## **Emanuel Swedenborg A Continuing Vision A Pictorial Biography And Anthology:**

*Emanuel Swedenborg* Robin Larsen, Swedenborg Foundation, 1988 This commemorative volume on the life and influence of Emanuel Swedenborg 1688 1772 includes a pictorial biography and essays on topics ranging from Swedenborg in the arts and psychology to examinations of his science and descriptions of the places he lived and worked This is the most comprehensive book about Emanuel Swedenborg in print

**The Natural philosophy of Emanuel Swedenborg** David Duner, 2012-07-31 Although Emanuel Swedenborg 1688 1772 is commonly known for his spiritual philosophy his early career was focused on natural science During this period Swedenborg thought of the world as like a gigantic machine following the laws of mechanics and geometry This volume analyzes this mechanistic worldview from the cognitive perspective by means of a study of the metaphors in Swedenborg's texts The author argues that these conceptual metaphors are vital skills of the creative mind and scientific thinking used to create visual analogies and abstract ideas This means that Swedenborg's mechanistic and geometrical worldview allowed him to perceive the world as mechanical and geometrical Swedenborg thought with books and pens The reading gave him associations and clues forced him to interpret and gave him material for his intellectual development

**Servetus, Swedenborg and the Nature of God** Andrew M.T. Dibb, 2005-04-19 The Trinity was defined at the Council of Nicaea and the relationship of the human and divine natures of Christ was defined at Chalcedon Very few questioned the Church's depictions of the nature of God Two such mavericks Michael Servetus 1509 1553 and Emanuel Swedenborg 1688 1772 in spite of their Christian educations rejected the Church's creedal understanding of God and the Trinity Although they lived in two different ages the Reformation and Enlightenment and there is no evidence that Swedenborg ever read or even knew of Servetus the two men came to remarkably similar conclusions about the nature of God Each scholar stated that the Trinity does not rest in three Persons but rather takes form in the single person of Jesus Christ the visible God Servetus was a superb scholar in his day He mastered the Church Fathers and possessed an encyclopedic knowledge of the Bible Servetus tragically perished in the flames at Geneva because of his beliefs Swedenborg likewise was a well known and respected scholar philosopher and anatomist He dedicated the last thirty years of his life to biblical research producing a series of some thirty volumes in English of theological writings His work influenced many of the great thinkers and artists of the nineteenth century and continues to be read and studied in many parts of the world today

Western Esotericism: A Guide for the Perplexed Wouter J. Hanegraaff, 2013-02-14 Western esotericism has been a pervasive presence in Western culture from late antiquity to the present day but until recently it was largely ignored by scholars and surrounded by misconceptions and prejudice This accessible guide provides readers with the basic knowledge and tools that will allow them to find their way in this bewildering but fascinating field What is it that unites phenomena as diverse as ancient gnosticism and hermetism the occult sciences of astrology alchemy and magic rosicrucianism as well as Christian theosophy occultism spiritualism and the contemporary New Age spiritualities What can the study of them teach us

about our common cultural and intellectual heritage and what is it that makes them relevant to contemporary concerns How do we distinguish reliable historical knowledge from legends and fictions about esoteric traditions These and many other questions are answered clearly and succinctly so that the reader can find his way into the labyrinth of Western esotericism and out of it again *Esotericism in Western Culture* Wouter J. Hanegraaff, 2025-05-29 This accessible introduction by the world's leading expert explains why the study of esotericism is not a marginal pursuit but belongs at the center of modern research in the humanities Reflecting updates in the field since the foundational publication *Western Esotericism A Guide for the Perplexed* 2013 Wouter J Hanegraaff demonstrates that the exclusion of rejected knowledge from normative accounts of Western civilization is the reflection of a narrow Eurocentric ideology that became the template for discrediting and ultimately destroying so called primitive cultures associated with superstition and pagan idolatry during the global colonial age Rejecting this rejection of rejected knowledge means restoring the suppressed to its legitimate place in history and cultural analysis Through this approach Wouter J Hanegraaff depicts a radically inclusive vision of the Greater West and its forgotten histories from pagan antiquity through Jewish Christian and Islamic cultures up to secular modernity and beyond

**Lessons of Romanticism** Thomas Pfau, Robert F. Gleckner, 1998 Explores how the Romantic period gave birth to a seductive cognitive cultural program that retains far reaching implications for contemporary views on individuality and relationships between the individual and larger groups of identification Established *New Age Religion and Western Culture* Wouter J. Hanegraaff, 2018-09-24 Recent years have seen a spectacular rise of the New Age movement and an ever increasing interest in its beliefs and manifestations This fascinating work presents the first ever comprehensive analysis of New Age Religion and its historical backgrounds thus providing the reader with a means of orientation in the bewildering variety of the movement Making extensive use of primary sources the author thematically analyses New Age beliefs from the perspective of the study of religions While looking at the historical backgrounds of the movement he convincingly argues that its foundations were laid by so called western esoteric traditions during the Renaissance Hanegraaff finally shows how the modern New Age movement emerged from the increasing secularization of those esoteric traditions during the 19th century This ground breaking publication is compulsive reading for all those involved or interested in the New Age movement

*The Cartesian Split* Brandon D. Short, 2020-06-03 The Cartesian Split examines the phenomenon of Cartesian influence as a psychological complex in the Jungian tradition It explores the full legacy of Cartesian rationality in its emphasis on abstract thinking and masculinisation of thought often perceived in a negative light despite the developments of modernity The book argues that the Cartesian creation of the Modern Age as accompanied by a radical dualism is better understood as a myth while acknowledging the psychological reality of the myth The Cartesian myth is a collective dream and the urgency of its rhetoric suggests that an important message is being left unheeded This message may lead us to answers in the most unexpected place of all The book brings forth the Cartesian myth in a new context and shows it to have potential meaning for

us today The book will be of great interest for academics researchers and post graduate students in the fields of analytical psychology mental health comparative mythology and Jungian studies     **Joseph Campbell: A Fire in the Mind** Stephen Larsen, Robin Larsen, 2002-04-01 The fascinating biography that illuminates the man whose work changed modern culture Gives a complete biographical view of Campbell s life and a personal perspective of who he was through the voices of his friends and colleagues Written by two of Campbell s preeminent students with exclusive access to his notes and journals Joseph Campbell forged an approach to the study of myth and legend that made ancient traditions and beliefs immediate relevant and universal His teachings and literary works including *The Masks of God* have shown that beneath the apparent themes of world mythology lie patterns that reveal the ways in which we all may encounter the great mysteries of existence birth growth soul development and death Biographers Stephen and Robin Larsen students and friends of Campbell for more than 20 years weave a rich tapestry of stories and insights that catalogue both his personal and public triumphs     **Yeats** Richard J. Finneran, 1997 Includes a special section on teaching Yeats     **Swedenborg and His Influence** Erland J. Brock, 1988     **The New Philosophy** John Whitehead, Lewis Pyle Mercer, John Reed Swanton, Harvey Farrington, 1998     **700**

**Conscientiology Experiments** Waldo Vieira, 2018-08-22 A reference work on conscientiology this treatise with more than 5 000 entries in the bibliography first published in Portuguese in 1994 presents the reader with the bases of the neoscience conscientiology The author proposes 300 tests for self application dealing with topics of great relevance such as assistance the theory of thosene thought sentiment and energy and the theories of inversion and existential recycling among others The work presents conscientiology as the science applied to the study of consciousness ego personality in an integral approach with all its vehicles of manifestation bodies previous existences and attributes The content being deepened and presented in a theoretical and practical way so a reader understands the importance of this knowledge to their life The science of conscientiology utilizes the best of the main lines of human knowledge common sense religion philosophy political ideology and conventional science and is based on multidimensional self experience having consciousness as both the instrument and object of research     **Exhibiting the Visual Culture of American Religions** David Morgan, Sally M.
