In a very personal and engaging style the author presents a map of motivations based on a humanistic approach to management This includes the latest findings of Abraham H Maslow supported by sound philosophical reflections and modern research He also presents specific ways of putting the framework into practice sharing stories from students and professionals of how this framework has helped them better understand their own motivations and look at their daily work in a much more meaningful way The book is highly relevant to students and researchers in humanistic management people management organisational behaviour business ethics corporate social responsibility and sustainability In short this text will be truly inspiring to anyone who wants to reflect on motivations in organisations and how to achieve a better work life balance Lumber Manufacturer and Dealer .1909 Miscellaneous Papers and Sketches William Makepeace Thackeray, 1889 Boxmakers' Journal and Packaging Review ,1927 The Poets and Poetry of Europe.
