Fortifications in ancient Northeastern Africa** Friederike Jesse, Carola Vogel, 2013-01-01 **Between Two Worlds** László Török, 2009 The Egyptological literature usually belittles or ignores the political and intellectual initiative and success of the Nubian Twenty Fifth Dynasty in the reunification of Egypt while students of Nubian history frequently ignore or misunderstand the impact of Egyptian ideas on the cultural developments in pre and post Twenty Fifth Dynasty Nubia This book reassesses the textual and archaeological evidence concerning the interaction between Egypt and the polities emerging in Upper Nubia between the Late Neolithic period and 500 AD The investigation is carried out however from the special viewpoint of the political social economic religious and cultural history of the frontier region between Egypt and Nubia and not from the traditional viewpoint of the direct interaction between Egypt and the successive Nubian kingdoms of Kerma Napata and Meroe The result is a new picture of the bipolar acculturation processes occurring in the frontier region of Lower Nubia in particular and in the Upper Nubian centres in general The much debated issue of social and cultural Egyptianization is also reassessed **Unbroken Chains** Martin Plaut, 2025-08-28 A new full history of slavery in Africa from the Pharaohs to the present Slavery has ravaged African societies since at least 2 500 BCE from Egypt to the Cape from Mauritania to Somalia Most writing covers just one fraction of this history the horrors of the trans Atlantic slave trade Yet Indian Ocean slavery was equally sizeable and far longer lived Historians often neglect the continent's internal practices too Ethiopian kingdoms enslaving conquered peoples the Sokoto Caliphate capturing men and women on a scale matching the US plantations Overlooked stories of enslavement matter In 1794 Congress authorised construction of the US Navy's first six ships to protect civilian vessels from North Africa's Barbary corsairs who raided as far as Britain and the Caribbean enslaving hundreds of thousands of Europeans And since abolition of the trans Atlantic trade international focus on modern slavery has left Africans enslaved as chattel today with few champions The UN and African Union are too embarrassed to confront leaders still permitting this practice Unbroken Chains is the first full account of the bondage systems that have scarred African communities over the millennia It is an illuminating powerful read *Ancient African Religions* Robert M. Baum, 2024 This book examines the history of religions in Africa from the burial practices of the earliest humans to the rise of centralized theocratic kingdoms like ancient Egypt up to the rise of Islam in the Seventh Century **Albert Cleage Jr. and the Black Madonna and Child** Jawanza Eric Clark, 2016-09-14 In this collection black religious scholars and pastors whose expertise range from theology ethics and the psychology of religion to preaching religious aesthetics and religious education discuss the legacy of Albert B Cleage Jr and the idea of the Black Madonna and child Easter Sunday 2017 will mark the fifty year anniversary of Albert B Cleage Jr's unveiling of a mural of the

Black Madonna and child in his church in Detroit Michigan This unveiling symbolized a radical theological departure and disruption The mural helped symbolically launch Black Christian Nationalism and influenced the Black Power movement in the United States But fifty years later what has been the lasting impact of this act of theological innovation What is the legacy of Cleage s emphasis on the literal blackness of Jesus How has the idea of a Black Madonna and child informed notions of black womanhood motherhood LGBTQ communities How has Cleage s theology influenced Christian education Africana pastoral theology and the Black Arts Movement The contributors to this work discuss answers to these and many more questions

Greece, Macedon and Persia Timothy Howe,Erin Garvin,Graham Wrightson,2015-03-12 Greece Macedon and Persia contains a collection of papers related to the history and historiography of warfare politics and power in the Ancient Mediterranean world The contributions written by 19 recognized experts from a variety of methodological and evidentiary perspectives show how ancient peoples considered war and conflict at the heart of social political and economic activity Though focusing on a single theme war the papers are firmly based in the context of the wider social and literary issues of Ancient Mediterranean scholarship and as such consider war and conflict as part of a complex matrix of culture in which historical actors articulate their relationships with society and historical authors articulate their relationships with history

The result is a rich understanding of Ancient World history and history writing The volume is presented in honour of Waldemar Heckel a foremost scholar of Alexander the Great and ancient warfare *Archaeologies of Empire* Anna L. Boozer, Bleda S. Düring, Parker J. Bradley, 2020-10-15 Throughout history a large portion of the world's population has lived under imperial rule Although scholars do not always agree on when and where the roots of imperialism lie most would agree that imperial configurations have affected human history so profoundly that the legacy of ancient empires continues to structure the modern world in many ways Empires are best described as heterogeneous and dynamic patchworks of imperial configurations in which imperial power was the outcome of the complex interaction between evolving colonial structures and various types of agents in highly contingent relationships The goal of this volume is to harness the work of the next generation of empire scholars in order to foster new theoretical and methodological perspectives that are of relevance within and beyond archaeology and to foreground empires as a cross cultural category This book demonstrates how archaeological research can contribute to our conceptualization of empires across disciplinary boundaries **Trouble in the West** Stephen Ruzicka, 2012-04 This volume provides an account of the Persian Egyptian War a conflict that continued for nearly the 200 year duration of the Persian Empire *The Last Pharaohs* J. G. Manning, 2009-11-02 Manning's book is one of the most thought provoking studies on the Hellenistic world to have appeared for quite some time essential reading John Ray Times Literary Supplement The history of Ptolemaic Egypt has usually been doubly isolated separated both from the history of other Hellenistic states and from the history of ancient Egypt *The Last Pharaohs* the first detailed history of Ptolemaic Egypt as a state departs radically from previous studies by putting the Ptolemaic state firmly in the context of both Hellenistic and Egyptian history More broadly still J G Manning examines the Ptolemaic dynasty in the context of the study of authoritarian and premodern states shifting the focus of study away from modern European nation states and toward ancient Asian ones By analyzing Ptolemaic reforms of Egyptian economic and legal structures *The Last Pharaohs* gauges the impact of Ptolemaic rule on Egypt and the relationships that the Ptolemaic kings formed with Egyptian society Manning argues that the Ptolemies sought to rule through rather than over Egyptian society He tells how the Ptolemies adopting a pharaonic model of governance shaped Egyptian society and in turn were shaped by it Neither fully Greek nor wholly Egyptian the Ptolemaic state within its core Egyptian territory was a hybrid that departed from but did not break with Egyptian history Integrating the latest research on archaeology papyrology theories of the state and legal history as well as Hellenistic and Egyptian history *The Last Pharaohs* draws a dramatically new picture of Egypt's last ancient state Manning has produced a deep and meaningful study of the social and political relationships inherent in the Ptolemaic economy Timothy Howe Bryn Mawr Classical Review **The Routledge Handbook of Comparative World Rhetorics** Keith Lloyd, 2020-06-10 The Routledge Handbook of Comparative World Rhetorics offers a broad and comprehensive understanding of comparative or world rhetoric from ancient times to the modern day Bringing together an international team of established and emergent

scholars this Handbook looks beyond Greco Roman traditions in the study of rhetoric to provide an international cross cultural study of communication practices around the globe With dedicated sections covering theory and practice history pedagogy hybrids and the modern context this extensive collection will provide the reader with a solid understanding of how comparative rhetoric evolved how it re defines and expands the field of rhetorical studies what it contributes to our understanding of human communication its implications for the advancement of related fields such as composition technology language studies and literacy In a world where understanding how people communicate argue and persuade is as important as understanding their languages The Routledge Handbook of Comparative World Rhetorics is an essential resource for scholars and students of communication composition rhetoric cultural studies cultural rhetoric cross cultural studies transnational studies translingual studies and languages **Faithful Account of the Race** Stephen G.

Hall,2010-05-07 The civil rights and black power movements expanded popular awareness of the history and culture of African Americans But as Stephen Hall observes African American authors intellectuals ministers and abolitionists had been writing the history of the black experience since the 1800s With this book Hall recaptures and reconstructs a rich but largely overlooked tradition of historical writing by African Americans Hall charts the origins meanings methods evolution and maturation of African American historical writing from the period of the Early Republic to the twentieth century professionalization of the larger field of historical study He demonstrates how these works borrowed from and engaged with ideological and intellectual constructs from mainstream intellectual movements including the Enlightenment Romanticism Realism and Modernism Hall also explores the creation of discursive spaces that simultaneously reinforced and offered counter narratives to more mainstream historical discourse He sheds fresh light on the influence of the African diaspora on the development of historical study In so doing he provides a holistic portrait of African American history informed by developments within and outside the African American community History Lesson Mary R. Lefkowitz,2008-10-01 In the early 1990s Classics professor Mary Lefkowitz discovered that one of her faculty colleagues at Wellesley College was teaching his students that Greek culture had been stolen from Africa and that Jews were responsible for the slave trade This book tells the disturbing story of what happened when she spoke out Lefkowitz quickly learned that to investigate the origin and meaning of myths composed by people who have for centuries been dead and buried is one thing but it is quite another to critique myths that living people take very seriously She also found that many in academia were reluctant to challenge the fashionable idea that truth is merely a form of opinion For her insistent defense of obvious truths about the Greeks and the Jews Lefkowitz was embroiled in turmoil for a decade She faced institutional indifference angry colleagues reverse racism anti Semitism and even a lawsuit intended to silence her In History Lesson Lefkowitz describes what it was like to experience directly the power of both postmodernism and compensatory politics She offers personal insights into important issues of academic values and political correctness and she suggests practical solutions for the divisive and painful problems that arise

when a political agenda takes precedence over objective scholarship Her forthright tale uncovers surprising features in the landscape of higher education and an unexpected need for courage from those who venture there
