From Rousseau To Lenin Studies In Ideology And Society:

From Rousseau to Lenin Lucio Colletti, 1972 **From Rousseau to Lenin** Lucio Colletti, 1972 This collection of Colletti's 1924-2001 principal Marxist essays will be welcomed by non-Italian readers. Colletti's concern as a Marxist was twofold: to interpret Marxism as profoundly and as flexibly as possible and to investigate the relationships between Marx's thought and that of a number of other thinkers as widely separated in time as Rousseau and Marcuse. His thought ranges widely through philosophy, history, sociology, politics, and economics without pausing at boundaries. Colletti's work from his Marxist period attempted to place the work of Marx in a line of descent that de-emphasizes Hegel while giving a novel focus to the relationship between Marxism and Kant.

From Rousseau to Lenin. Studies in ideology and society. Transl. by J. Merrington and J. White, 1972 **From Rousseau to Lenin; Studies in Ideology and Society** [Translated from the Italian by John Merrington and Judith White] Lucio Colletti, **Lenin and the Logic of Hegemony** Alan Shandro, 2014-07-10 In *Lenin and the Logic of Hegemony* by means of a careful textual and contextual analysis of the writings of Lenin and his Marxist contemporaries Alan Shandro traces the contours of the anti-metaphysical event identified by Gramsci in Lenin's political practice and theory: the emergence of the philosophical fact of hegemony. In so doing he effectively disputes conventional caricatures of Lenin's role as a political actor and thinker and unearths the underlying parameters of the concept of hegemony in the class struggle. He thereby clarifies the conceptual status of this pervasive but now increasingly elusive notion and the logic of theory and practice at work in it.

The First Marx Peter Lamb, Douglas Burnham, 2018-11-15 Marx's early work is well known and widely available but it is usually interpreted as at best a kind of stepping stone to the Marx of *Capital*. This book offers something completely different: it reconstructs from his first writings spanning from 1835 to 1846 a coherent and well-rounded political philosophy. The influence of Engels upon the development of that philosophy is discussed. This, it is argued, was a philosophy that Marx could have presented had he put the ideas together as he hinted was his eventual intention. Had he done so, this first Marx would have made an even greater contribution to social and political philosophy than is generally acknowledged today. Arguments regarding revolutionary change, contradiction, and other topics such as production, alienation, and emancipation contribute to a powerful analysis in the early works of Marx, one which is worthy of discussion on its own merits. This analysis is distributed among a range of books, papers, letters, and other writings and is gathered here for the first time. Marx's work of the period was driven by his commitment to emancipation. Moreover, as is discussed in the conclusion to this book, his emancipatory philosophy continues to have resonance today. This new book presents Marx in a unique new light and will be indispensable reading for all studying and following his work.

Democracy and Defiance Bryan Nelson, 2024-04-30 This book explores an often neglected current in contemporary French political thought that challenges the limits of the concept of democracy. It situates the projects of Jacques Rancière, Claude Lefort, and Miguel Abensour in relation to each other as well as to the larger philosophical question

of the nature of democracy itself In doing so Bryan Nelson illuminates democracy's potential as a profound emancipatory and transformative project offering an unprecedented challenge to modes of domination strategies of inequality and hierarchies of all kinds Against prevailing interpretations the author draws on the central concepts problems and polemics in the works of Ranciere Lefort and Abensour to develop a bold conception of democracy that allows us to rethink its character power and broader social and political implications

Black Sea Politics Ayse Ayata, Ayca Ergun, 2005-09-23 Directly relates to current Ukraine crisis Russia's Black Sea fleet is based in Ukrainian port of Sebastopol Crimea This work brings together scholars from a variety of disciplines on a region vitally important in current international relations for Europe Russia and the Near East offering fresh perspective combining regional insiders and outsider international experts If ideas of civil society democratisation are Western in nature then how should one examine these trends in a non Western society This book presents a variety of experiences of civil society looking at representation participation and power relations in countries such as the Ukraine Romania Bulgaria and the Caucasus area It is a rare combination of insider perspectives of regional experts and the outsider views of international experts

Interpreting Modern Political Philosophy Alistair Edwards, Jules Townshend, 2017-03-14 The interpretive literature in the history of political thought is now vast complex and esoteric posing as much a barrier to the understanding of the undergraduate student as it offers assistance This unique and innovative text provides the student with a guide through this maze of argument Each chapter sets out the major positions and debates that surround the texts of key thinkers analyzes major problems of interpreting them examines the sources of disagreement and evaluates the different interpretations in terms of their strengths weaknesses and contributions to scholarship

Philosophy after Marx Christoph Henning, 2014-04-17 Christoph Henning writes a concise history of misreadings of Marx in the 20th century Focussing on German philosophy from Heidegger to Habermas he also addresses the influence of Rawls and Neopragmatism subsequently scrutinizing a previous history of Marx interpretations that had served as the premises upon which these later works were based Henning sketches a historical trajectory in which a theory of socialist politics enters the fields of economics sociology critical theory and theology before finally overloaded with intellectually dead freight entering into philosophy In so doing he takes a hermeneutic approach to how misreadings in a specific field proliferate into further misreadings across a variety of fields leading to an accumulation of questionable preconceptions With the recent resurgence of interest in Marx Henning's historical recursions make evident where and how academic Anti Marxism had previously got it wrong English translation of Philosophie nach Marx 100 Jahre Marxrezeption und die normative Sozialphilosophie der Gegenwart in der Kritik Transcript Verlag Bielefeld 2005

Auguste Comte and the Religion of Humanity Andrew Wernick, 2001-04-30 This 2001 book offers an exciting reinterpretation of Auguste Comte the founder of French sociology Following the development of his philosophy of positivism Comte later focused on the importance of the emotions in his philosophy resulting in the creation of a new religious system the Religion of Humanity Andrew Wernick provides the first in depth critique of Comte's concept of religion and its place in his thinking on politics sociology and philosophy of science He places Comte's ideas in the context of post 1789 French political and intellectual history and of modern philosophy especially postmodernism Wernick relates Comte to Marx and Nietzsche as seminal figures of modernity and examines key features of modern and postmodern French social theory tracing the inherent flaws and disintegration of Comte's system Wernick offers original and fascinating insights in this rich study which will attract a wide audience from sociologists and philosophers to cultural theorists and historians *Marxism in Dark Times* Sobhanlal Datta Gupta, 2013-10-15 Offering an alternative exploration of the subject Marxism in Dark Times anchors its investigation of Marxism in the conceptual spheres of humanism democracy and pluralism Its essays question the stereotyped positivist notion of the theory as practised by the exponents of official Marxism highlight the legacy of the suppressed voices in the Marxist tradition and provide new insights into reading Marxism in the twenty first century affording new perspectives on Antonio Gramsci Rosa Luxemburg Nikolai Bukharin David Ryazanov and the Frankfurt School They seek to review the phenomenon of Perestroika explore the new historiography on Comintern and examine the relation between Marxism and postmodernism With its wide ranging provision of materials some translated here into English from German and Russian for the first time this collection offers a pioneering English assessment of some of the most debatable

issues in contemporary Marxism Western Political Thought: From Plato to Marx Jha, Shefali, 2009 Western Political Thought From Plato to Marx is a lucid and comprehensive account of political thought that stretches from ancient Greece to the nineteenth century Analysing political philosophies chronologically this book offers valuable insights into the political structures of societies across the ages and presents a wide perspective on the various social and political ideologies Each of the 12 chapters contains excerpts from the original works by the philosophers comprehensive reading list and thought provoking questions on the philosophies discussed Social Institutions and the Politics of Recognition: From the Reformation to the French Revolution Tony Burns, 2020-08-19 This second volume continues the story told in the first by focusing on the writings of a selection of seminal thinkers in the seventeenth and eighteenth centuries in England the German speaking world and in France ending with the debate around the French Revolution of 1789 Tony Burns discusses the work of Thomas Hobbes John Selden Sir Matthew Hale John Locke Samuel Clarke Johannes Althusius Samuel Pufendorf Gottfried Wilhelm Leibniz Jean Barbeyrac the anonymous author of Militaire philosophe Claude Buffier l abb de Saint Pierre Jean Jacques Burlamaqui Montesquieu Jean Jacques Rousseau l abb de Siey s Jeremy Bentham Immanuel Kant Mary Wollstonecraft and Claude Henri de Saint Simon The author concludes with an analysis of the concept of administration in the writings of Saint Simon as a point of transition to the discussion of the themes of bureaucracy technocracy and managerialism in the third volume *Money and Liberty in Modern Europe* William M. Reddy, 1987-01-30 The concept of class along with its correlates in class interest class conflict class consciousness remain indispensable tools of historical explanation Yet research over the last twenty five years especially on the histories of England France and Germany has revealed an increasingly poor fit between these concepts and the reality they purport to explain Some historians have reacted by rejecting class others have proposed bold revisions in our understanding of it that enable it to encompass new research findings This study does neither Instead building on interpretive method Professor Reddy proposes to replace class with an alternative concept that seeks to capture from a new angle the fundamental relations of exchange and authority that have shaped social life in modern Europe **Marx and Nature** P. Burkett, 1999-02-14 With Marx and Nature Paul Burkett reconstructs Marx s approach to nature society and environmental crisis While recognizing that production is structured by historically developed relations among producers Marx also insists that production as a social and material process is shaped and constrained by natural conditions including the natural condition of human bodily existence Marx s value analysis places him squarely in the camp of the growing number of ecological theorists questioning the ability of monetary and market based calculations to adequately represent the natural conditions of human production and development **Marx, the Young Hegelians, and the Origins of Radical Social Theory** Warren Breckman, 2001-02-19 This is the first major study of Marx and the Young Hegelians in twenty years The book offers a new interpretation of Marx s early development the political dimension of Young Hegelianism and that movement s relationship to political and intellectual currents in early nineteenth

century Germany Warren Breckman challenges the orthodox distinction drawn between the exclusively religious concerns of Hegelians in the 1830s and the sociopolitical preoccupations of the 1840s He shows that there are inextricable connections between the theological political and social discourses of the Hegelians in the 1830s The book draws together an account of major figures such as Feuerbach and Marx with discussions of lesser known but significant figures such as Eduard Gans August Cieszkowski Moses Hess F W J Schelling as well as such movements as French Saint Simonianism and positive philosophy Wide ranging in scope and synthetic in approach this is an important book for historians of philosophy theology political theory and nineteenth century ideas

Transnational Labour History Marcel van der Linden, 2017-07-05 There has been a growing recognition amongst scholars that labour historians need to look beyond national borders in order to place the history of the working classes into a much broader context than has hitherto been the case Whilst studies focused on individual countries are essential it is only by comparing and contrasting the experiences across time and space that a true understanding of the subject can be attempted Professor Marcel van der Linden has contributed much to the debate on cross border processes and comparisons This volume makes available in English a collection of twelve of his most important essays on the theme of transnational labour history Previously published in a range of journals and volumes with two original contributions Transnational Labour History brings them together in a single convenient collection together with a new introduction This work will undoubtedly provide an invaluable resource for all students of European labour history
