

Public vs. Private Streets

- Residential streets can be public or private
- **Public**
 - Developers dedicate them to the local government upon completion or, sometimes, after one year has passed.
 - The local government then has the responsibility for maintaining the streets.
- **Private**
 - HOA or community association owns and maintains some or all of the streets as private streets.

Lord Chancellor Eldon Horace Twiss, 1846 *Governance and Public Space in the Australian City* Anna Temby, 2023-09-19 *Governance and Public Space in the Australian City* is a rich and evocative examination of the production and use of public spaces in Australian cities in the late nineteenth and early twentieth centuries Using Brisbane as a case study it demonstrates the way public spaces were constructed contested and controlled in attempts to create ideal city spaces This construction of space is considered not just in the literal and material sense but also as a product of aspirational and imaginative processes of city building by municipal authorities and citizens This book is as much about people as it is about cities uncovering the manner in which perceived models of ideal urban citizenship were reflected in the production and ordering of city spaces This book challenges common narratives that situate public spaces as universal or equalising aspects of the urban sphere Exploring three distinct types of public space the streets slums and parks the book questions how urban spaces functioned alongside how they were intended to function In so doing *Governance and Public Space in the Australian City* situates public spaces as products of manipulation and regulation at odds with broader concepts of individual liberty and the rights of people to public space It will be illuminating reading for scholars and students of urban history and Australian history
