Jennings, 2018-12-20 Sue Jennings and her three children spent two years on a fieldwork expedition to the Senoi Temiar people of Malaysia Theatre Ritual and Transformation is a fascinating account of that experience She describes how the Temiar regularly perform seances which are enacted through dreams dance music and drama and explains that they see the seance as playing a valuable preventative role in people's lives as well as being a medium of healing and cure Her account brings together the insights of drama therapy and theatre with those of social anthropology to provide an invaluable theoretical framework for understanding theatre and ritual and their links with healing *The Roots of Theatre* Eli Rozik, 2005-04 The topic of the origins of theatre is one of the most controversial in theatre studies with a long history of heated discussions and strongly held positions In *The Roots of Theatre* Eli Rozik enters the debate in a feisty way offering not just another challenge to those who place theatre's origins in ritual and religion but also an alternative theory of roots based on the cultural and psychological conditions that made the advent of theatre possible Rozik grounds his study in a comprehensive review and criticism of each of the leading historical and anthropological theories He believes that the quest for origins is essentially misleading because it does not provide any significant insight for our understanding of theatre Instead he argues that theatre like music or dance is a sui generis kind of human creativity a form of thinking and communication whose roots lie in the spontaneous image making faculty of the human psyche Rozik's broad approach to research lies within the boundaries of structuralism and semiotics but he also utilizes additional disciplines such as psychoanalysis neurology sociology play and game theory science of religion mythology poetics philosophy of language and linguistics In seeking the roots of theatre what he ultimately defines is something substantial about the nature of creative thought a rudimentary system of imagistic thinking and communication that lies in the set of biological primitive and infantile
