From Word To Image Storyboarding And The Filmmaking Process:

From Word to Image Marcie Begleiter,2001 An overview of the storyboarding and filmmaking process that explains how storyboards are used to help directors visualize their stories and experiment with composition elements before production

The Age of the Image Stephen Apkon,2013-04-16 An urgent erudite and practical book that redefines literacy to embrace how we think and communicate now We live in a world that is awash in visual storytelling The recent technological revolutions in video recording editing and distribution are more akin to the development of movable type than any other such revolution in the last five hundred years And yet we are not popularly cognizant of or conversant with visual storytelling s grammar the coded messages of its style and the practical components of its production We are largely in a word illiterate But this is not a gloomy diagnosis of the collapse of civilization rather it is a celebration of the progress we ve made and an exhortation and a plan to seize the potential we re poised to enjoy The rules that define effective visual storytelling much like the rules that define written language do in fact exist and Stephen Apkon has long experience in deploying them teaching them and witnessing their power in the classroom and beyond In *The Age of the Image* drawing on the history of literacy from scroll to codex scribes to printing presses SMS to social media on the science of how various forms of storytelling work on the human brain and on the practical value of literacy in real world situations Apkon convincingly argues that now is the time to transform the way we teach create and communicate so that we can all step forward together into a rich and stimulating future
