the diffusion of new technology and new practice and even the poorest and seemingly most primitive group can now make war against those on high They are successful because of a symbiotic fit between old states and new identities Increasingly old societies no longer find identity celebration in war while non state identities embrace the struggle for realization Hence non state wars with America become a mythic narrative for them Our engagement actually helps them realize identity and we become the midwife This book offers another path to deal with non state challenges one that does not further weaken us
