possibly man's first and probably his greatest advance toward order and therefore toward civilization was the creation of the family as the social nucleus As Napoleon said when the lawyers were drafting his Civil Code Make the family responsible to its head and the head to me and I will keep order in France And yet although our dependence on the family system has been recognized in every age and in every land there has been no restraint on personal liberty which has been more resented by both men and women alike than has been this bond which when perfect constrains one man and one woman to live a joint life until death shall them part for the propagation care and defence of their children      *The Emancipation of Massachusetts*

**The EMANCIPATION of MASSACHUSETTS** Brooks Adams, 2018-01-15 I wrote this little volume more than thirty years ago since when I have hardly opened it Therefore I now read it almost as if it were written by another man and I find to my relief that on the whole I think rather better of it than I did when I published it Indeed as a criticism of what were then the accepted views of Massachusetts history as expounded by her most authoritative historians I see nothing in it to retract or even to modify I do however somewhat regret the rather acrimonious tone which I occasionally adopted when speaking of the more conservative section of the clergy Not that I think that the Mathers for example and their like did not deserve all or indeed more than all I ever said or thought of them but because I conceive that equally effective strictures might have been conveyed in urbaner language and as I age I shrink from anything akin to invective even in what amounts to controversy Therefore I have now nothing to alter in the *Emancipation of Massachusetts* viewed as history though I might soften its asperities somewhat here and there but when I come to consider it as philosophy I am startled to observe the gap which separates the present epoch from my early middle life The last generation was strongly Darwinian in the sense that it accepted almost as a tenet of religious faith the theory that human civilization is a progressive evolution moving on the whole steadily toward perfection from a lower to a higher intellectual plane and as a necessary part of its progress developing a higher degree of mental vigor I need hardly observe that all belief in democracy as a final solution of social ills all confidence in education as a means to attaining to universal justice and all hope of approximating to the rule of moral right in the administration of law was held to hinge on this great fundamental dogma which it followed it was almost impious to deny or even to doubt Thus on the first page of my book I observe as if it were axiomatic that at a given moment toward the opening of the sixteenth century Europe burst from her medi val torpor into the splendor of the Renaissance and further on I assume as an equally self evident axiom that freedom of thought was the one great permanent advance which western civilization made by all the agony and bloodshed of the Reformation Apart altogether from the fact that I should doubt whether in the year 1919 any intelligent and educated man would be inclined to

maintain that the twelfth and thirteenth centuries were as contrasted with the nineteenth ages of intellectual torpor what startles me in these paragraphs is the self satisfied assumption of the finality of my conclusions I posit as a fact not to be controverted that our universe is an expression of an universal law which the nineteenth century had discovered and could formulate During the past thirty years I have given this subject my best attention and now I am so far from assenting to this proposition that my mind tends in the opposite direction Each day I live I am less able to withstand the suspicion that the universe far from being an expression of law originating in a single primary cause is a chaos which admits of reaching no equilibrium and with which man is doomed eternally and hopelessly to contend For human society to deserve the name of civilization must be an embodiment of order or must at least tend toward a social equilibrium I take as an illustration of my meaning the development of the domestic relations of our race I assume it to be generally admitted that possibly man s first and probably his greatest advance toward order and therefore toward civilization was the creation of the family as the social nucleus As Napoleon said when the lawyers were drafting his Civil Code Make the family responsible to its head and the head to me and I will keep order in France
