The Causes of War Alexander Gillespie,2021-01-14 This is the fourth volume of a projected six volume series charting the causes of war from 3000 BCE to the present day written by a leading international lawyer and using as its principal materials the documentary history of international law largely in the form of treaties and the negotiations which led up to them These volumes seek to show why millions of people over thousands of years slew each other In departing from the various theories put forward by historians anthropologists and psychologists the author offers a different taxonomy of the causes of war focusing on the broader settings of politics religion migrations and empire building These four contexts were dominant and often overlapping justifications during the first four thousand years of human civilisation for which written records exist

Louis XIV John B. Wolf,1972-06-18 Professor Wolf focuses on the problems of high politics and war which intrigued Louis and were his instruments of power Without ignoring the fact that Louis was also a son husband lover and father as well as king he gives us a striking new image of Louis as soldier administrator and a vivid accurate picture of the king s impact on the military machine after 1691 his part in the drama of war and in the emergence of a new Europe *The Protestant International and the Huguenot Migration to Virginia* David E. Lambert,2010 In 1700 King William III assigned Charles de Sully to accompany Huguenot refugees to Manakin Town on the Virginia frontier The existing explanation for why this migration was necessary is overly simplistic and seriously conflated Based largely on English language sources with an English Atlantic focus it contends that King William III grateful to the French Protestant refugees who helped him invade England during the Glorious Revolution 1688 and win victory in Ireland 1691 rewarded these refugees by granting them 10

000 acres in Virginia on which to settle Using French language sources and a wider more European focus than existing interpretations this book offers an alternative explanation It delineates a Huguenot refugee resettlement network within a Protestant International highlighting the patronage of both King William himself and his valued Huguenot associate Henri de Ruvigny Lord Galway By 1700 King William was politically battered by the interwoven pressures of an English reaction against his high profile foreign favorites Galway among them and the Irish land grants he had awarded to close colleagues to Galway and others This book asserts that King William and Lord Galway sponsored the Manakin Town migration to provide an alternate location for Huguenot military refugees in the worst case scenario that they might lose their Irish refuge

Makers of the Western Tradition J. Kelley Sowards,1997-01-15 Through six widely adopted editions *Makers of the Western Tradition* has successfully drawn students into the study of history through a biographical approach to important facts and events In two volumes this book examines the impact of 27 key historical figures while it familiarizes students with varieties of historical sources and interpretation **Nationalizing the Past** S. Berger,C. Lorenz,2016-01-19 Historians traditionally claim to be myth breakers but national history since the nineteenth century shows quite a record in myth making This exciting new volume compares how national historians in Europe have handled the opposing pulls of fact and fiction and shows which narrative strategies have contributed to the success of national histories *The Balance of Power* Evan Luard,2016-07-27 This book examines on an analytical basis the system of international relations between 1648 and 1815 It considers the character of the states their principal foreign policy goals and the beliefs that influences their relations The author seeks on this basis to examine the character of the system as a whole in particular how from the proclaimed desire to maintain the balance of power it succeeded in establishing international stability in preventing the domination of particular states **Catalog of Copyright Entries. [John](#),2014-02-15 Sumida presents a provocative and authoritative revisionist history of the origins nature and consequences of the Dreadnought Revolution of 1906 Based on intensive and extensive archival research the book strives to explain vital financial and technical matters which enable readers to observe the complex interplay of fiscal technical strategic and personal factors that shaped the course of British naval decision making during the critical quarter century that preceded the outbreak of the First World War [Imagined Histories](#) Anthony Molho,Gordon S. Wood,2018-06-05 This collection of essays by twenty one distinguished American historians reflects on a peculiarly American way of imagining the past At a time when history writing has changed dramatically the authors discuss the birth and evolution of historiography in this country from its origins in the late nineteenth century through its present more cosmopolitan character In the book s first part concerning recent historiography are chapters on exceptionalism gender economic history social theory race and immigration and multiculturalism Authors are Daniel Rodgers Linda Kerber Naomi Lamoreaux Dorothy Ross Thomas Holt and Philip Gleason

The three American centuries are discussed in the second part with chapters by Gordon Wood George Fredrickson and James Patterson The third part is a chronological survey of non American histories including that of Western civilization ancient history the middle ages early modern and modern Europe Russia and Asia Contributors are Eugen Weber Richard Saller Gabrielle Spiegel Anthony Molho Philip Benedict Richard Kagan Keith Baker Joseph Zizak Volker Berghahn Charles Maier Martin Malia and Carol Gluck Together these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world Formerly writing from a conviction that America had a singular destiny American historians have gradually come to share viewpoints of historians in other countries about which they write The result is the virtual disappearance of what was a distinctive American voice That voice is the subject of this book **The**

Age of Absolutism (Routledge Revivals) Max Beloff,2013-12-19 The end of eighteenth century is often regarded as the watershed between the feudal Europe of the Middle Ages and the modern Europe of the nineteenth century and beyond The chronology covered in this title first published in 1954 is vast but covers an intellectually stimulating and exciting period of European history The pinnacle of absolute monarchy is cemented in Louis XIV s France eventually giving way to reform and revolution the Russian Empire becomes an important player on the Western stage under Peter I and Catherine the Great America achieves independence and the ideas of the Enlightenment begin to change the intellectual and religious landscape Max Beloff analyses the period in fascinating detail in a now reissued title that will be of particular interest to students of Early Modern History Politics and European diplomacy **Separation of Church and State** Gil Graff,2003-04-23 Observes

that the significance of dina de malkhuta dina and its interpretation is vital for an understanding of modern Jewish life as well as the relationship of Diaspora Jews to the Jewish community in the state of Israel For the Jewish community the end of the Middle Ages and the emergence of the modern nation state brought the promise of equal citizenship as well as the possible loss of Jewish corporate identity The legal maxim dina de malkhuta dina the law of the State is law invoked in Talmidic times to justify the acceptance of the king s law and qualified in the Middle Ages by Maimonides and Rashbam to include the requirement of consent by the governed underwent further redefinition by Jews in the Napoleonic age Graff focuses on the struggle between 18th and 19th century Jewish religious reformers and traditionalists in defining the limits of dina de malkhuta dina He traces the motivations of the reformers who in their zeal to gain equality for the formerly disenfranchised Jewish communities in Western Europe were prepared to render unto the State compromising authority over Jewish religious life under the rubric of dina de malkhuta dina was intended to strike a balance between synagogue and state and not to be used as a pretext for the liquidation of the community s corporate existence **The Balance Of Power** Michael

Compound Warfare: That Fatal Knot ,2002 In the long history of warfare a recurring theme is the combined use of regular and irregular forces to pursue victory The practice of employing regular and irregular forces together was not only applied but also instrumental in bringing victory to the side that at the beginning of the conflict seemed clearly inferior to its opponent The term compound warfare is used to describe this phenomenon of regular and irregular forces fighting in concert This book is a compilation of examples of this pattern of warfare in many other times and places Knowing how the dynamics of compound warfare have affected the outcome of past conflicts will better prepare us to meet both present crises and future challenges of a similar nature
