Harvey Fergusson was born in Albuquerque He spent his life reopening it in a series of novels stretching from the classic *Wolf Song* to the belatedly acclaimed *Grant of Kingdom* and *The Conquest of Don Pedro* In this first full biography and critical study Robert F Gish sees Fergusson as a modern frontiersman in love with the outdoors women and writing The scion of New Mexico family prominent in business and politics Fergusson moved restlessly from one new frontier to another always seeking to recreate in his life and work the adventure and freedom enjoyed by his ancestors After a strenuous open air life by the Rio Grande he went east to raise a ruckus as a journalist and then to Hollywood as a screenwriter all the while testing his sexual mettle Finally freelance writing was the only frontier available to one of his imaginative energy Fergusson s early novel *Wolf Song* is still considered one of the best ever written about the mountain man Gish shows the writer embracing the gloriously masculine and atavistic role of a lone rider even as he scorned the worship of the primitive Fergusson struck up a

friendship with H L Mencken and Theodore Dreiser who influenced his literary style and played a part in the development of Taos and Santa Fe as meccas for artists and writers Based on extensive research including Fergusson's diaries and correspondence Frontier's End goes a long way toward reconciling the regional with the mainstream in American literature in the person of a serious novelist whose importance is finally being recognized Civil Aeronautics Board Reports United States. confront and indict For the Midwest he focuses on C J Hribal William Least Heat Moon Paul Gruchow and others to demonstrate that midwesterners continually construct the past anew from the materials at hand filling the seemingly empty midlands with history and significance Ryden reveals that there are many Wests many New Englands many Souths and many Midwesterns all raising similar issues about the cultural politics of region and place Writing with appealing freshness and a sense of adventure he shows us that place and the stories that emerge from and define place can be a source of subversive energy that blunts the homogenizing force of region inscribing marginal places and people back onto the imaginative surface of the landscape when we read it on a place by place landscape by landscape book by book basis **The Best in Children's**
