**From Synagogue to Church** James Tunstead Burtchaell, 2004-03-11 This important work challenges an entrenched scholarly consensus that at the beginning it was inspired leaders not ordained officers who dominated the church James Burtchaell illustrates that the traditional argument on behalf of clerical authority had read history backwards and found the apostles to be the first bishops In this study Burtchaell reads history forwards and demonstrates that first century Jews knew only one form of community organization that of the synagogue The three level structure of offices in the synagogue president elders and assistant emerges in the author's estimation as the most plausible antecedent for the Christian offices which stand forth clearly in the second century Burtchaell's conclusion is that ordained office is a foundational element in Christianity but that while the officers presided from the first they rarely led Thus while Jesus brother James presided as the ordained chief of the mother church in Jerusalem it was Peter Jesus inspired veteran disciple whose voice carried most authority This revisionist historical account of Christian origins creatively subverts the established positions on church order and thus opens up the arguments to new and larger conclusions *Early Christ Groups and Greco-Roman Associations*

Richard S. Ascough, 2022-06-20 Over the past two and a half decades there has been an increasing interest in how the data from the associations known primarily from inscriptions and papyri can help scholars better understand the development of Christ groups in the first and second centuries Richard Ascough's work has been at the forefront of promoting the associations and applying insights from inscriptions and papyri to understanding early Christian texts This book collects together his most important contributions to the scholarly trajectory as it developed over a two decade period A fresh introduction orients the sixteen previously published articles and essays which are arranged into three sections the first dealing with associations as a model for Christ groups the second focused on how associations and Christ groups interacted over recruitment and the third on two key elements of group life meals and memorializing the dead **Serve the**

**Community of the Church** Andrew D. Clarke, 2000 *Serve the Community of the Church* the second volume in the *First Century Christians in the Graeco Roman World* series explores the nature of organization and leadership roles in the first century Christian community especially as they were variously taught by Paul and practiced in the earliest congregations Drawing from ancient source material as well as from the New Testament Andrew Clarke describes the theories and practices of organization and leadership in key areas of first century Graeco Roman society the city the colony voluntary associations Jewish synagogues the family and discusses the extent to which these models influenced the first Christians in defining their own communities Clarke then turns to the Christian community itself discussing how Paul through correspondence with a number of congregations laid out important parameters for leadership that he considered appropriate to the new Christian context Some of these parameters Clarke shows were defined in express contrast to the patterns of leadership widely practiced in Graeco Roman society and occasionally also in the early Christian communities Providing a

fascinating look at the social and historical background of the New Testament this volume is also important for its discussion of a subject that has implications for the organization of church life in our own time

**The New Testament Church** John P. Harrison, James D. Dvorak, 2012-05-01 Christian communities today face enormous challenges in the new contexts and teachings that try to redefine what churches should be Christians look to the New Testament for a pattern for the church but the New Testament does not present a totally uniform picture of the structure leadership and sacraments practiced by first century congregations There was a unity of the Christian communities centered on the teaching that Jesus is the Christ whom God has raised from the dead and has enthroned as Lord yet not every assembly did exactly the same thing and saw themselves in exactly the same way Rather in the New Testament we find a collage of rich theological insights into what it means to be the church When leaders of today see this diversity they can look for New Testament ecclesiologies that are most relevant to the social and cultural context in which their community lives This volume of essays written with the latest scholarship highlights the uniqueness of individual ecclesiologies of the various New Testament documents and their core unifying themes

**Corporate Decision-Making in the Church of the New Testament** Jeff Brown, 2014-08-28 Debate about church order has gone on for centuries within Christianity and an end is nowhere in sight Perhaps that is good since the debate shows the weaknesses of many ideas that need correction Corporate Decision Making in the Church of the New Testament examines church order from a careful exegetical perspective with particular attention to the social world of the New Testament While most works about church government address structure and qualities of leadership Jeff Brown deals with the interaction of the people of the church both with their leaders and with one another in setting policy In brief though all believers in the young church of the New Testament revered Christ and his Word as authoritative not all church decisions were from the top down from earthly leaders On the contrary many were from the bottom up This should come as no surprise to those familiar with Jesus admonition in the Gospels You have one teacher and you are all brothers

**Restricted Generosity in the New Testament** Timothy J. Murray, 2019-02-22 La 4e de couverture indique In this monograph Timothy J Murray studies early Christian practices of financial generosity by examining when why and how they restricted their generosity He analyzes the New Testament in its social context arguing that common cultural ideals of mutual support in a family were adopted by the fictive family of the early church

**Female Stereotypes in Religious Traditions** Ria Kloppenborg, Wouter J. Hanegraaff, 2018-09-24 This volume contains a collection of studies describing and analyzing stereotypes of women in the religions of Ancient Israel and Mesopotamia and in Zoroastrianism Judaism Medieval Christianity Islam Indian Sufism Hinduism Buddhism Tibetan religions and modern Neopaganism In all these traditions the stereotypes are based on generalizations which are socially culturally or religiously legitimized and which seem to have a lasting influence on society's conceptions of women They represent oversimplified opinions which are however regularly challenged by the women who are affected by them In all traditions the stereotypes are ambiguous either because women

have challenged their validity or because historical developments in society have reshaped them They influence public opinion by emphasizing dominant views as a strategy to restrain women and to keep them controlled by the rules and morals of a male dominated society      The Church according to Paul James W. Thompson, 2014-09-09 Amid conflicting ideas about what the church should be and do in a post Christian climate the missing voice is that of Paul The New Testament's most prolific church planter Paul faced diverse challenges as he worked to form congregations Leading biblical scholar James Thompson examines Paul's ministry of planting and nurturing churches in the pre Christian world to offer guidance for the contemporary church The church today as then must define itself and its mission among people who have been shaped by other experiences of community Thompson shows that Paul offers an unprecedented vision of the community that is being conformed to the image of Christ He also addresses contemporary misunderstandings of words like missional megachurch and formation      **Women in Pastoral Office** Mary M. Schaefer, 2013-11 Mary M Schaefer examines the ninth century church Santa Prassede and its foundation myth as well as an ideal of balanced male female relationships and women holding pastoral office in the church of Rome      **Women and Ordination in the Christian Churches** Ian Jones, Kirsty Thorpe, Janet Wootton, 2011-11-03 The growth of women's ordained ministry is one of the most remarkable and significant developments in the recent history of Christianity This collection of essays brings together leading contributors from both academic and church contexts to explore Christian experiences of ordaining women in theological sociological historical and anthropological perspective Key questions include How have national denominational and ecclesial cultures shaped the different ways in which women's ordination is debated and or enacted What differences have women's ordained ministry and debates on women's ordination made in various church contexts What unfinished business remains in both congregational and wider ministry How have Christians variously conceived ordained ministry which includes both women and men How do ordained women and men work together in practice What have been the particular implications for female clergy And for male clergy What distinctive issues are raised by women's entry into senior ordained leadership positions How do episcopal and non episcopal traditions differ in this      **Paul, Founder of Churches** James Constantine Hanges, 2012 Expanded from the author's dissertation University of Chicago 1999      **The Pauline Church and the Corinthian Ekklesia** Richard Last, 2016 This innovative volume is the first English language monograph to compare Paul's Corinthian church with contemporary cult groups from Mediterranean antiquity      Beginning from Jerusalem James D.G. Dunn, 2009-03-16 Beginning from Jerusalem covers the early formation of the Christian faith from 30 to 70 C E After outlining the quest for the historical church parallel to the quest for the historical Jesus and reviewing the sources James Dunn follows the course of the movement stemming from Jesus beginning from Jerusalem He opens with a close analysis of what can be said of the earliest Jerusalem community the Hellenists the mission of Peter and the emergence of Paul Then Dunn focuses solely on Paul the chronology of his life and mission his understanding of his call as apostle and the character of the churches that he founded

The third part traces the final days and literary legacies of the three principal figures of first generation Christianity Paul Peter and James the brother of Jesus Each section includes detailed interaction with the vast wealth of secondary literature on the many subjects covered

**The Early Christian World** Philip F. Esler,2002-09-11 Early Christian World presents an exhaustive erudite and lavishly illustrated treatment of how the small movement which formed around Jesus in Galilee became the pre eminent religion of the ancient world The work begins by firmly situating early Christianity within its Mediterranean social political and religious contexts before charting the history of the first Christian centuries The creation and perpetuation of Christian communities through various means including mission and monasticism is explored as is the everyday experience of early Christians through discussion of gender and sexuality religious practice communication and social structures The intellectual particularly theological and artistic heritage of the period is fully considered and a vivid picture painted of the internal and external challenges faced by early Christianity The book concludes with profiles of the most notable figures of the age Comprehensive and accessible Early Christian World provides up to date coverage of the most important topics in the study of early Christianity together with an invaluable collection of visual material It will be an indispensable resource for anyone studying this period

**The Role of the Bishop in Late Antiquity** Andrew Fear,José Fernández Urbíña,Mar Marcos Sanchez,2013-02-14 Late Antiquity witnessed a major transformation in the authority and power of the Episcopate within the Church with the result that bishops came to embody the essence of Christianity and increasingly overshadow the leading Christian laity The rise of Episcopal power came in a period in which drastic political changes produced long and significant conflicts both within and outside the Church This book examines these problems in depth looking at bishops varied roles in both causing and resolving these disputes including those internal to the church those which began within the church but had major effects on wider society and those of a secular nature Martyred for the Church Justin Buol,2018-09-21 In this study Justin Buol analyzes the writings connected with the deaths of Ignatius of Antioch Polycarp of Smyrna and Pothinus of Lyons in light of earlier accounts of the noble deaths of military political and religious leaders from Greco Roman literature and the Bible which record benefits accruing to a group on account of its leader s death The author argues that the accounts of these three bishops martyrdoms draw upon those prior models in order to portray the bishops as dying to unite protect and strengthen the Church oppose false teaching and apostasy and solidify the teaching role of the episcopal office Finally by providing a foundation for Irenaeus to argue for apostolic succession these second century bishop martyrs also help form a lasting contribution to the growth of episcopal power

**Augustus to Constantine** Robert McQueen Grant,2004-01-01 This masterful study of the early centuries of Christianity vividly brings to life the religious political and cultural developments through which the faith that began as a sect within Judaism became finally the religion of the Roman empire First published in 1970 Grant s classic is enhanced with a new foreward by Margaret M Mitchell which assesses its importance and puts the reader in touch with the advances of current research

**Backgrounds of Early Christianity** Everett Ferguson, 2003-08-19 Having long served as a standard introduction to the world of the early church Everett Ferguson's *Backgrounds of Early Christianity* has been expanded and updated in this third edition. The book explores and unpacks the Roman Greek and Jewish political, social, religious, and philosophical backgrounds necessary for a good historical understanding of the New Testament and the early church. New to this edition are revisions of Ferguson's original material, updated bibliographies, and fresh discussions of first-century social life, of Gnosticism, and of the Dead Sea Scrolls and other Jewish literature.

**The Early Christian World** Philip Esler, 2017-07-20 Since its publication in 2000, *The Early Christian World* has come to be regarded by scholars, students, and the general reader as one of the most informative and accessible works in English on the origins, development, character, and major figures of early Christianity. In this new edition, the strengths of the first edition are retained. These include the book's attractive architecture that initially takes a reader through the context and historical development of early Christianity; the essays in critical areas such as community formation, everyday experience, the intellectual and artistic heritage, and external and internal challenges; and the profiles on the most influential early Christian figures. The book also preserves its strong stress on the social reality of early Christianity and continues its distinctive use of hundreds of illustrations and maps to bring that world to life. Yet the years that have passed since the first edition was published have seen great advances made in our understanding of early Christianity in its world. This new edition fully reflects these developments and provides the reader with authoritative, lively, and up-to-date access to the early Christian world. A quarter of the text is entirely new, and the remaining essays have all been carefully revised and updated by their authors. Some of the new material relates to Christian culture, including book culture, canonical and non-canonical scriptures, saints, and hagiography, and translation across cultures. But there are also new essays on Jewish and Christian interaction in the early centuries, ritual, the New Testament in Roman Britain, Manichaeism, Pachomius the Great, and Gregory of Nyssa. This new edition will serve its readers for many years to come.

[Diakonia Studies](#) John N. Collins, 2014-06-16 *Diakonia Studies* closes the account on John N. Collins's 40 years of involvement in groundbreaking linguistic research and argumentation concerning the nature and functioning of Christian ministry. Dispute has swirled around the Greek term *diakonia* for 50 years. Once seen as enshrining the New Testament value of loving Christian service, what Jerome Murphy O'Connor called one of the dogmas of New Testament scholarship, the word was exposed by Dieter Georgi in 1964 as arguably meaning something quite different. In 1974, John N. Collins published his first paper on the issue, pointing to inadequacies in Georgi's brief account. Then in 1990, Collins published his exhaustive semantic survey, *Diakonia: Reinterpreting the Ancient Sources*. His re-interpretation was variously hailed as devastating, provocative, unfashionable, and a scholarly avalanche whose conclusions are inescapable. Since then, the book has stood at the center of the Collins Debate. Meanwhile, Collins's findings have been incorporated in the authoritative *Danker Greek-English Lexicon of the New Testament*. *Diakonia Studies* examines, in a non-technical way, i.e. without appeal to particulars of Greek, the reasons

why theologians need not only to review cherished readings of leading New Testament passages but also to reassess what some passages might really be saying about the nature and delivery of ministry These third millennium issues are the matter of the final papers in the volume reminding churches of the ministry they have received and of their filed away commitments to an ecumenically charged ministry Among the topics considered are ordained and lay ministries the tension between office and charism and prospects for deacons when a diakonia of loving service no longer defines their call
