He proposes specific definitions of excellence in film art through the creation a personal canon of both well known and obscure movies from around the world and suggests ways in which other canons might be similarly constructed Essential Cinema offers in depth assessments of an astonishing range of films established classics such as Rear Window M and Greed ambitious but flawed works like The Thin Red Line and Breaking the Waves eccentric masterpieces from around the world including Irma Vep and Archangel and recent films that have bitterly divided critics and viewers among them Eyes Wide Shut and A I He also explores the careers of such diverse filmmakers as Robert Altman Ra l Ruiz Frank Tashlin Elaine May Sam Fuller Terrence Davies Edward Yang Hou Hsiao hsien and Orson Welles In conclusion Rosenbaum offers his own film canon of 1 000 key works from the beginning of cinema to the present day A cogent and provocative argument about the art of film Essential Cinema is also a fiercely independent reference book of must see movies for film lovers everywhere **Film**

Cinematic Encounters 2 Jonathan Rosenbaum, 2019-05-30. Eschewing the idea of film reviewer as solitary expert, Jonathan Rosenbaum continues to advance his belief that a critic's ideal role is to mediate and facilitate our public discussion of cinema. **Portraits and Polemics** presents debate as an important form of cinematic encounter, whether one argues with filmmakers themselves on behalf of their work or with one's self. Rosenbaum takes on filmmakers like Chantal Akerman, Richard Linklater, Manoel De Oliveira, Mark Rappaport, Elaine May, and Bela Tarr. He also engages implicitly and explicitly with other writers, arguing with Pauline Kael and Wikipedia over Jacques Demy, with the *Hollywood Reporter* and *Variety* reviewers of Jarmusch's *The Limits of Control*, with David Thomson about James L. Brooks, and with many American and English film critics about misrepresented figures from Jerry Lewis to Yasujiro Ozu to Orson Welles. Throughout, Rosenbaum mines insights, pursues pet notions, and invites readers to join the fray. **Theorizing Film Acting** Aaron Taylor, 2012. This comprehensive collection provides theoretical accounts of the grounds and phenomenon of film acting. The volume features entries by some of the most prominent scholars on film acting who collectively represent the various theoretical traditions that constitute the discipline of film studies. Each section proposes novel ways of considering the recurring motifs in academic enquiries into film acting, including: 1) the mutually contingent problematic of description and interpretation; 2) the intricacies of bodily dynamics and their reception by audiences; 3) the significance of star performance; and 4) the impact of evolving technologies and film styles on acting traditions. **Suicide in the Entertainment Industry** David K.
