From Private To Public A Feminist Exploration Of Early Mothering

Bonnie Fox

From Private To Public A Feminist Exploration Of Early Mothering:

From Private to Public Amy Rossiter, 1988 Feminists have forced us to critically re assess several pertinent issues relating to women In *From Private to Public A Feminist Exploration of Early Mothering* Amy Rossiter considers the contradictions of early mothering Including her own experience as a first time mother as well as those of three other women Rossiter keenly analyzes social factors that make early mothering both a joyous and an oppressive experience Incisive and invaluable *From Private to Public* is both for women who are mothers and for anyone who wants to understand the experience of early mothering Mothering in Marginalized Contents: Narratives of Women Who Mother In the Domestic Violence Caroline Mcdonald-Harker, 2016-02-01 This book provides a rare and in depth examination of the narratives experiences and lived realities of abused mothers a group of women who despite being the victims are often criticized vilified and stigmatized for failing to meet dominant ideologies of what a good mother is should be because they have lived and mothered in domestic abuse relationships Based on a qualitative research study conducted with 29 abused mothers residing in abused women s shelters in Calgary Alberta this book highlights the ways that these mothers experience the dominant ideology of intensive mothering negotiate the resulting discourses of the good and the bad mother and ultimately find ways to exercise agency resistance and empowerment in and through their mothering This book discusses how abused mothers engage in empowered mothering by constructing valued fortified and liberating identities for themselves as mothers in the face of an ideology of intensive mothering that delegitimizes and subjugates them These mothers are not passive victims but rather are active agents who resist and question the idealized standards of intensive mothering as being restrictive and unachievable who view their mothering in a positive light even though they have lived and mothered in social milieus deemed outside the boundaries of acceptable mothering and who uphold that they are indeed worthy mothers despite their stigmatized status Particular attention is given to the ways that intersections of gender race and social class shape and influence abused mothers constructions of their mothering identities This book calls into question the false notion that there is only one standard one definition and one social location in which effective mothering is performed It is a voice against the judgment of mothers a call to end the oppressive and restrictive bifurcation of mothers into categories of either good or bad mothers and an attempt to re envision a more inclusive understanding of mothering This book is a movement towards the empowerment of all mothers regardless of differences in their lives and social circumstances Feminism, Psychoanalysis, and Maternal Subjectivity Alison Stone, 2013-03-01 In this book Alison Stone develops a feminist approach to maternal subjectivity Stone argues that in the West the self has often been understood in opposition to the maternal body so that one must separate oneself from the mother and maternal care givers on whom one depended in childhood to become a self or in modernity an autonomous subject These assumptions make it difficult to be a mother and a subject an autonomous creator of meaning Insofar as mothers nonetheless strive to regain their subjectivity when their motherhood seems to have compromised it theirs

cannot be the usual kind of subjectivity premised on separation from the maternal body Mothers are subjects of a new kind who generate meanings and acquire agency from their position of re immersion in the realm of maternal body relations of bodily intimacy and dependency Thus Stone interprets maternal subjectivity as a specific form of subjectivity that is continuous with the maternal body Stone analyzes this form of subjectivity in terms of how the mother typically reproduces with her child her history of bodily relations with her own mother leading to a distinctive maternal and cyclical form of lived time

Motherhood and Feminism Amber E Kinser, 2010-05-04 How does feminism relate to motherhood how has it changed over time and what does the future of motherhood and feminism look like These are just some of the questions Amber E Kinser PhD tackles in this latest addition to the Seal Studies Series Motherhood and Feminism examines the role of feminism within motherhood a topic that has garnered a lot of attention lately as society shifts to adapt to new definitions of these roles and offers insight into the core questions of motherhood what it means to be a good mother what role mothers play in the family and in society and how motherhood has been redefined throughout time Kinser also speculates on the future directions of feminism focusing on the expansion of contemporary mother activism that has occurred in the last 15 years and emphasizing the need for that expansion to continue and examines how the changing world of motherhood fits into feminist activism

Toni Morrison and Motherhood Andrea O'Reilly, 2012-02-01 Traces Morrison s theory of African American mothering as it is articulated in her novels essays speeches and interviews Mothering is a central issue for feminist theory and motherhood is also a persistent presence in the work of Toni Morrison Examining Morrison s novels essays speeches and interviews Andrea O Reilly illustrates how Morrison builds upon black women s experiences of and perspectives on motherhood to develop a view of black motherhood that is in terms of both maternal identity and role radically different from motherhood as practiced and prescribed in the dominant culture Motherhood in Morrison s view is fundamentally and profoundly an act of resistance essential and integral to black women s fight against racism and sexism and their ability to achieve well being for themselves and their culture The power of motherhood and the empowerment of mothering are what make possible the better world we seek for ourselves and for our children This argues O Reilly is Morrison s maternal theory a politics of the heart As an advocate of a politics of the heart O Reilly has an acute insight into discerning any threat to the preservation and continuation of traditional African American womanhood and values Above all Toni Morrison and Motherhood based on Andrea O Reilly s methodical research on Morrison s works as well as feminist critical resources proffers a useful basis for understanding Toni Morrison s works It certainly contributes to exploring in detail Morrison s rich and complex works notable from the perspectives of nurturing and sustaining African American maternal tradition African American Review O Reilly boldly reconfigures hegemonic western notions of motherhood while maintaining dialogues across cultural differences Journal of the Association for Research on Mothering Andrea O Reilly examines Morrison s complex presentations of and theories about motherhood with admirable rigor and a refusal to simplify

and the result is one of the most penetrating and insightful studies of Morrison yet to appear a book that will prove invaluable to any scholar teacher or reader of Morrison South Atlantic Review it serves as a sort of annotated bibliography of nearly all the major theoretical work on motherhood and on Morrison as an author anyone conducting serious study of either Toni Morrison or motherhood not to mention the combination should read this book O Reilly's exhaustive research her facility with theories of Anglo American and Black feminism and her penetrating analyses of Morrison's works result in a highly useful scholarly read Literary Mama By tracing both the metaphor and literal practice of mothering in Morrison's literary world O Reilly conveys Morrison's vision of motherhood as an act of resistance American Literature Motherhood is critically important as a recurring theme in Toni Morrison's oeuvre and within black feminist and feminist scholarship An in depth analysis of this central concern is necessary in order to explore the complex disjunction between Morrison's interviews which praise black mothering and the fiction which presents mothers in various destructive and self destructive modes Kudos to Andrea O Reilly for illuminating Morrison's maternal standpoint and helping readers and critics understand this difficult terrain Toni Morrison and Motherhood is also valuable as a resource that addresses and synthesizes a huge body of secondary literature Nancy Gerber author of Portrait of the Mother Artist Class and Creativity in Contemporary American Fiction In addition to presenting a penetrating and original reading of Toni Morrison O Reilly integrates the evolving scholarship on motherhood in dominant and minority cultures in a review that is both a composite of commonalities and a clear representation of differences Elizabeth Bourque Johnson University of Minnesota Andrea O Reilly is Associate Professor in the School of Women's Studies at York University and President of the Association for Research on Mothering She is the author and editor of several books on mothering including with Sharon Abbey Mothers and Daughters Connection Empowerment and Transformation and Mothers and Sons Feminism Masculinity and the Struggle to Raise Our Sons

Ethnographic Feminisms Lynne Patricia Phillips, 1995 This significant new study contains the work of anthropologists engaged in doing research on gender The editors argue for the creation of an ethnography based feminism that at the same time pays heed to what women in specific circumstances identify as their concerns and also recognizes contradictions inherent in the goals of a feminist anthropology These essays grapple with a range of awkward issues including feminism in international contexts the invisibility of women's working lives and the problems of voice and ethnographic representation Referring to a variety of ethnographic contexts and working from diverse perspectives the contributors examine the multiple dilemmas and conflicts of gender and power A volume which will not only constitute a significant contribution to the social sciences literature both theoretically and substantively but will also place Canadian feminist anthropology on the cutting edge of global feminist anthropology I strongly recommend it Valda Blundell Carleton University

When Couples Become Parents Bonnie Fox, 2009-12-11 When couples make the journey through their first year of parenthood they confront the challenges of their new responsibilities with varying degrees of support and a range of personal resources When

Couples Become Parents examines the ways in which divisions based on gender both evolve and are challenged by heterosexual couples from late pregnancy through early parenthood Following the experiences of forty heterosexual couples in various socio economic positions Bonnie Fox traces the intricate interplay of social and material resources in the negotiations that occur between partners the resulting divisions of paid and unpaid work in their families and the dynamics in their relationships Exploring the diverse reactions of these women and men When Couples Become Parents provides significant insights into the early stages of parenthood the limitations of nuclear families and the gender inequalities that often develop with parenthood

The Existential Crisis of Motherhood Claire Arnold-Baker,2020-12-19 This book offers a new perspective on the motherhood experience Drawing on existential philosophy and recent phenomenological research into motherhood the book demonstrates how motherhood can be understood as an existential crisis It argues that an awareness of the existential issues women face will enable mothers to gain a deeper understanding of the multifaceted aspects of their experience The book is divided into four sections Existential Crisis Maternal Mental Health Crisis Social Crisis and Working with Existential

Crisis where each section Each chapter is based on either experiential research or the author s extensive therapeutic experience of working with mothers and reflects different aspects of the motherhood journey all through the lens of a philosophical existential approach The book is essential reading for mental health practitioners and researchers working with mothers midwives and health visitors but it is also written for mothers with the aim to offer new insights on this important life transition

The Jewish Woman in Contemporary Society A. Baker,1993-08-31 Across the religious non religious spectrum Jewish women have been affected by the women s movement the impact on some leading to a reassessment of the woman s role in Judaism with its emphasis on family and home Conversely a small but significant minority have withdrawn into the safety of extreme Orthodoxy In the centre the majority are seeking a balance between the powerful internalized message of Judaism extolling marriage and motherhood as woman s primary concern and a changing perception of themselves

The Cultural and Economic Context of Maternal Infanticide Martha Smithey,2018-11-23 This book examines the social economic and cultural conditions and stressors under which mothers commit infanticide and shows how these conditions affect the ability to meet societal and self perceived expectations of good mothering

Journal of the Association for Research on Mothering ,2005

Just Love Ann Mongoven,2009-07-13 Once upon a time civic virtue described an ethic of political involvement for all citizens As American democracy evolved however the public and private spheres separated The latter became domesticated and disengaged from public life by an ideology based on gender and a disinterested love of neighbor Private passion was to be isolated from public reason private love from public justice But it need not be so Drawing on examples of ordinary heroes Ann Mongoven argues for a transformed civic virtue that articulates just love passionate care for fellow citizens as such By connecting theory to practice Mongoven dramatizes the challenges raised through tangible political examples and lets ordinary heroes suggest the path toward civic renewal

Caring Peta Bowden,2008-01-28 In Caring Peta Bowden extends and challenges recent debates on feminist ethics She takes issue with accounts of the ethics of care that focus on alleged principles of caring rather than analysing caring in practice Caring Bowden argues must be understood by working through examples Following this approach Bowden explores four main caring practices mothering friendship nursing and citizenship Her analysis of the differences and similarities in these practices their varying degrees of intimacy and reciprocity formality and informality vulnerability and choice reveals the practical complexity of the ethics of care Caring recognizes that ethical practices constantly outrun the theories that attempt to explain them and Bowden s unique approach provides major new insights into the nature of care without resorting to indiscriminate unitary models It will be essential reading for all those interested in ethics gender studies nursing and the caring professions

Public Power, Private Interests and Where Do We Fit In? Edmund F. Byrne,1998 All over the world the statues of Mary are miraculously crying In the meantime a journalist in Washington D C is diverted away from her own personal demons when she takes it upon herself to question why the Vatican is not declaring these occurrences as miracles after witnessing the unexplainable

phenomena herself The journalist suspects her nightly barrage of haunting nightmares about the violent murders of countless women from five thousand year old priestesses to women accused of being witches in the seventeenth century may have something to do with the answer as she investigates the biggest story of her life Women all over the world in the 21st century are feeling the awakening as the discovery of ancient artifacts are disproving the beliefs set forth by patriarchal religions for thousands of years When the journalist receives a visitation from a beautiful Goddess who at first appears to be the Virgin Mary she suddenly realizes that an ancient religious and political cover up has grossly distorted some very important historical truths As the journalist investigates and begins to publicly write about what she has uncovered death threats and terror follow next as powerful members of the world's patriarchal religions and the age old male run organizations that support them fight viciously to keep one of the world's oldest and most deceptive societal form of control against women hidden from the world But as intimidation and threats increase so too do the miracles and visitations from the real Sleeping Goddess as she awakens once again to bless and protect the world while igniting the hearts and souls of oppressed women everywhere

Anatomising Embodiment and Organisation Theory K. Dale, 2000-11-08 Anatomising Embodiment and Organisation Theory explores the relationship between the human body and the development of social theory about organisations and organising The science of anatomy is taken as a pattern for knowledge both of the human body and or organisations and the twin symbols of dissection the scalpel and the mirror are used to understand the production of knowledge about organisations

Postmodernism, Feminism, and Cultural Politics Henry A. Giroux, 1991-01-22 This book introduces central assumptions that govern postmodern and feminist theory offering educators a language to create new ways of conceiving pedagogy and its relationship to social cultural and intellectual life It challenges some of the major categories and practices that have dominated educational theory and practice in the United States and in other countries since the beginning of the twentieth century Rejecting the apolitical nature of some postmodern discourses and the separatism characteristic of some versions of cultural feminism the contributors take a political stand rooted in concern with cultural and social justice In so doing these essays represent a linguistic shift regarding how we think about ethics foundationalism difference and culture The selections present a concern with developing a language that is critical of master narratives racism sexism and those technologies of power in schools that subjugate infantilize and oppress students The authors also develop a language of possibility that focuses on analyzing how power can be linked productively to knowledge how teachers can construct classroom social relations based on notions of equity and justice how critical pedagogy can contribute to an identity politics that is grounded in democratic relations and how teachers can develop analyses that enable students to become self reflective actors as they transform themselves and the conditions of their social existence
