Full History Steven G. Smith, 2016-12-15 How can we take history seriously as real and relevant Despite the hazards of politically dangerous or misleading accounts of the past we live our lives in a great network of cooperation with other actors past present and future We study and reflect on the past as a way of exercising a responsibility for shared action In each of the chapters of Full History Smith poses a key question about history as a concern for conscious participants in the sharing of action starting with What Is Historical Meaningfulness and ending with How Can History Have an Aim Constructing new models of historical meaning while engaging critically with perspectives offered by Ranke Dilthey Rickert Heidegger Eliade Sartre Foucault and Arendt Smith develops a philosophical account of thinking about history that moves beyond postmodernist skepticism Full History seeks to expand the cast of significant actors establishing an inclusive version of the historical that recognizes large scale cumulative actions but also encourages critical revision and expansion of any paradigm of shared action
