The Big Apple, a telling nickname, is the city of 50,000 eateries of fish wriggling in Chinatown baskets, huge pastrami sandwiches on rye, fizzy egg creams and frosted black and whites. It is home to possibly the densest concentration of ethnic and regional food establishments in the world, from German and Jewish delis to Greek diners, Brazilian steakhouses, Puerto Rican and Dominican bodegas, halal food carts, Irish pubs, Little Italy and two Koreatowns, Flushing and Manhattan. This is the city where if you choose to have Thai for dinner you might also choose exactly which region of Thailand you wish to dine in. Savoring Gotham weaves the full tapestry of the city's rich gastronomy in nearly 570 accessible, informative A to Z entries. Written by nearly 180 of the most notable food experts, most of them New Yorkers, Savoring Gotham addresses the food, people, places and institutions that have made New York cuisine so wildly diverse and immensely appealing. Reach only a little ways back into the city's ever-changing culinary kaleidoscope and discover automats, the precursor to fast food restaurants where diners in a hurry dropped nickels into slots to unlock their premade meal of choice. Or travel to the nineteenth century when oysters cost a few cents and were pulled by the bucketful from the Hudson River. Back then the city was one of the major centers of sugar refining and of brewing too. 48 breweries once existed in Brooklyn alone, accounting for roughly 10% of all the beer brewed in the United States. Travel further back still and learn of the Native Americans who arrived in the area 5,000 years before New York was New York and who planted the maize, squash and beans that European and other settlers to the New World embraced centuries later. Savoring Gotham covers New York's culinary history but also some of the most recognizable restaurants, eateries and culinary personalities today. And it delves into more esoteric culinary realities such as urban farming, beekeeping.

Eating History Andrew F. Smith, 2009-09-18 Food expert and celebrated food historian Andrew F Smith recounts in delicious detail the creation of contemporary American cuisine The diet of the modern American wasn't always as corporate conglomerated and corn rich as it is today and the style of American cooking along with the ingredients that compose it has never been fixed With a cast of characters including bold inventors savvy restaurateurs ruthless advertisers mad scientists adventurous entrepreneurs celebrity chefs and relentless health nuts Smith pins down the truly crackerjack history behind the way America eats Smith's story opens with early America an agriculturally independent nation where most citizens grew and consumed their own food Over the next two hundred years however Americans would cultivate an entirely different approach to crops and consumption Advances in food processing transportation regulation nutrition and science introduced highly complex and mechanized methods of production The proliferation of cookbooks cooking shows and professionally designed kitchens made meals more commercially politically and culturally potent To better understand these trends Smith delves deeply and humorously into their creation Ultimately he shows how by revisiting this history we can reclaim the independent locally sustainable roots of American food **Catalog of Copyright Entries.
