postmodern ease with media image and his ethical legacy *Korean Workers and Neoliberal Globalization* Kevin Gray, 2013-03-07 One of the most remarkable aspects of South Korea's transition from impoverished post-colonial nation to fully fledged industrialized democracy has been the growth of its independent and dynamic labour movement *Korean Workers and Neoliberal Globalisation* examines current trends and transformations within the Korean labour movement since the 1990s It has been a common assumption that the third wave of democratisation the end of the Cold War and the spread of neoliberal globalisation in the latter part of the 20th century have helped to create an environment in which organised labour is better placed to overcome bureaucratic national unionism and transform itself into a potential counter globalisation movement However Kevin Gray argues that despite the apparent continued phenomena of labour militancy and the rhetoric of anti-neoliberalism the mainstream independent labour movement in Korea has become increasingly institutionalised and bureaucratised into the new capitalist democracy This process is demonstrated by the Korean Confederation of Trade Unions experience of participation in various forms of policy making forums Gray suggests that as a result the KCTU has failed to mount an effective challenge against processes of neoliberal restructuring and concomitant social polarisation The Korean experience provides an excellent case study for understanding the relationship between organised labour and globalisation *Korean Workers and Neoliberal Globalisation* will appeal to students and scholars of Korean studies and International Political Economy as well as Asian politics and economics *Police Abuse in Contemporary Democracies* Michelle D. Bonner, Guillermina Seri, Mary Rose Kubal, Michael Kempa, 2018-03-28 This volume offers a much needed analysis of police abuse and its implications for our understanding of democracy Sometimes referred to as police violence or police repression police abuse occurs in all democracies It is not an exception or a stage of democratization It is this volume argues a structural and conceptual dimension of extant democracies The book draws our attention to how including the study of policing into our analyses strengthens our understanding of democracy including the persistence of hybrid democracy and the decline of democracy To this end the book examines three key dimensions of democracy citizenship accountability and socioeconomic inequality Drawing from political theory comparative politics and political economy the book explores cases from France the US India Argentina Chile South Africa Brazil and Canada and reveals how integrating police abuse can contribute to a more robust study of democracy and government in general **J. M. Coetzee and Neoliberal Culture** Andrew Gibson, 2022 Reads the writings of J. M. enter them via attention to his work *Social Movements and the Indian Diaspora* Movindri Reddy, 2015-11-19 With the elevation of Islam and Muslim transnational networks in international affairs from the rise of Al Qaeda to the revolutions in North Africa and the Middle East the study of Diasporas and transnational identities has become more relevant Using case studies from Fiji Mauritius Trinidad and South Africa this book explores the diaspora identities and impact of social movements on politics and nationalism among indentured Indian diaspora It analyses the way in which diasporas are defined by themselves and others and the types of social movements they participate in showing how these are critical indicators of the threat they are perceived to pose The book examines the notions of national and transnational identity and how they are determined by the placement of Diasporas in the transnational locality It argues that the transnationality intrinsic to diaspora identities mark them as others in the nation state and simultaneously separates them from the perceived motherland thus displacing them from both states and situating them in a transnational locality It is from this placement that social movements among Diasporas gain salience As outsiders and insiders they are well placed to offer a formidable challenge to the host state but these challenges are limited by their hybrid identities and perceived divided loyalties Providing an in depth analysis of Indian Diasporas the book will be of interest to those studying South Asian Studies Migration and Diaspora Studies
