From Scandinavia to America Steffen Elmer Jørgensen, Lars Scheving, Niels Peter Stilling, 1987 **From Scandinavia to America** Steffen Elmer Jørgensen, Lars Scheving, Niels Peter Stilling, 1987 *The Cambridge Handbook of Heritage Languages and Linguistics* Silvina Montrul, Maria Polinsky, 2021-11-25 Heritage languages are minority languages learned in a bilingual environment These include immigrant languages aboriginal or indigenous languages and historical minority languages In the last two decades heritage languages have become central to many areas of linguistic research from bilingual language acquisition education and language policies to theoretical linguistics Bringing together contributions from a team of internationally renowned experts this Handbook provides a state of the art overview of this emerging area of study from a number of different perspectives ranging from theoretical linguistics to language education and pedagogy Presenting comprehensive data on heritage languages from around the world it covers issues ranging from individual aspects of heritage language knowledge to broader societal educational and policy concerns in local global and international contexts Surveying the most current issues and trends in this exciting field it is essential reading for graduate students and researchers as well as language practitioners and other language professionals **Maritime History at the Crossroads** Frank Broeze, 2017-10-18 This volume seeks to critically review the contemporary state of maritime historiography as it stands at the volume's publication date of 1995 The volume is comprised of thirteen essays each focused on the recent research into the maritime concerns of a particular geographical location listed as follows Australia Canada China Denmark Germany Greece Ibero America India the Netherlands the Ottoman Empire Spain the United States and a final chapter concerning historians and maritime labour in Britain Australia and New Zealand One concern made evident by the collection is the lack of stable identity and cohesive aims within maritime history the subject holds many conflicting definitions and concepts The purpose of this volume is to explore the recent developments in maritime history plus the growth of scholarly interest to provide a beacon and stimulus for future work and to clearly direct and define maritime historiography toward a solid position in the field of history Icelandic Voice in Canadian Letters Daisy L. Neijmann, 1997 This fascinating study explores a remarkable ethnic Canadian literature in close textual and contextual terms for the first time It lays a groundwork for future comparative research in the field of ethnic Canadian studies and challenges assumptions about cultural identity and human experience of the new *Demographic Engineering: Population Strategies in Ethnic Conflict* Paul Morland, 2016-05-23 Demography has always mattered in conflict but with conflict increasingly of an inter ethnic nature with sharper demographic differences between ethnic groups and with the spread of democracy numbers count in conflict now more than ever This book argues for and develops a framework for demographic engineering which provides a fresh perspective for looking at political events in countries where ethnicity matters It asks how policies have been framed and implemented to change the demography of ethnic groups on the ground in their own interests It also examines how

successful these policies have been focusing on the cases of Sri Lanka Israel Palestine Northern Ireland and the USA Often these policies are hidden but author Paul Morland teases them out with skill both from the statistics and documentary records and through conversations with participants Offering a new way of thinking about demographic engineering hard demography versus soft demography and how ethnic groups in conflict deploy demographic strategies this book will have a broad appeal to demographers geographers and political scientists Danish Emigration to the U.S.A. Birgit Larsen, Henning Bender, 1992 In the making of this book authors from the United States and Denmark have joined forces in describing many different aspects of both emigration and assimilation **A Nation of Peoples** Elliott Robert Barkan, 1999-05-30 This text provides coverage of more than two dozen racial ethnic and religious groups in the United States Chapters discuss the initial arrival of immigrants the adaption of the first generation the economic political and cultural integration and the status of the group in society **A London Bibliography of the Social Sciences**, 1931 Vols 1 4 include material to June 1 1929 *Ethnic Leadership and Midwestern Politics* Jørn Brøndal, 2004 *Ethnic Leadership and Midwestern Politics* investigates the notion of ethnic identity as it relates to Scandinavian Americans and political affiliations in Wisconsin from 1890 1914 Jørn Brøndal traces the evolution of their political alliances as they move from an early patronage system to one of a more enlightened social awareness prompted by the Wisconsin Progressives led by Robert M La Follette Brøndal's exceptionally thorough research and cogent arguments combine to explain the workings of a political system that accorded nationality a major role in politics at the expense of real political social and economic issues in the early 1890s and how and why the Progressives determined to change that system Brøndal explains the change by looking at several important Scandinavian American institutions including the church mutual aid fraternities the temperance movement the Scandinavian language press political clubs and labor and farmer organizations showing how these institutions impacted the construction of a nascent sense of Scandinavian American national identity and made a lasting mark on the Scandinavian American role in politics *The Swedish-American Historical Quarterly*, 2002 **Beyond the Crisis in US American Studies** David E. Nye, 2007 This volume celebrates the 40th anniversary of the journal *American Studies* in Scandinavia which began publication in 1967 The first of a series of books that will bring together the distinctive scholarship of the Nordic Association for American Studies it situates Scandinavian practices in relation to American Studies debates inside the US where for a decade scholars argued about the shape and subject matter of the field Is this a crisis in American Studies as a whole Or is the problem largely confined to the United States How is this interdisciplinary activity different in a Scandinavian context These questions ultimately are about the field's direction and international coherence *Beyond the crisis in US American Studies* is an invitation to develop a dialogue across the Atlantic For too long European scholars have watched Americanists in the United States as though looking through a one way window invisible to those arguing on the other side of the glass For too long US Americanists have scarcely realized that what appeared a mirror could be a window
