Irish Novels 1890-1940 John Wilson Foster,2008-02-21 Studies of Irish fiction are still scanty in contrast to studies of Irish poetry and drama Attempting to fill a large critical vacancy Irish Novels 1890 1940 is a comprehensive survey of popular and minor fiction mainly novels published between 1890 and 1922 a crucial period in Irish cultural and political history Since the bulk of these sixty odd writers have never been written about certainly beyond brief mentions the book opens up for further exploration a literary landscape hitherto neglected perhaps even unsuspected This new landscape should alter the familiar perspectives on Irish literature of the period first of all by adding genre fiction science fiction detective novels ghost stories New Woman fiction and Great War novels to the Irish syllabus secondly by demonstrating the immense contribution of women writers to popular and mainstream Irish fiction Among the popular and prolific female writers discussed are Mrs J H Riddell B M Croker M E Francis Sarah Grand Katharine Tynan Ella MacMahon Katherine Cecil Thurston W M Letts and Hannah Lynch Indeed a critical inference of the survey is that if there is a discernible tradition of the Irish novel it is largely a female tradition A substantial postscript surveys novels by Irish women between 1922 and1940 and relates them to the work of their female antecedents This ground breaking survey should also alter the familiar perspectives on the Ireland of 1890 1922 Many of the popular works were problem novels and hence throw light on

contemporary thinking and debate on the Irish Question After the Irish Literary Revival and creation of the Free State much popular and mainstream fiction became a lost archive neglected evidence indeed of a lost Ireland **Elliott O'Donnell's Great Ghost Stories** Elliott O'Donnell,1984-02-01 The author recounts his experiences searching for ghosts and describes the history of each haunted site **Monsters** John Michael Greer,2021-10-31 An Investigator's Guide to Magical Beings that takes you on a harrowing journey into the realm of monsters and the reality of the impossible Monsters brings together folklore Western magical philosophy and field experience This book is required reading for both active and armchair monster hunters Between these covers you will find a chilling collection of fiendish facts and folklore such as why true vampires are the least attractive five different kinds of ghosts the magical origins of the werewolf legends hidden connections between faery lore and UFOs and where dragons are found today This is an essential field guide to monsters from angels to zombies with advice on monster investigation and magical self defence This latest edition not only has a new chapter on tulpas but the chapters on vampires and chimeras are significantly expanded with new material Plus the section on monster investigation has been thoroughly updated with details on new technology and the approach of the media to monster hunting *Spirits of the West* Robert C.
