From the Silent Earth Joseph Alsop, 1965 **Modernism and the Mediterranean** Jan K. Birksted, 2017-07-05

Situated in a Mediterranean landscape the Maeght Foundation is a unique Modernist museum product of an extraordinary collaboration between the architect Jos uis Sert and the artists whose work was to be displayed there The architecture garden design and art offer a rare opportunity to see work in settings conceived in active collaboration with the artists themselves By focusing on the relationship between this art foundation and its Arcadian setting including Joan Mir labyrinth George Braque s pool Tal Coat s mosaic wall and Giacometti s terrace Jan K Birksted demonstrates how the building articulates many of the ideas that preoccupied this group of artists during the culminating years of their lives The study pays special attention to the ways in which architecture can shape the experience of time and addresses the Modernist desire for wilderness and its problematic roots in the classical Mediterranean ideal In showing how the design of the Maeght Foundation is a Modernist representation of Mediterranean culture the author has developed an interpretation of architecture that accommodates not only the architect s handling of material or function but shows as well how it can be the embodiment of a particular vision of space and time *From the Silent Earth* Joseph Alsop, 1962 Greek Realities Finley

Hooper, 1978 The questions they raised and the answers they offered are still the concern of us all Finley Hooper **The Architecture of the Museum** Michaela Giebelhausen, 2003-11-08 From the Louvre to the Bilbao Guggenheim and Tate Modern the museum has had a long standing relationship with the city Examination of the meaning of museum architecture in the urban environment considering issues such as forms of civic representation urban regeneration cultural tourism and the museumification of the city itself Ranging from the seventeenth century to the present day case studies are drawn from Europe South America and Australia Contributions written by J Birksted V Fraser H Lewi D J Meijers and others

Blegen** Jack L. Davis, Vasiliki Florou, Natalia Vogeikoff-Brogan, 2015-01-01 Carl Blegen is the most famous American archaeologist ever to work in Greece and no American has ever had a greater impact on Greek archaeology Yet Blegen unlike several others of his generation has found no biographer In part the explanation for this must lie in the fact that his life was so multifaceted not only was he

instrumental in creating the field of Aegean prehistory but Blegen his wife and their best friends the Hills the family were also significant forces in the social and intellectual community of Athens Authors who have contributed to this book have each researched one aspect of Blegen s life drawing on copious documentation in the United States England and Greece The result is a biography that sets Blegen and his closest colleagues in the social and academic milieu that gave rise to the discipline of classical archaeology in Greece

The Eisenhower Years Michael S. Mayer, 2009 The 34th U S president to hold office Dwight D Eisenhower won America over with his irresistible I like Ike slogan Bringing to the presidency his prestige as a commanding general during World War II he worked incessantly during his two terms to ease the tensions of the cold war Pursuing the moderate policies of Modern Republicanism he left a legacy of a stronger and more powerful nation From his crucial role in support of Brown v Board of Education to the National Defense Education Act The Eisenhower Years provides a well balanced study of these politically charged years Biographical entries on key figures of the Eisenhower era such as Allen W Dulles Joseph R McCarthy and Rosa Parks combine with speeches such as the Military Industrial Complex speech the Open Skies proposal the disturbance at Little Rock address Eisenhower Doctrine and his speech after the Soviet launch of Sputnik to give an in depth look at the executive actions of this administration
