Disability Histories Susan Burch, Michael Rembis, 2014-12-30 The field of disability history continues to evolve rapidly In this collection Susan Burch and Michael Rembis present essays that integrate critical analysis of gender race historical context and other factors to enrich and challenge the traditional modes of interpretation still dominating the field Contributors delve into four critical areas of study within disability history family community and daily life cultural histories the relationship between disabled people and the medical field and issues of citizenship belonging and normalcy As the first collection of its kind in over a decade *Disability Histories* not only brings readers up to date on scholarship within the field but fosters the process of moving it beyond the U S and Western Europe by offering work on Africa South America and Asia The result is a broad range of readings that open new vistas for investigation and study while encouraging scholars at all levels to redraw the boundaries that delineate who and what is considered of historical value Informed and accessible *Disability Histories* is essential for classrooms engaged in all facets of disability studies within and across disciplines

Representing Autism Stuart Fletcher Murray, 2008-06-01 From concerns of an

autism epidemic to the MMR vaccine crisis autism is a source of peculiar fascination in the contemporary media Discussion of the condition has been largely framed within medicine psychiatry and education but there has been no exploration of its power within representative narrative forms Representing Autism is the first book to tackle this approach using contemporary fiction and memoir writing film photography drama and documentary together with older texts to set the contemporary fascination with autism in context Representing Autism analyses and evaluates the place of autism within contemporary culture and at the same time examines the ideas of individual and community produced by people with autism themselves to establish the ideas of autistic presence that emerge from within a space of cognitive exceptionality Central to the book is a sense of the legitimacy of autistic presence as a way by which we might more fully articulate what it means to be human

Twin Allen Shawn,2010-12-30 A heartbreaking yet deeply hopeful memoir about life as a twin in the face of autism When Allen Shawn and his twin sister Mary were two Mary began exhibiting signs of what would be diagnosed many years later as autism Understanding Mary and making her life a happy one appeared to be impossible for the Shawns At the age of eight with almost no warning her parents sent Mary to a residential treatment center She never lived at home again Fifty years later as he probed the sources of his anxieties in *Wish I Could Be There* Shawn realized that his fate was inextricably linked to his sister's and that their natures were far from being different Twin highlights the difficulties American families coping with autism faced in the 1950s Shawn also examines the secrets and family dramas as his father William became editor of *The New Yorker* Twin reconstructs a parallel narrative for the two siblings who experienced such divergent fates yet shared talents and proclivities Wrenching honest understated and poetic Twin is at heart about the mystery of being inextricably bonded to someone who can never be truly understood

Learning and Cognition in Autism Eric Schopler,Gary B. Mesibov,2013-06-29 This volume like the other eight in the Current Issues in Autism series grew from our annual TEACCH conference The book is not however simply a compilation of conference proceedings Instead selected conference participants whose work has already achieved national and international recognition were asked to develop chapters around their presentations Other recognized experts in areas relevant to the conference theme were also asked to contribute chapters Although we were not able to include all of the workers who have contributed to the theme this volume represents our best effort to pull together for our readers the most current knowledge and state of the art practices Although aspects of cognition learning and behavioral motivation have been touched on for relevance to autism in other books in this series the growing integration of behavioral and cognitive theories has greatly enriched our educational interventions on behalf of autism While this volume does not include all the fascinating facets of this recent integration we believe that it offers useful information to teachers parents and researchers on some of the progress produced by their interaction

Literature and Disability Alice Hall,2015-08-11 Literature and Disability

introduces readers to the field of disability studies and the ways in which a focus on issues of impairment and the representation of disability can provide new approaches to reading and writing about literary texts Disability plays a central role in much of the most celebrated literature yet it is only in recent years that literary criticism has begun to consider the aesthetic ethical and literary challenges that this poses The author explores key debates and issues in disability studies today different forms of impairment with the aim of showing the diversity and ambiguity of the term disability the intersection between literary critical approaches to disability and feminist post colonial and autobiographical writing genre and representations of disability in relation to literary forms including novels short stories poems plays and life writing This volume provides students and academics with an accessible overview of literary critical approaches to disability representation

Adults with Autism Stephen H. Morgan, Hugh Morgan, 1996-09-28 From childhood services to adult provision the needs of an individual develop and change yet the literature addressing specific adult requirements is scarce This volume sets out to fill this gap and provides practical help and guidance specifically for those caring for the growing recognised population of adults with autism Issues of theory and practice from both local and international perspectives are included Subsequent chapters analyse the implications arising from thought and behaviour inflexibility with emphasis on the management of transition and bereavement Models for practice in employment and further education and also pharmacological and educational approaches to mental health problems epilepsy and challenging behaviour are concluded by a chapter which develops many themes of this publication as the basis for a practitioner training programme in residential settings An essential guide for all those concerned with the care and well being of adults with autism including parents researchers practitioners and community care workers

Narrative Matters in Medical Contexts across Disciplines Franziska Gygax, Miriam A. Locher, 2015-03-13 This collection of original chapters gives center stage to the concept of narrative in medical contexts The contributors come from the disciplines of literary and cultural studies linguistics psychology and medicine and work with texts as diverse as autobiographies graphic novels Renaissance medical treatises and reports short stories reflective writing creative writing and online narratives The interdisciplinary dialogue shows the richness and scope of the concept narrative and demonstrates how crucial it is for practices in the medical context as well as in the contributing disciplines The collection raises awareness of the great variety and multivocality of narratives on the experience of illness besides paying heed to the many different positions and angles from which these narratives can be perceived read and analyzed The wide range of approaches assembled in this collection provides a comprehensive view on illness and health and on the multiple ways in which they are represented in narrative
