Rocky Mountain Naturalist Maxine Benson, 1999-01-01 See there she is cried one visitor to the Centennial Exposition Just think She killed all them animals echoed another There that's her All during the hot Philadelphia summer of 1876 throngs of people pushed and shoved their way into the Kansas Colorado Building eager to catch a glimpse of the small dark haired woman responsible for creating the extraordinary display of bears deer and other mammals cavorting over a Rocky Mountain landscape Curious skeptical friendly on and on they came until the policemen stationed at the doors were hard pressed to maintain control The fairgoers were intent on seeing for themselves the modern Diana who had come all the way from the wilds of Colorado Maxine Benson's finely crafted biography of Martha Maxwell illuminates the little known but important career of a remarkable woman Naturalist taxidermist museologist artist Maxwell pioneered in a number of fields new for women Born in Pennsylvania in 1831 and educated in the Midwest she traveled to the gold fields of Colorado with her husband in 1860 A chance encounter with a German taxidermist determined her lifework and Maxwell soon devoted her boundless energy to hunting and mounting all forms of Rocky Mountain wildlife which she displayed in unusual habitat settings in her museum in Boulder and later in Denver Her spreading fame led to an invitation to exhibit her collection at the Philadelphia Centennial Exposition where she achieved international renown As Maxwell's major scientific and artistic contributions to natural history taxidermy and display were recognized her influence carried to the Smithsonian Institution Separated from her husband and alienated from her daughter however she became increasingly unhappy as her professional accomplishments grew Her tragic and lonely death in 1881 revealed something of the price she paid for daring to be different Like that of other accomplished women of her era Maxwell's fame did not keep pace with the significant influence she had on her profession Thanks to Maxine Benson Martha Maxwell now takes her rightful place in the history of the West

late nineteenth century With their religious beliefs challenged by the new biological sciences and historical criticism of the Bible they turned from personal salvation to the dire social problems of the industrial age The Regenerators explores the nature of social criticism in this era and its complex ties to the religious thinking of the day showing how the path blazed by nineteenth century religious liberals led not to the Kingdom of God on earth but ironically to the secular city The winner of the Governor General s Literary Award for Non Fiction when it was first published in 1985 The Regenerators became an instant classic for its fascinating portraits of evolutionists rationalists spiritualists socialists and free thinkers before the turn of the century This new edition features an introduction by historian and biographer Donald Wright Sparrow Kim Todd,2013-02-15 Innocent Invader Lover Thief Sparrows are everywhere and wear many guises Able to live in the Arctic and the desert from Beijing to San Francisco the house sparrow is the most ubiquitous wild bird in the world They are the subject of elegies by Catullus and John Skelton and listed as pretty things in Sei Shonagon s Pillow Book but they re also urban vermin with shocking manners that were so reviled that Mao placed them on the list of Four Pests and ordered the Chinese people to kill them on sight In Sparrow award winning science and natural history writer Kim Todd explores the bird s complex history biology and literary tradition Todd describes the difference between Old World sparrows like the house sparrow which can nest in a garage or in an airport and New World sparrows which often stake their claim to remote islands or meadows in the high Sierra In addition she looks at the nineteenth century Sparrow War in the United States a battle over the sparrow s introduction which set the stage for decades of discussions of invasive species She examines the ways in which sparrows have taught us about evolution and the shocking recent decline of house sparrows in cities globally this disappearance of a bird that seemed hardwired for success remains an ornithological mystery With lush illustrations ranging from early woodcuts and illuminated manuscripts to contemporary wildlife photography this is the first book length exploration of the natural and cultural history of this beloved reviled and ubiquitous bird Swallow Angela Turner,2015-11-15 Known as heralds of spring and beautiful elegant flyers swallows are among the most beloved of familiar birds Because they return with the spring swallows as Angela Turner explains have long been associated with the renewal of life love fidelity and fertility while their ability to travel incredible distances has given them associations with freedom and speed That freedom however hasn t kept them from becoming familiar figures in towns and cities They often seem to even seek out human company for example barn swallows are known for nesting in our buildings and purple martins in our back yards Destruction of their natural habitat however has proved dangerous to some species of swallow and recent years have seen some populations dwindling to the point of near extinction Turner outlines the reasons for these declines as part of her engaging account of the natural and cultural history of this beloved bird **A History of Conversion to Islam in the United States, Volume 1** Patrick D.
