Evaluación neurológica del recién nacido Alfredo y Quero García-Alix, José, 2012-05-31 Este libro trata acerca de la evaluación neurológica del neonato entendida esta como una evaluación funcional que permite conocer la competencia neurológica así como establecer la integridad y madurez del sistema nervioso del recién nacido menor de 44 semanas postmenstruales. En el momento actual la disponibilidad de ultrasonografía en los Servicios de Neonatología y la generalización de estudios de resonancia magnética en los pacientes neonatales han facilitado diagnósticos precisos que eran impensables hace años. Sin embargo este progreso tecnológico ha podido generar en ocasiones la apreciación de que la aproximación neurológica puede ser restringida a los estudios de neuroimagen. Ello junto a la diferente apreciación en la actualidad de las sucesivas etapas diagnósticas ha condicionado particularmente en los neonatólogos más jóvenes un menor interés por el estudio y aprendizaje de los conocimientos y habilidades necesarios para realizar una evaluación neurológica y un razonamiento fundado en los signos clínicos. Ilustra esta situación el encontrar en la historia clínica y en el informe final del paciente con patología neurológica la descripción detallada de los estudios complementarios junto a la parquedad de la descripción del estado neurológico. En este contexto no debería cometerse el error de restar relevancia a las manifestaciones clínicas que no se acompañan de hallazgos anormales en la neuroimagen o de alteraciones bien definidas en otras exploraciones complementarias neurológicas.

sus familiares **Derecho constitucional. Tomo II** José Luis Cea Egaña, 2023-12-01 Esta cuarta edición contiene los últimos desarrollos de constitucionalismo en Chile y el mundo en el tema de los derechos humanos y las garantías correspondientes. Consecuentemente en sus páginas el lector hallará elementos de juicio sobre la identidad de género y de los pueblos originarios, una definición en torno a la inteligencia artificial, su futuro y el valor del humanismo, en fin, la visión del proceso constituyente que transcurre hoy en nuestro país y su posible desenlace. El texto incluye el análisis completo y actualizado de la normativa constitucional vigente incluyendo las 67 reformas introducidas a ella. La jurisprudencia ha sido documentada con las más recientes sentencias relativas a los derechos, deberes y recursos fundamentales en nuestro Derecho y en el ámbito comparado. La obra abarca referencias específicas al proyecto que elaboró la Convención Constitucional y que fue rechazado por el 62% de la ciudadanía el 4 de septiembre de 2022. La actualización culmina mediante comentarios relativos al anteproyecto de nueva Ley Suprema redactado por la Comisión Expertas y que se discute actualmente en el Consejo Constitucional. El autor espera que este libro siga siendo el más comentado de los análisis de la normativa constitucional relativa a derechos, deberes y garantías disponible en Chile. La publicación de la cuarta edición se ha hecho con el propósito de que sirva al estudio de docentes y alumnos de una disciplina básica y esencial en la formación de la mentalidad jurídica y democrática de abogados y autoridades públicas y privadas de Chile, realizando que sea un servicio a la ciudadanía en general.
